4 TRAINMEN KILLED WHEN BOILER EXPLODES

SEATTLE, Sept. 25.—Four trainmen were killed, the engine blown to bits, windows in nearby houses shattered and the shock felt in Auburn three miles away, when the boiler of the engine on Milwaukee freight train No. 64, bound for Seattle blew up at Pacific City, a few miles south of here at 8:25 last night. Those killed are L. Mayhall, engineer, A. E. Perrin, 1509 Ninth avenue, Seattle, conductor; E. A. Mehner, brakeman, and Fireman Manning. All of the men were experienced and the only possible explanation is that the ejector may have become clogged. The train was moving slowly at the time.

PROMISES TARIFF REVISION

Payne law has no more to do with the advancing cost of living than the latest installed Atlantic cable. On the contrary, it has enabled American workers to meet the high cost of living and maintain their families in comfort. President Taft denounced congress for passing the woolen and cotton bills, which he vetoed, adding: "With the election of a republican president and republican candidates to congress, tariff revision will proceed immediately along lines advocated by the tariff board."

Talk on Suffrage

Asked if he meant by this that an extra session of congress would be called in the event of his re-election, the president answered: "I think my statement is sufficiently explicit." President Taft flatly denied that there had been any intervention by this government in the Nicaraguan revolution. He asserted that American marines had been landed there merely to protect American lives. Regarding the woman suffrage movement, President Taft said: "Suffrage is an issue to be decided by each state. There can be no doubt but that whenever and wherever a majority of women impress upon fathers, husbands, sons and sweethearts that they want to vote, then they will be given the right to vote. This is an issue too noble, serious and sacred to be used by a political party merely to catch votes. I believe women are capable of as wise use of the ballot as men."

Favors Immigration

President Taft criticized the recall of the judiciary and expressed himself in favor of immigration. He declared that the attacks of Samuel Gompers upon his administration were "as erroneous as claims that he had delivered the entire labor vote to Bryan four years ago." In closing the interview President Taft expressed the hope that he would be re-elected, and thanked Governor Wilson for his courteous treatment, adding: "As to Governor Wilson's statement that I have been misled by bad advisers, I wish him and everyone else to understand that I have been and will continue to be president in all that the title implies. I am responsible for every act of my administration and have no burden to shift to the shoulders of others."

DEMOCRATIC YEAR DECLARES BRYAN

SAN FRANCISCO, Sept. 25.—"This is a democratic year. Democracy is about to reap the fruits of sixteen years of sacrificial devotion to the great principles of Jefferson. Woodrow Wilson will be the next president by a triumphant majority." This was the expression by William Jennings Bryan today of his prophetic vision into the future. Bryan had just left the breakfast table where he had been felicitated by two score prominent San Francisco democrats. He said of the California spirit: "Aside from its political progressivism, the California spirit is distinctive. It manifests itself at all conventions and political meetings where a California audience is present. There is an old saying 'the larch string is on the outside'—the larch string is used to convey hospitality. In California the larch string is not visible. It is not needed. The door is open. I shall carry away with me a warm remembrance of my reception in the Golden state."

APPLE CROP IN EAST LIGHT AND INFERIOR

HOOD RIVER, Sept. 25.—Dr. W. S. Nichol, of this place, who has been making an extended trip throughout the apple districts of the country, says that in no place where he visited is the apple crop anywhere near up to expectations in either quality or quantity. He reports that the lake district of New York seemed to have a fair crop and of fair quality. There they take rather good care of their orchards. In Ontario, Canada, the crop appears to be light. In Missouri the crop is large and the quality exceptionally poor. The fruit is simply covered with fungus, the trees badly affected with blight and the apples full of worms.

S.S.S. NATURE'S TONIC The very great majority of persons need a tonic in the Spring or early Summer. The system undergoes a change at this season and the entire physical machinery is disturbed. The general bodily weakness, a tired, worn-out feeling, hick appetite, poor digestion, a half sick feeling and a general run-down condition of the system, show that the blood is weak or anemic, and a blood purifying tonic is needed to build up the deranged system and enrich the blood. The use of S.S.S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the long, hot Summer. Many people have put off using a tonic until the system became so weakened and depleted it could not successfully throw off disease germs, and have paid for the neglect with a spell of fever, malaria or some other debilitating sickness. S.S.S. is Nature's ideal tonic. It is a composition of the extracts and juices of roots, herbs and barks which science and experience have proven are best fitted for a tonic to the human system. It contains no minerals of any kind and is therefore perfectly safe for persons of any age. S.S.S. tones up the stomach and digestion, rids the system of that tired, worn-out feeling, and imparts vigor and strength to every part of the body. It purifies and enriches the blood, stimulates the secretory and excretory members to better action, quiets the overstrained nerves, and makes one feel better in every way.
