

## FEW BARTLETTS FROM CALIFORNIA

The California Fruit Distributors issue the following dated Sacramento, Sept. 7:

**Peaches:** 41 1/2 cars. It will be seen that the movement of this fruit has been practically stationary, there being but half a car difference between this week and last. More peaches will be available for shipment from this time on if conditions justify their movement. Salways are now ready and Levi Slings will be shipped as required. The season is fast drawing to a close and there will be comparatively few peaches to be offered after next week.

**Pears:** 207 1/2 cars. Considerable quantities of Bartletts are still in evidence, but a large percentage of the movement consists of Fall and Winter varieties. A few Bartletts will be available for the next two weeks, but the quantity will be small.

**Weather:** California has been visited by a very unusual storm during the past three days and weather reports indicate that for sixty years there has not been an equally heavy rainfall so early in September. A light shower fell Sept. 3rd; on the 5th it began again and continued at intervals through the day. Some vineyard sections received a general drenching while others have escaped with an insignificant amount. Grape picking will be delayed for two or three days. While some damage has undoubtedly been done it is not expected that it will materially affect the output unless the storm should continue for some days longer.

Comparative statement of shipments.

1911	August 31st	1912
216 1/2	Cherries	244 1/2
223 1/2	Apricots	195 1/2
1798 1/2	Peaches	1384 1/2
1311 1/2	Plums	1713 1/2
1861 1/2	Pears	2529 1/2
1048 1/2	Grapes	983
6460		7049 1/2

## CONVICT LIFE IN OHIO PENITENTIARY

These remarkable films reveal the world's greatest and most model penal institution in its entirety. It takes three complete reels of a thousand feet each to portray this, the most powerfully convincing moral lesson ever offered in motion pictures. Departments of the prison are here shown, that visitors never see, such as the famous Bertillon system, convicts at work, the hospital and the operating room, the female department, prisoners at their meals, bankers' row and the palace of death. Every foot of these films were taken behind the grim, gray walls of the Ohio penitentiary, showing how over 1800 daring and desperate lawbreakers are paying the venality of the inexorable law. Slaving day in and day out at hard and wearisome tasks, allowed fifteen minutes in which to eat, locked in cheerless cells through the long, lonesome hours of the night and separated from friend and foe by stern and unyielding bars and bolts. It is sensational, but at the same time a moral lesson, because these pictures can be shown in any church, before any school, and especially to the children, because they prove indisputably how strong is the arm of our great nation and how swift and sure it will strike when the rights of its people are outraged. The films are being shown at the Star theater today and tomorrow.

## GRANTS PASS CUTS RATES FOR LIGHT

GRANTS PASS, Ore., Sept. 9.—The city council has just enacted an ordinance making radical reductions in the rates that electric light and power companies can charge for service. The old schedule was based on a rate of 10 cents per kilowatt hour, while the new rate has a 7-cent basis for residence lighting. For lighting in the business section the base rate is 6 cents per kilowatt hour. Power rates are one-half the lighting rate.

SAN DIEGO, Cal., Sept. 9.—Plunging forty feet over the blaring grade, seventy miles northeast of this city, in their automobile, Mrs. Frank Grandier, wife of a local printer, was instantly killed, her husband was severely injured, and Mrs. Harry Sale of Los Angeles was severely hurt. A broken steering gear is blamed for the accident.

## MEN OF WEALTH HUNT SAVAGE WILDCATS THAT TERRIFY HOMES

STALKING WILDCATS.

Led by men of wealth, an armed expedition has set out in quest of the savage wildcats that have been terrifying the summer colonists along the shores of Long Island. Three of the leading members of the colony include W. K. Vanderbilt, W. Bayard Cutting and C. H. Robbins, all of whom are prominent in the financial world. The offending cats were once domestic pets, taken to the beach by the cottagers who spend the summer on the tip of land between the Atlantic Ocean and Great South Bay. For years these cottagers have returned to the city, forgetting to bring the cats back with them, with the result that the cats have taken to the woods and there have bred a new race which knows no law.

## AUTO TRUCK TAKES FRUIT TO COAST

The advent of the auto truck has opened up new marketing conditions in the Rogue River valley, says the Rogue River Courier and some of our produce can now find markets in the coast towns, where prices are good and demand continuous. The truck just put on the Eureka fruit farm, owned by J. H. Robinson and son, on the Applegate, has returned from its initial trip to Crescent City, having made profitable sales of its load of fruit. It carried peaches largely, and but three days were consumed in the round trip and the sale of the produce. The auto carried two tons and reached the coast city early enough on the second day to dispose of the fruit, and on the third day made the run home, as well as a trip to Grants Pass and back from the farm.

The Robinsons find the truck a most expeditious and profitable way of marketing their fruit.

## RECORD YIELD OF BURBANK POTATOES

Scott Davis brought in from his Table Rock potato ranch Monday 13 potatoes that weighed 12 1/4 pounds, dug from one hill. They were Minneapolis Burbank, all smooth and high grade.

From the 38 acres in potatoes, the yield is estimated to exceed 6000 sacks, some of the crop running over 500 sacks to the acre.

This is the largest potato yield yet planted in the Rogue River valley and demonstrates what can be done with potatoes, one of the crops hitherto neglected. For the first time in recent years, the valley will export potatoes this year—and it might just as easily export hundreds of cars as a few.

