

MEN FIRST LEARNED WORK FROM WOMEN

CORVALLIS, Ore., Oct. 4.—“Women worked long before the men ever thought of working at anything; women were the born workers, and the men had to learn to work. In the beginning it was the women who did all the work of agriculture and home-making while the men chased the wild beasts and each other. Women are the central unit of civilization and society and have been from the beginning. In the words of Dean Breckenridge of Chicago University, home-building and the child-rearing have become public functions in the government and the ballot a domestic necessity.”

These things are many more pertinent to the argument in favor of the enfranchisement of women were given to the students of the agricultural college by President Anna Shaw of the American Woman Suffrage Association who speaks in Medford Saturday evening.

“I only ask the men to put themselves in our places for a moment if they can, and see themselves governed by Chinese, negroes, Dutch, French, Italians, every race and color, without an opportunity to say what the laws which govern us are to be, paying our share of the bills without a chance to say what the bills shall be,” she said.

“Oregon enjoys the unenviable and unfavorable distinction of being the only one of these northwest states where the women do not have the franchise. Washington, on your north, is rejoicing in the freedom of its women; Idaho, on the east, has for years given women the ballot; and California is happy in the added power for good accruing from the enfranchisement of California women. The women of all the world are to meet soon in Budapest for a day of rejoicing over the victories of the units in these United States that are now approaching a vote on suffrage. Oregon is not yet caught up with China in that respect. Think how much more widespread the ‘booming’ Oregon would be if her victory could be celebrated at the Budapest by the women of the world!”

KENTNER'S TO CELEBRATE EIGHTEENTH BIRTHDAY

The eighteenth birthday is usually a very important as well as a pleasant occasion, and the event to be celebrated by Kentner's Department Store, commencing Saturday, October 5, and ending Saturday night, October 12, promises to outclass all previous events in assortment of goods, quality and low prices. In fact, it will be “the biggest and broadest merchandise movement” in their history.

They attribute their success to “fair dealing” to every one at all times, are proud of their record and propose to give each customer a present by making wonderful savings on fine fall and winter merchandise for every member of the family during this sale.

See their ad today for bargains throughout the store and be on hand early Saturday morning.

PASTOR OF BAPTIST CHURCH ASKS TO BE RETIRED

At the regular monthly business meeting of the Baptist church Thursday night the Rev. A. A. Holmes, for the last three years pastor of the church, handed in his resignation, the same to take effect January 1. The resignation was not acted upon at the meeting, but will be considered next Thursday night.

The Rev. Holmes is one of the most popular ministers in the city, and during his term the membership of the church has increased 243 members. He is a forceful speaker and has spoken to the largest congregations in the city. He is popular both among church and non-churchgoers and his decision to resign comes as a surprise.

What action the congregation will take is not known, but it is understood that an effort will be made to induce him to retain his pulpit. Mr. Holmes said last night that he had no definite plans for the future.

DANGER OF FOREST FIRES IS OVER FOR THIS YEAR

KLAMATH FALLS, Oct. 4.—M. L. Erickson, superintendent of Crater National Forest, stated last night at the White Pelican hotel that little damage had resulted there during the past season from forest fires.

He stated that only one or two small fires had started in the reservation and these had been got under control before more than small damage was done.

EIGHT BILLION GALLONS OF BEER IN ONE YEAR

WASHINGTON, Oct. 4.—Nearly 8,003,745,000 gallons of beer was the world's production in the year 1910, according to a report to the state department from Consul Heingartneer at Liege, Belgium, quoting figures from the “Action Economique.” Of this enormous amount 7,925,000,000 gallons were consumed during the same period.

The United States occupied first place among the beer-producing countries, with an output of 1,908,010,377 gallons. Germany was second with 1,703,666,460 gallons, manufactured by 13,186 breweries. Great Britain ranked third and Austria-Hungary fourth.

MARRIED.

Miss Eva A. Lydiard and Dr. G. Roy Ringo of Minot, North Dakota, were united in marriage at the home of the bride's parents, Mr. and Mrs. J. H. Lydiard of Table Rock on the afternoon of Wednesday, September 25th. The ceremony was performed by the Rev. Mr. Shields of Medford. The rooms were tastefully decorated with roses and asters in a foliage of green.

The guests were Mr. and Mrs. W. J. Hartzell, Mr. and Mrs. Wm. McKay, Mr. and Mrs. J. C. Pendleton, Will McKay, Maybell and Mildred Hulth, Elizabeth McKay, Mrs. Friarson, Thelma McBride, Lola Hough and Verne Pendleton.

