

MADERO AIDED BUT NO HELP GIVEN OROZCO

Senate Committee Finds That American Assistance Was Extended to Oust Diaz—Had Same Aid Been Given Orozco He Would Have Won

Intervention in Mexico to Protect American Interests Deemed Imperative.

LOS ANGELES, Sept. 28.—The United States senate sub-committee investigating the alleged promotion in the United States of Mexican revolutions has virtually concluded its labors today and is preparing a report to the senate committee on foreign relations. The evidence adduced tends to show that while American aid was extended to Francisco I. Madero in his fight against the Diaz government, little or no aid has been extended to Orozco.

"The testimony of every Mexican interrogated," said Senator Fall of New Mexico, member of the sub-committee, "agrees on this one point. If arms, ammunition and supplies needed in warfare had been permitted to enter Mexico during the present rebellion as they were when Madero made his fight, Orozco would have taken Mexico City long ago."

The report of the sub-committee, which will be voluminous, will set forth three important features:

"That the evidence adduced points to the necessity of the United States intervening in Mexico in order that American residents and American interests shall be protected;

"That the evidence proves conclusively that no American money was used in financing the Orozco rebellion, and, that the evidence tends to establish the claim that American funds were used to finance the Madero revolution."

It is predicted that the finding will point the finger of suspicion at certain large American corporations heavily interested in Mexico.

NO DEVELOPMENTS IN UTAH STRIKE

SALT LAKE CITY, Utah, Sept. 28.—Governor Spry has nothing to say as yet in regard to bringing the Bingham strikers and operators together in an effort to re-open the mines in the Bingham district and re-establish peace and quiet there. The police today returned to the signal corps of the national guard in Bingham a reel cart belonging to that organization, which had been stolen, presumably by the strikers, and subsequently recovered by the officers.

Strike leaders declared this afternoon that the granting of increases to the miners at Ely, Nev., would not prevent a strike there if the strikers at Bingham need their support. It was also stated that the Salt Lake carpenters union had decided to go out on a sympathetic strike.

No more deputies will be sent to Bingham, Sheriff Sharp declaring he now has a sufficient force there to maintain order.

FORTUNES EXPECTED FROM WORLD SERIES

NEW YORK, Sept. 28.—Receipts from the coming series between the Boston Red Sox of the American League and the New York Giants of the National League for the world's baseball championship, today are expected to break all records. Each club owner probably will receive \$100,000 as his share, and the players are expected to divide \$150,000.

New York is baseball mad and the games here are expected to draw at least 40,000 persons to each contest. "Big Jeff" Tesreau is slated to pitch the opening game here for the Giants. He probably will be opposed by Joe Wood for Boston.

CLAIM UMPIRES STOLE PENNANT FOR N. Y. GIANTS

Fiat Charges of Theft Made by President Fogel of the Philadelphia Nationals Who Accuses President Lynch of Playing Favorites.

Giants Declared to Have Had the Best of Umpiring During Entire Season.

CHICAGO, Sept. 28.—Fiat charges that the umpires stole the National league pennant for the New York Giants was made here today by President Fogel of the Philadelphia Nationals in a signed statement published by the Chicago Evening Post.

The article says in part: "Had umpiring, so far as giving the Phillies the worst of it, was crowded almost entirely into games played in New York. The more I protested, the more determined President Lynch became to assign unsatisfactory umpires and hand it to us. As time rolled on, I learned things from incidents and happenings which it would not be politic nor prudent for me to mention, but leading me to believe that Lynch was merely a figurehead, with a greater power behind him.

Predict Lynch's Decapitation
"Incidentally, my prediction is that his decapitation as president of the league will occur in no distant future.

"The players of all seven teams will tell you that the Giants got the best of the umpiring right along. They believe the reason is that the umpires are afraid of Manager McGraw, and the influence of the New York club with Lynch.

"I asked four club owners how many games they had lost in New York which would have gone to the other clubs if the umpires had not given the Giants the best of every close decision. The lowest claim was two and the highest six. I'll admit that I claimed the half dozen, but say that each of the seven teams suffered to the extent of only three out of the twenty games played with the Giants, it would total twenty-one games which the umpires presented to the Giants. Take twenty-one games away from the Giants and they would not stand one, two, three, but the umpires helped the Giants to over twenty-one games.

World Series the Bait
"It was apparent there was a scramble on the part of four or five umpires to get the world's series, where the salary for a week's work amounts to twenty per cent of their regular salary for the whole season. They fell over each other in trying to warm up to McGraw by giving New York everything possible. Even the spectators noticed it.

"During the world's series last year one of our umpires told me six weeks before the end of the regular season that Brennan said that if the Giants won the pennant he would appear in the world series. What conclusion is deducible? None except that someone connected with the Giants must have held out some inducement to Brennan."