## OREGON STUDENT LOST IN ALASKAN WILDS

JUNEAU, Alaska, Sept. 9.—John Shattuck, 21, a student at the University of Oregon; Dell Lincoln, 20, a resident of Douglas, and Leslie Oliver, 17, of Juneau, are believed to have perished in the mountains back of Sheep creek, four miles south of here, having become lost in a fog while hunting.

Parties of woodsmen and Indians, who have been searching the woods, within a radius of twenty miles, have been unable to find any trace of the boys, who set out from Juneau on Thursday morning, expecting to return the same day.

The three boys were unprovisioned and carried no blankets or heavy garments. They were unfamiliar with the mountainous country in which they must have been wandering during the cold nights of the last week.

Heavy rains have fallen the last three days and little hope is entertained of the boys being found alive.

ANNOUNCEMENT.  
Miss Catherine Mears will resume teaching the pianoforte on Monday, September the sixteenth. Residence 9, Mistletoe. Telephone Main 6324.

## GREAT SUPPLY OF PEARS IN GOTHAM

Sgolob & Day issue the following dated, New York, August 30:  
53 cars Wednesday, 64 cars Thursday, and 65 cars yesterday (Friday) makes a grand total for the week of 325 cars the heaviest of the season. Fortunately the weather this week has been fine, clear and fairly warm permitting free street sales.

Bartletts: 77,000 boxes auctioned here this week, of which 17,000 Friday, and 18,000 Thursday, and the market almost as strong at the end of the week as it was earlier. We never saw such a magnificent consumptive demand for Bartlett pears. Outside of a few extra fine California mountains, which sold from \$2.50 to \$3.00, all the good Californias sold from \$2.10 to \$2.40 and hardly any sold below \$1.90. Some yellowish but hard, because mountain fruit, 33 cars from the Northwest and Colorado this week which sold all the way from \$1.90 to \$2.15 bulk yesterday around \$2.00 to \$2.10. We hope the present prices will be maintained.

## JOSEPHINE COUNTY TO REPAIR TRAIL DOWN ROGUE RIVER

Josephine county is to repair the trail down the Rogue river, and to open up to the trade of this city a rich territory that has been going in other directions, says the Courier. The old Rogue river trail, built originally by the government at a cost of from \$12,000 to \$15,000, has not been kept up properly of late years, and portions of it are in very bad condition. This is especially true from Bunker creek to Windy guler, a distance of three or four miles. This trail extends from Galice to Agnes, a road being built from the latter point to the coast. The grade of the trail is good, following the river, and making a route that can be traveled winter or summer. With this trail in bad repair the farmers and miners of the lower Rogue have gone to Roseburg to do their trading, but owing to the altitude, the West Fork trail was not good for winter travel.

## SURELY SETTLES UPSET STOMACHS

"Pape's Diapiesin" Ends Indigestion, Gas, Sourness in Five Minutes

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapiesin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment Diapiesin comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapiesin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

## NEW RURAL ROUTE UP FOOTS CREEK

The establishment of rural mail route No. 1, to the Foots creek district, has been granted by the post-office department, according to advices received by Postmaster John B. Hammersley of Gold Hill, says the News, and service will inaugurate November 1st. During the intervening time an examination of applicants for the carrying of mails on this route will be held, although the date for such examination has not yet been appointed.

The petition praying for the establishment of this route was circulated last April by Postmaster Hammersley and Frank Avery, and received the endorsement of practically every resident of the district, 104 signers in all being secured. Rogue River also applied to the postoffice department for the new route, with that point as a distributing center, but the more advantageous location of Gold Hill carried the day for this city, and mail to Foots creek residents will be addressed to "Gold Hill, Route 1."

The new route will total a trip of twenty-five miles daily, except Sundays, for the carrier, and will abolish the old postoffice of Draper, where "Uncle Bob" Cook has distributed mail for the past twenty-eight years.

## JOSEPHINE COUNTY TO TAKE LOCAL OPTION VOTE

GRANTS PASS, Ore., Sept. 9.—The county court has called an election on the local option question, to be held at the time of the general election in November. Grants Pass has been dry for the past two years.

## CROPS SPLENDID IN MIDDLE WEST

Heavy crops with the people elated over the outlook is the report of A. C. Randall of the Mountain View orchards on the middle west.

Mr. Randall has just returned from an extended trip east and north. "The outlook is very good," states Mr. Randall, "as all of the crops were good this year and prices are good. The heavy crops mean prosperity. Next year a large number of eastern people will probably seek homes in the Rogue River valley."

## S.S.S. REMOVES BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S.S.S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S.S.S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by the cooling, healthy stream of blood. S.S.S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Another Big Cut in Prices  
If you want a real home—one that will stand the test of time—buy one of the H. E. Gates houses on Rose Avenue. Come and see and be convinced that they are the best houses in town—not only the best houses in town but the cheapest considering quality and location, because he has made a big cut in the price as it is necessary for him to move at once to a higher altitude and a dry climate on account of the poor health of his family. 3 new bungalows and 8 lots on Rose Avenue are SOLD. We have left to offer only one new 6-room bungalow. In a few days it will be sold.
