Entered as second-class matter at Medford, Oregon, under the act of March 3, 1879.

Subscription Rates: One year, by mail, \$5.00; One month, by mail, \$1.00.

M'MAHON PLACE OF 1500 ACRES SOLD TO MISS O'CONNOR

For a consideration of considerably more than \$200,000 Miss Kate O'Connor and Edward Butterfield of Rockford, Illinois, have purchased the McMahon ranch of 1500 acres lying about three miles east of Talent.

The property is well known in the valley and comprises some of the best pear soil in this section. The soil was carefully examined by experts previous to the purchase and their report to the purchaser is said to have been most flattering to the property.

Miss O'Connor is one of the foremost suffrage workers in the United States and has long been active in Women's club circles. She controls and directs a large real estate business with headquarters at Rockford and will direct the sale of the property in small tracts from that office.

C. J. Blake of Seattle and P. R. Kennedy of Los Angeles are in Medford with Miss O'Connor and Mr. Butterfield. They looked over the property and furnished the purchasers with an opinion in regard to it.

GERMANS DEPLORE WAR WITH BRITAIN

VANCOUVER, B. C., July 24.—That war between Great Britain and Germany would not only be unthinkable but a crime against the white race was the sentiment generally expressed and loudly applauded at the banquet given by the Germany Club of Vancouver last evening in honor of Dr. Herman Paasche, vice-president of the German Reichstag, who sails for the Orient today on the Empress of Japan.

Dr. Paasche, said he was delighted that he had changed his itinerary from San Francisco to Vancouver. He was delighted to once more visit Canada. It was a country of unlimited possibilities. He was glad to see so many Germans doing well in the Dominion. There was a time when Germany was threatened by the danger of the United States imports crowding out home products but that was now passed. The time will come when Germany will not be able to supply its own market and when it did he hoped Canada would supply the demand.

JACKSON COUNTY FAIR DATES ARE CHANGED

Because of Roseburg giving up its fair, the Jackson county fair will be held from September 17 to 21, instead of from October 1 to 5, as originally intended. The change was made in order to secure the race horses and other features intended for that city. The fair will be the largest and most auspicious ever held in southern Oregon from every standpoint.

For the "Made in Medford" exhibit prizes aggregating \$290 will be given. The prizes for the pear exhibits will total \$250, with \$50 for the best exhibit of not less than three varieties of three boxes each.

THE VALLEY'S OPPORTUNITY

A DISPATCH from Vale states that between 16,000 and 18,000 acres of land have been signed up at \$80 an acre for irrigation under a projected system in the Malheur district. The dispatch reads as follows:

Residents of Vale and ranchers of the tributary country who are to be benefited by the Bully creek irrigation project are jubilant over the progress in the financing of the project, promoters having given out that the Lamberson reservoir would be put in this fall.

A deed of trust filed with the county clerk shows that the Colonial Trust company of Philadelphia has accepted the trusteeship and securities of the Vale-Oregon Irrigation company, and that arrangements have been completed for the selling of the bonds, amounting to \$2,000,000. The mortgage states that the project shall be completed by December 1, 1914. The price of water per acre will be \$80. Between 17,000 and 18,000 acres have already been signed up.

The reservoirs of the project will store enough flood waters for the 40,000 acres that can be covered by the project.

A project of still greater magnitude is offered the Rogue River valley. The Rogue River Canal company offers to extend its irrigation system to cover the entire valley from Talent north at an estimated cost of \$2,500,000. Only 10,000 acres are required to be signed up at the low price of \$50 per acre, \$30 an acre less than the Malheur people are eager to pay.

Moreover, the local project is not an experimental one and not a gamble on futurity. The company is owned by wealthy, successful business men with large investments in the community. The have shown their good faith and demonstrated the value of water to the property covered.

The price asked for water is extremely low, lower than is asked in Idaho, Montana, eastern Oregon or other sections. The water is already flowing through miles of canals and there is ample in sight for all demands.

Every farmer, every orchardist, every owner of idle land should jump at the chance to increase his output and double the value of his property by irrigation.