Fogel suggested that the American league president pick the National world's series umpires and that the National league president pick the umpires for the American league.

SEOUL, Korea, Sept. 28.—Sentences of imprisonment were meted out here today to 105 of the 121 Koreans involved in a conspiracy to assassinate Count Terauchi, Japanese governor of Korea, as a preliminary to a general outbreak to throw off the Japanese yoke. The American missionaries accused of having fostered the plot were declared innocent of any complicity in the conspiracy.

CLAIM CAMPA VICTIM OF MADERO'S REVENGE

TUCSON, Ariz., Sept. 28.—Friends of General Emilio Campa here today claim that the former Mexican rebel chief is the victim of an organized plot to extradite him to Mexico and make him a sacrifice to the thirst for revenge of President Francisco I. Madero. They see in the bringing here of A. D. Page, an American miner, to refute the statements of Campa that he has never threatened the lives or property of Americans, an attempt of Mexican Consul Anaya to change American sentiment in regard to Campa thereby making his extradition easy.

MIKE SPANOS IS HELD FOR MURDER OF DEBASKALOUS

Mike Spanos was bound over to await action of the grand jury by Justice Taylor Friday, Friday afternoon without bail, for the murder of George Debaskalous at the box factory on last Sunday evening. Spanos was immediately taken to Jacksonville and lodged in the county jail. An effort will be made by District Attorney Mulkey to have Judge Calkins recall the grand jury in order that the case may be tried out before the foreign witnesses leave the state.

Spanos waived examination before Justice Taylor Friday but under the Oregon code the state must establish its case before a defendant can be bound over. The afternoon was occupied by District Attorney Mulkey in putting a portion of the state witnesses on the stand.

All of the exhibits in the case were introduced while the witnesses rounded up by Sheriff Jones and Acting Chief Cingade gave their testimony. Finally when the state rested the defense waived examination and Spanos was bound over.

The accused man exhibited no nervousness and seemed to hugely enjoy the proceedings.

SEEK \$100,000 LOST IN STACEY'S POSSESSION

ST. LOUIS, Mo., Sept. 28.—Seeking a clue to the whereabouts of the \$100,000 loot from the branch bank of Montreal robbery at New Westminster, B. C., which James Stacey, alias Frank West, now in jail here, had recently in Chicago, Pinkerton detectives are today watching all trunks and suitcases at the union station here.

Monster Meeting This Afternoon to Determine Course of Employees who Claim Owners Broke Faith.

LAWRENCE, Mass., Sept. 28.—A general strike, effective Monday, affecting 20,000 textile workers, was practically assured here today when the central committee of the Industrial Workers of the World voted unanimously for such action. The proposition will be submitted to the entire body of the Industrials here for approval at a monster meeting this afternoon.

If a majority favor going out, the leaders will order a general strike Monday.

CHICAGO, Sept. 28.—To create support and sympathy for any labor disturbances that might result from the case of Joseph Ettore and Arturo Giovannitti, held for an alleged murder committed during the recent strike of the textile workers at Lawrence, Mass., William D. Haywood, organizer of the Industrial Workers of the World, will address a labor union meeting here tomorrow. Haywood said today:

"The textile workers' strike in Lawrence on the eve of the Ettore and Giovannitti trials was a spontaneous protest against such trials. When the first Lawrence strike was settled the employers promised that Ettore and Giovannitti would be released on bail and that the cases against them would be dropped. These promises have not been kept and the workers, thoroughly aroused, called this second strike as the only honorable action they could take. A general strike of Industrial Workers of the World is as yet uncertain."

BELFAST TAKES PLEDGE AGAINST RULE BY IRISH

Dublin Parliament to Be Bitterly Opposed by Arms if Necessary by Orangemen of North—Will Go to Any Length to Defeat Measures.

Home Rule Called a Wicked Conspiracy to Rob Protestants of Political Rights.

BELFAST, Sept. 28.—Before signing the pledge today against the establishment of an Irish parliament at Dublin, Sir Edward Carson in an interview with the United Press said: "It is not in a spirit of defiance that we take the pledge, but with the determination by God's help, to keep what we have and to defeat the most wicked conspiracy against civil and religious liberty that ever endangered a free, blameless and God-fearing people.

"The government, for party purposes, proposes to rob us of our constitutional rights. We have equal rights and an equal share now. That is what we are asked to surrender in order that there may be in Ireland the ascendancy of one religion over another, an ascendancy that we have been attempting to put down for centuries. If this policy is persisted in, we will go to any length and make any sacrifice to defeat it.

"You cannot coerce a nation for being loyal. This question arose at the time of the war with the United States, when soldiers went to coerce fellow subjects. History may repeat itself. It is worth remembering that when our troops last were employed in fractious strife the natural result was disgrace and disaster to the British arms."
