HOW SUGAR TRUST FOUGHT RIVAL IS TOLD BY OXNARD

SAN FRANCISCO, Cal., July 29.—Declaring that the attempt of the American Sugar Beet company, an independent concern, to compete with the trust in Missouri River points resulted in the immediate declaration of a trade-war to the finish by the trust and the application of Sherman's definition to the economic field, Robert Oxnard, vice president of the independent company, today contributed the most important testimony thus far placed in the records at the local hearing of the dissolution suit brought by the government.

"Just as soon as we began shipping our output to the Missouri River district, the American Sugar Refining company reduced its price from over five cents per pound to 3 1/2 cents. The reduction was made only where we were competing," was Oxnard's statement.

"It was trade war in everything that war means. It was an attempt to drive us out of business, and would doubtless have succeeded had we not had recourse to our wealthy stockholders to tide us over the crisis."

APPEAL WILL BE TAKEN

(Continued from page 1.)

Twohy Bros. contract, let this year, and prior to the bridge contract, we find we have not enough in all of the available resources of the county to build the bridge.

Available for Bridge

"The account will stand as follows:

| | |
|------------------------------------|--------------|
| Assets | |
| In Treasury Jan. 1... | \$ 6340.04 |
| From sources other than 1911 taxes | 6,000.00 |
| Amount of General fund levy | 72,000.00 |
| Amount of Road levy | 76,000.00 |
| Total assets | \$160,340.04 |

| | |
|--|--------------|
| Liabilities | |
| Paid by Treasurer, road warrants | \$ 45,724.80 |
| Paid by Treasurer, general warrants | 40,627.48 |
| Received by Sheriff for taxes, road warrants | 12,253.40 |
| Received by Sheriff for general warrants | 4,510.66 |
| General expenses for five months | 20,000.00 |
| Warrants issued, against 1912 road account | 16,116.62 |
| Twohy Bros. 2nd contract | 5,452.25 |
| Balance applicable to bridge | 16,254.83 |
| Total | \$160,340.04 |

This is the most favorable result I can reach for the bridge.

From Another Viewpoint

"Or if we look at the matter from

another standpoint, we find the treasurer has paid out for road and general warrant redemption, and the sheriff has redeemed in payment of taxes, a total of \$102,518.34. Of this, the cash on hand and the money received from other sources, \$12,340.04, should be deducted, and we have \$90,178.30, more than one-half of which must be road money, in the proportion of 20 to 19. But half and half will be sufficient for the purpose, and we find one half or \$45,089.15 is derived from the road levy. This deducted from the total road levy of \$76,000 gives \$30,911.85 left of the road levy not already paid out.

"From this amount if we deduct the warrants issued against the 1912 road fund, \$16,116.62, and the second Twohy Bros. contract, \$5,452.25, we have left \$9,343.98 to apply to the building of the bridge.

Money Already Spent

"But if we take the most reasonable figures to my mind, we shall arrive at this result: It is stated in defendant's brief that two thirds of the taxes have been collected. It is stated in the stipulation that all of the moneys were placed in the general fund, and that they have all been paid out in the redemption of warrants. This leaves one-third of the road fund available. The general fund has already all been appropriated and must be used to pay off the oldest outstanding involuntary indebtedness. Against the bridge fund, \$16,116.62 for road purposes in 1912, and Twohy Bros. second contract for \$5,452.25 is prior to the bridge contract, which leaves us only \$3,797.89 to apply to the building of the bridge.

"It is argued that everything that has been done must be considered as having affected only the general fund and that the bridge fund is intact; but I am unable to see how we can say that when the money is spent and gone, we still have it in hand and can use. Nor do I know any process whereby we can transfer moneys from the general fund to the road fund to make up for such deficit.

Right of the County

"As to the branch of the case, the right of the county to build a bridge in Medford, I have not gone into extensively, as it is not necessary to a determination of the case as I see it. But it would seem to me that a special law, imposing upon a county the duty of building and maintaining a bridge, would fall within the provision of Art. IV, Sec. 23.

It has been often held that this Constitutional limitation did not apply to cities, because the control of roads and streets within the city is part of municipal functions, and permitted by Art XI, Sec. 2 before it was amended. But while that would no doubt be true as affecting the city, it would seem that it would not be true, when an attempt was made to throw a burden on the county by a special enactment.

I have reached the conclusion that the county cannot carry out the contract for the bridge without incurring additional indebtedness, and should be restrained from attempting to do so.

F. M. CALKINS, Judge.

BOURNE DECLINES TO BE CANDIDATE FOR RE-ELECTION

WASHINGTON, July 29.—Senator Bourne, replying to letters urging him to re-consider his decision not to be a candidate for re-election, many of which have been received by him, writes that he appreciates the evidences of good will and confidence, but would consider it a reflection on the primary system of Oregon to become a candidate for the senate unless Ben Seiling's nomination should be declared fraudulent. Initiative in determining this as well as in placing his name before the people, would have to come from others than himself.

After adjournment Senator Bourne will visit Oregon.

scotched to the Boland brothers for endorsement while he was trying their case. Archbald says he did not think such action was improper as he forgot that the Bolands were in his court.

The charge that he received money from Henry W. Cannon, a capitalist identified with many railroads which were concerned in litigation before him, for an European trip, is met by the statement that Cannon is a relative by marriage. That he received a purse of \$525, donated by lawyers in his court when he left for Europe, is admitted, but Archbald says it was a mere testimonial of friendship, which he could not have refused without impugning the motives of friends.

Ignorance Also Pleaded

Archbald says he appointed J. B. Woodward a jury commissioner of his federal court in Seranton, without knowing Woodward was a Lehigh Valley railroad attorney.

The respondent denies, Archbald's answer concludes, "that he undertook to carry on a general business for speculation and profit in purchase and sale of coal dumps, or undertook to compromise litigation pending before the inter-state commerce commission for a valuable consideration or ever concealed his interest in any personal contracts. In very few cases did he invest any money or other thing of value, except his personal services, without using his influence as a judge in any of them."
