

OZCO'S TROOPS LEAVE JUAREZ TO ATTACK CAPITAL

EL PASO, Texas, Aug. 16.—With out disorder and but little looting, the last of General Orozco's Mexican rebel troops quietly boarded a train of the Mexican Central railroad in Juarez today and departed for Villa Ahumada, there to start marching overland into the state of Coahuila, through the mountain passes southward, hoping to join General Zapata in the campaign against Mexico City.

After the departure of General Orozco, Juan Medina, head of the vigilance committee, took charge of Juarez, and is preserving order pending the arrival of Generals Telles and Huerta, who are coming at the head of an army of several thousand federals.

General Telles is expected to arrive tonight but it is believed General Huerta will make an effort to head off General Orozco.

While preparations were under way for moving, many residents of Juarez, fearing trouble from Orozco's soldiers, fled across the Rio Grande into El Paso, but nearly all of the have returned today. Business generally was resumed in Juarez today for the first time in months.

GOVERNOR WILSON OPENS CAMPAIGN

CLOUCESTER, N. J., Aug. 16.—Under the glare of a hot sun thousands of farmers massed about Governor Woodrow Wilson yesterday heard him give his first campaign speech since officially notified of the nomination.

He said he had seldom seen interest in the farmer regarded in legislation, that one of the greatest impositions upon the farmer was the present tariff.

"My indictment against the tariff is that it represents special partnerships, does not represent the general interest," he said. "The tariff measures are measures for the merchant and manufacturers. The farmer pays just as high a proportion of the tariff in the United States as any one else."

He declared this was the only civilized country where the government does not see to it that rates established by the government enable men to ship goods as they please.
