CANAL BILL IS AGREED UPON FOR FINAL PASSAGE

WASHINGTON, Aug. 13.—Prospects on congress today were for an early agreement between the house and senate on the Panama Canal bill, and that President Taft will sign the measure at once on its final passage. It is predicted that if he does so Great Britain will immediately protest to The Hague tribunal.

Senator Burton of Ohio is one of those who still strenuously oppose the canal bill as at present framed. He said today:

"The measure is a parable violation of the Hay-Pauncefote treaty, an 'amiable with the circumstances' under which that treaty was framed. Secretary Hay demanded the 'open door' in China. Russia and other nations acquiesced. Our policy for 100 years has been insistence upon absolute equality for the nations in all navigable channels. We could not be consistent now with this treaty without agreeing to grant equal privilege to all nations regarding the canal. The treaty plainly expressed that intention."

When the 58th annual convention of the International Typographical Union opened here today the principal topic under discussion was the Chicago newspaper strike.

The suspended Chicago stereotypes desired a hearing at the convention but President James Lynch of the Typographical Union, in the chair refused to permit President L. C. Straube of the suspended union to speak from the floor.

President Lynch stated that President Froel of the International Stereotype Union, alone would be permitted to explain the Chicago strike.

A resolution protesting against the proposed increase in postal rates on second class mail matter was adopted.

The anti-administration forces started a fight over the report of the law committee on a resolution to print decisions in appealed cases, but after a prolonged speech by President Lynch they were completely routed. The committee reported unfavorably on the plan, declaring that it would cost \$30,000 a year to print the reports.

Governor Thomas R. Marshall, the democratic nominee for vice president, has accepted an invitation to deliver the commencement address at Valparaiso university on August 15.

SAILORS PLANNED TO SEIZE ROYAL FAMILY OF RUSSIA

ODESSA, Aug. 13.—Sixteen sailors and petty officers are under sentence of death here today as the result of a revolutionary plot framed on board the battleship Ivan Zlatoust of the Black Sea fleet, by which it was intended to seize the Russian imperial family on board their yacht and force Czar Nicholas to abdicate.

The conspirators planned to hold up the imperial yacht while the Czar and his family were being conveyed from Yalta, their favorite resort in the Crimea, to Sebastopol. The seizure, it is said, was to have been the signal to the mutinous Baltic fleet to attack St. Petersburg and Kronstadt simultaneously, with the object of establishing a limited monarchy and a constitutional regime.

APPEL SPEAKS IN DARROW'S BEHALF

LOS ANGELES, Cal., Aug. 13.—Horace Appel delivered today the opening address to the jury in behalf of Clarence S. Darrow in the labor attorney's trial on a charge of having bribed jurors in the McNamara dynamiting case.

Earl Rogers, Darrow's chief counsel, is scheduled to start his argument late this afternoon.

Appel swayed his hearers with the earnestness of his appeal. He devoted the morning almost entirely to an attack on the testimony of Informer Bert Franklin, which is the foundation of the state's case, and applied every epithet in his vocabulary.

CORVALLIS COLLEGE ISSUES POLINIZATION PAMPHLET

CORVALLIS, Ore., Aug. 13.—"The Pollination Question" has just come from the press at the Oregon Agricultural College. It was prepared in the experiment station's Horticultural research laboratory, and discusses the pollination of apples and

pears, setting forth some of the practical results obtained in work throughout the state during several years past. It gives a general broad view of the important points to be kept in mind with respect to this phase of orcharding. Another publication will be issued later on, dealing exclusively with the research side of the work.

Experiments on pollination problems of apples and pears in the Rogue River, Willamette, Hood River and Walla Walla valleys have been in progress for several years.
