tariff, the regulation of the trusts and the prevention of monopoly, the adaptation of our banking and currency laws to the varied uses to which our people must put them, the treatment of those who do the daily labor in our factories and mines and throughout all our great industrial and commercial undertakings, and the political life of the people of the Philippines, for whom we hold governmental power in trust, for their service not our own. The other, the additional duty is the great task of protecting our people and our resources and of keeping open to the whole people the doors of opportunity through which they must, generation by generation, pass if they are to make conquest of their fortunes in health, in freedom, in peace, and in contentment. In the performance of this second great duty we are face to face with questions of conservation and of development, questions of forests and water powers and mines and water ways, of the building of an adequate merchant marine, and the opening of every highway and facility and the setting up of every safeguard needed by a great industrial, expanding Nation.

Servants of the People We are servants of the people, the whole people. The Nation has been unnecessarily, unreasonably at war within itself. Interest has clashed with interest when there were common principles of right and of fair dealing which might and should have bound them all together, not as rivals, but as partners. As the servants of all, we are bound to undertake the great duty of accommodation and adjustment.

A presidential campaign may easily degenerate into a mere personal contest and so lose its real dignity and significance. There is no indispensable man. The government will not collapse and go to pieces if any one of the gentlemen who are seeking to be entrusted with its guidance should be left at home. But men are instruments. We are as important as the cause we represent, and in order to be important must really represent a cause. What is our cause? The people's cause? That is easy to say, but what does it mean? The common as against any particular interest whatever? Yes, but that, too, needs translation into acts and policies. We represent the desire to set up an unentangled government, a government that cannot be used for private purposes, either in the field of business or in the field of politics; a government that will not tolerate the use of the organization of a great party to serve the personal aims and ambitions of any individual, and that will not permit legislation to be employed to further any private interest. It is a great conception, but I am free to serve it, as you also are. I could not have accepted a nomination which left me bound to any man or any group of men. No man can be just who is not free; and no man who has to show favors ought to undertake the solemn responsibility of government in any rank or post whatever, least of all in the supreme post of President of the United States.

EASTERN BROOK TROUT FRY ARRIVE

Three thousand five hundred eastern brook fry were received by the Rogue River Fish Protective Association Wednesday in good condition from the state game and fish association for planting in local met the train and took care of the fry.

Five thousand fry were taken by A. H. Miller to the headwaters of the Little Applegate and planted. The balance of the fry will be taken over the Pacific & Eastern to Big Butte and planted, officials of the association stating that it was useless to plant them in the Little Butte as the ditch owners have failed to comply with the law and screen their irrigation intakes. No fish, they state, will be placed by them in streams where owners refuse to comply with the law.

With the fry came a consignment of trout from 6 inches to a foot long for the Mail Tribune aquarium and can be seen in the Mail Tribune window. They consist principally of eastern brook and rainbow trout, with two freak fish—albino salmon with pink eyes.

MUST SHUT OFF WATER DURING FIRE

Hereafter when a fire alarm is turned in, water users in Medford must make a spirited dash for their hydrants and ascertain that the same are closed tightly. Such were the orders issued by Fire Chief Amann yesterday afternoon.

That there may be no excuse by the residents that they did not know that there was a fire, arrangements are being made with the owners of the Natatorium to pull the cord of the big whistle when an alarm is given.

The order,—which by the way is according to city ordinance,—is to be rigidly enforced, a fine being imposed for every offense.

A small fire broke out yesterday at the home of Superintendent U. S. Collins on Tenth street. The origin was a paint bucket partially filled with rags that had been left under the eaves which took fire through spontaneous combustion. Little damage was suffered, the fire boys extinguishing the blaze with a fire hose after a record run from the station.

WESTVILLE MOVED DOWN THE RIVER

Having completed the work on the Crater Lake road in the neighborhood of the Peeler place just this side of Plounee Rock the residents of Westville, Honor Camp No. 1, have moved their city several miles down the river and are now engaged in eliminating several of the pitches between the Enyart ranch and the Gordon place. The camp was moved at the end of last week and now having completed that task the honor men are at work again on the road.

At several points on the road sharp pitches occur which have long proved troublesome to travelers. The government survey down the river will be followed and a water grade maintained.

The grade built by the honor men for several miles this side of the Peeler place is in excellent condition and automobiles are making rapid time over it.

NOTICE TO WATER USERS. Arrangements have been made with the Natatorium company for the blowing of the whistle at that place in case of fire. You are hereby notified to shut off any water which you may have running when the whistle blows and keep it turned off until three blasts are blown which will mean that the fire is extinguished.

The shutting off of water is provided for by ordinance and all violations will be prosecuted.

EUGENE AMANN, Fire Chief.

Mrs. John Sheridan has left for a visit with friends at Toledo, O.

A Careful Perusal Will Prove Its Value to Every Mail Tribune Reader

The average man is a doubter, and there is little wonder that this is so. Misrepresentations make people skeptical. Now-a-days the public asks for better evidence than the testimony of strangers. Here is proof which should convince every Mail Tribune reader.

H. J. Durfee, 32 N. Bartlett st., Medford, Ore., says: "I was troubled by my kidneys off and on for years. If I caught a slight cold, it always settled in them, causing my back to become very lame, weak and painful. Last summer I was suffering in that way and on a friend's advice, I procured Doan's Kidney Pills. I found this remedy to be exactly as represented and in a few days the trouble left me. I know of many other persons who have obtained benefit from Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
