By "Bud" Fisher

NO LIMITATION ON USE OF WATER

of Medford has raised the limitations trator. placed two weeks ago on the use of water in the city. Water users may now irrigate during any hours they U. S. to Eugene S. Jenks, 120 see fit but the city will closely watch the manner in which the water is used and will shut off the supply if any water user is found using an George L. Davis to Maggie P. open hose or allowing the water to run to waste. It has been decided that there is plenty of water for all purposes if the property owners are not careless in their use of it.

Very little heed was paid to the restrictions placed upon the use of water, the water users stating that the water might as well be turned off L. C. Applegate to Fermin as limited. On the south side of the city where the property owners were forced to irrigate in the morning was this especially true. Many restdents state that water in the morning on hot days was worse than no water at all as the sun baked the ground. So they irrigated in the evening regardless of orders. The ordinance provided no penalty other than shutting off the water.
