FOOTBALL TEAM TO ORGANIZE

The first football game of the season will be played on Sept 21 or 28 when the High school boys will meet a team composed of former High school players. The alumni have called a meeting for next Sunday morning at the Nat and at that time the team will be made up and plans perfected.

Prospects are bright for a good team at the High school this year. Bob Boswell, who played tackle last year, is the captain and has a nucleus of experienced players about which to form a team. Beveridge, Schuchard and Radcliff are among the old players who are at school this season. In the new class there are several huskies who have played the game and in addition there are a number of students who, for one reason or another, could not play last year who will be out for practice this season. The success of the team depends largely upon the size of the squad that gets out for practice and efforts will be made to have a second team always in the field.

Coach Frost this year will have assistance from Mr. Jewell, new physics teacher, who has had experience on a college team. It is understood that while the offense is not to be perceptibly slighted, the defense and kicking ends of the game will be given special attention. The boys will be out for practice as soon as the weather permits. A football rally is slated as an early event of the High school.

To rebuild the Pyramid of Cheops under modern conditions would cost \$100,000,000 in money and the labor of 40,000 men for two years.

If you drink because of a craving for stimulants—if you've reached the stage where nothing will satisfy excepting rough, high-proof, strong whiskey—our story is not for you. But if it's mellowness, age and flavor you're looking for—you'll like Cyrus Noble.

Because it's pure—because it's palatable—because you don't have to dilute it with water to be able to swallow it. It costs no more than any other good whiskey.