In the not far distant future, the only land that will always be in demand and readily sold will be that covered by water.

LOWER RATE SPUDS FROM KLAMATH

The Southern Pacific railroad company has granted a reduction in rates on potatoes from Klamath Falls to points in the Rogue River valley. The new rates are as follows:

From Klamath Falls to Ashland \$4.00 per ton. Points north of Ashland to Medford, \$4.25 per ton; points north of Medford to Grants Pass \$4.50 per ton. Minimum carload weight 15 tons.

The former rate was \$6 a ton from Klamath Falls to all points north as far as Portland.

There are more potatoes being grown in the Klamath country just now than ever before. Estimates show that more than four times the amount of ground is planted this year than last year and more than a dozen cars were shipped out last season.

This reduction comes along the line of a lower rate recently received from shipment of grain from Klamath Falls to the Rogue river country. Heretofore the freight rate has been almost prohibitive while the new rate will make it possible to ship grain to the Rogue river mills where it can be worked into flour as well as the shipment of potatoes to the markets of this country instead of having to depend exclusively on the California markets for Klamath county products.

VOLCANIC ASH FILLS AIR AROUND KODIAK

TACOMA, Wash., July 24.—Captain M. M. Jensen of the steamer Admiral Sampson which returned last night from Kodiak, Alaska, reported that there was still volcanic ash in the air at Kodiak from the recent eruption but that the vegetation appeared greener and the ash on the ground was rapidly disappearing.

WASHINGTON DODGE RESIGNS TO BECOME BANK OFFICIAL

SAN FRANCISCO, Cal., July 24.—Dr. Washington Dodge a survivor of the Titanic disaster and for fourteen years assessor for the city and county of San Francisco today has resigned his position to become vice-president of the London and Anglo-Paris-American Bank.

TRAIN CREW BLAMED FOR LACKAWANNA WRECK

CORNING, N. Y., July 24.—A circuit court jury here today found that negligence by Flagman Lane and Engineer Schroeder was responsible for the Fourth of July wreck on the Lackawanna railroad near here in which forty persons were killed.

FOURTEEN MINERS PERISH IN FRICK COAL MINE

UNIONTOWN, Pa., July 24.—Officials of the Baltimore and Ohio railroad here this afternoon confirmed reports that 14 miners were drowned in the Frick coal mine near Evan's Station. A later report was changed to "fourteen lives probably lost" although it was certain that from 35 to 40 miners were endangered.

WIRE TO EVAN'S STATION ARE DOWN

It is difficult to confirm the rumor that wires to Evan's Station are down and that the mine is now a "black hole."

RACE RIOT MARS ARMY MANEUVERS

CENTRALIA, Wn., July 24.—The red army under command of Colonel Kennon broke camp at Montesano at 8 o'clock this morning and marched to Ford's prairie, eight miles east of Elma. The weather today was ideal for marching. The red army will remain in camp at Ford's prairie until tomorrow morning.

The blue army, under command of Colonel Young will remain in camp at Gate City, 13 miles west of Centralia, today, the evident intention of the commander being to wait the advance of the red army.

The advance skirmishers of the two armies may meet late today, but it will be Friday at least, before the two main bodies go into action.

A near-race riot occurred last night between colored troopers of the 25th United States infantry and a number of Idaho guardsmen. A battalion of infantry was called from camp and quelled the disturbance but not until more than 150 soldiers were involved. The initial offenders will be court-martialed.

REALTY DEALER SOUNDLY THRASHED BY A WOMAN

RICHMOND, Cal., July 24.—"Not since my knee pants days have I suffered such a whipping as that woman gave me."

This was the assertion here today of A. C. Parsons, wealthy real estate operator of Oakland and Los Angeles, who alleges that he was lashed with a horsewhip by Mrs. L. Jacob, a realty saleswoman of Richmond, following an argument over a business deal. Parsons alleges Mrs. Jacob signed documents under two names and when he remonstrated, got busy with the lash. Mrs. Jacob was released on \$50 bail for a hearing later in the week.

FEMALE WIRELESS OPERATOR EMPLOYED

WASHINGTON, July 24.—Because Maybelle Kelo, the only woman holding a government certificate as a wireless operator, has accepted the position of wireless "man" in the liner Marposa out of San Francisco, it is probable congress will be asked to legislate to bar women from such positions hereafter.

SUFFRAGETTES PLANNING WARLIKE DEMONSTRATION

LONDON, July 24.—Tipped off by Scotland Yard detectives that an unprecedented demonstration by militant suffragettes is near, additional police were detailed today to the task of guarding cabinet officers, their homes and members of their families. Despite denials by suffragette leaders, the police insist that Dr. Ethel Smyth, the musical composer, was involved in the attempt on July 31 to burn the home of Colonel Secretary Harcourt.

ORDER SURVEY STATE HIGHWAY TO OREGON LINE

SACRAMENTO, July 24.—The State Highway Commission has issued an order directing that a survey be made of a proposed route for the state highway, starting at a point a short distance north of Redding, Shasta County where the roads passing through the city of Redding and the one going over the river at Frye Bridge meet on the east side and up to the McCloud river, crossing the Sacramento at Antler and thence traversing the bank of the Sacramento to Dunsuir and on to Sisson and the Oregon line.

It has been definitely decided by the commission that if the city of Redding and the county of Shasta constructs the proposed bridge across the Sacramento at Reed's Ferry, that the state highway to be constructed under the \$18,000,000 bond issue will go through the Shasta county seat.

Before the commission orders the survey accepted or calls for bids on this work, however, the city of Redding must show that it will construct this bridge.

The action will mean that the road to be constructed by the State will not leave Redding to the east

and traverse the Sacramento on the eastern bank. The road will hit the McCloud at a point near Baird. It will not go over the McCloud range. It will traverse the Sacramento northward from Antler where a crossing will be made.

Tubes closed at the bottom and provided with flaps for sealing the top, have been invented by a New Yorker to facilitate wrapping coils.

WHERE TO GO TONIGHT STAR THEATRE

CARDUI WORKED LIKE A CHARM

After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer."

I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die.

At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pains.

Cardui worked like a charm. There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been in successful use for more than 50 years, for the treatment of womanly weakness and disease.

Please try it, for your troubles. N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

KRYPTOK INVISIBLE BI-FOCAL

lenses enable him to see near and far with the same glasses. Yet there are no cemented pieces and no lines of separation—consequently no clouded vision, no dropping apart and no collecting of dirt.

Kryptoks are as graceful on the face as ordinary glasses and equally practical—the most wonderful bifocals yet produced.

Come in and see them.

DR. RICKERT EYESIGHT SPECIALIST Over Kentner's.

S.S.S. PURELY VEGETABLE

The absolute vegetable purity of S.S.S. has always been one of the strongest points in its favor, and is one of the principal reasons why it is the most widely known and universally used of all blood medicines. A great many of the so-called blood purifiers are really nothing more than strong mineral mixtures which act so unpleasantly and disastrously on the delicate membranes and tissues of the stomach and bowels, that even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S.S.S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and barks, each of which is in daily use in some form by physicians in their practice. Years of work and research have proven S.S.S. to contain everything necessary to purify the blood and at the same time supply the system with the purest and best tonic effects. S.S.S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles, and it leaves the system in perfect condition when it has purified the blood. Book containing much valuable information on the blood and any medical advice desired sent free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Notice to Water Users

Commencing today, July 17th, the use of water for sprinkling will be restricted to the following districts during the hours designated until further notice:

All that portion of the city north of the center of Main street from 3 p. m. to 9 p. m. only.

All that portion of the city south of the center of Main street from 4 a. m. to 10 a. m. only.

Irrigating with open hose or allowing water to run from any tap or faucet for irrigating without using a hose on which there is a sprinkler or a nozzle, is an offense and punishable as cited in ordinance No. 669.

The above rules will be most rigidly enforced.