The bride and groom left in the evening for a short trip through the valley, returning Friday evening, when a reception was held in their honor. Light refreshments were served and Miss Lola Hough rendered several fine selections on the piano. Those present were Mr. and Mrs. F. H. Hauptman, Mr. and Mrs. R. C. Washburn, Mr. and Mrs. J. C. Pendleton, Mr. and Mrs. B. Connor, Mr. and Mrs. D. D. Sage, Harry Wilcox, Veneta and Maud Corlies, Ella and Effie Sage, Mrs. Wilcox, Mr. Corlies, Lola Hough, Thelma McBride and Verne Pendleton. Dr. and Mrs. Ringo left Saturday for Minot, North Dakota, where they will make their future home.

Marshall Says Morgan is a Tightwad

WORCESTER, Mass., Oct. 4.—“I read in the papers Morgan gave \$100,000 to the republican campaign fund,” said Governor Marshall, the democratic vice-presidential candidate, at a rally here today. “If that is all he gave, he is a tightwad. He did not give half enough. Roosevelt gave him the right, in violation of the law, to amalgamate the Tennessee Coal & Iron company with the steel trust. That deal netted Morgan \$69,000,000.”

CAVALRY THREATENED BY HORSE FAMINE

WASHINGTON, Oct. 4.—“Uncle Sam's cavalry is up against the problem of another ‘horse famine.’”

The second and fourteenth cavalry regiments, which have just returned to the United States from the Philippines, have had to be entirely remounted because a disease made it impossible for the regiments to bring back their mounts from the islands. The remount stations which supply horses for the cavalry, have been almost stripped bare of serviceable mounts, and if there should be any additional demands for horses the government might have to go out and buy horses in the open market.

Owing to the activity of the Mexican rebels on the border the demands for cavalry have been large.

BOSTON CONSOLIDATED SIGNS UNION SCALE

ELY, Nev., Oct. 4.—The Boston Consolidated Mining companies resumed operations here today after signing an agreement with union officials to recognize the union and grant an increase of 50 cents a day to all classes of laborers. About forty men are employed by the companies which have signed up. The other companies which employ the majority of the men continue to refuse to meet the union officials and made no attempt to resume operations.

Had Tuberculosis of Glands; Now Well

If you are a sufferer from Glandular Tuberculosis, or know of anyone so afflicted, it might be well to investigate this case, where the writer declares after a year of suffering, he found permanent relief and full recovery to health by using Eckman's Alternative, a medicine which has been effective in many cases of Tuberculosis.

“Gentlemen:—In March, 1909, I was taken sick and my doctor pronounced my case Tuberculosis in the Glands. Medical treatment did not help me, and on my doctor's advice, I went to a hospital to be operated upon, but relief was only temporary. I lost strength, and at times would have cold sweats and fever. In April, 1910, I returned to the hospital, but the continued operations were not benefiting me.

“In the meantime a friend of mine advised Eckman's Alternative, saying it was good for Tuberculosis. The wounds in my neck were still open and in a frightful condition when I started to take it. After using two bottles, I found I was improving, having gained weight, could eat, and was able to sleep. I continued using it until I was well, which was in November, 1910. Before I took the medicine, I had three hemorrhages; since I have been taking it, I have not had any. On November 11, 1910, I started to work, and since that time I have not lost one day's work through sickness. I can highly recommend Eckman's Alternative to anyone who is suffering from Tuberculosis or Gland Trouble, providing they take it as directed. I will gladly correspond with any party desiring further information of what the medicine did for me.”

(Signed) JOSEPH B. WHITE, Broomfield, Ariz.

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in rebuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

APPLE SHOW TO DISCUSS PROBLEMS

SPOKANE, Wash., Oct. 4.—“The four national apple shows given thus far have aided materially in placing northwest apples on the map; now the chief function is to solve the big problems confronting the industry,” said H. C. Sampson, vice president and general manager of the Fifth National Apple show, which will be held in Spokane, November 11 to 17, inclusive.

“Great stress will be laid on the conference to be held during the show, in which growers, bankers, traffic officials and business men will participate,” added Mr. Sampson. “Experts in these lines will discuss these subjects: choice of site, air drainage, water drainage, selection of stock, cultivation, pruning, spraying, picking, packing, financing, disposition of by-products, transportation, and marketing or distributing. Of these subjects I consider the disposition of by-products and the marketing the most pressing question demanding our attention.”

“We want all the growers' unions and organizations to send representatives to this conference, and we need all the growers with us in this movement. When it is suggested that in a few years the Pacific northwest will be shipping more carloads of apples, which are perishable, than wheat, the question of distribution becomes of vital importance.”

FOURTEEN OF CREW OF BRITISH SUBMARINE DROWN

DOVER, Eng., Oct. 4.—Fourteen of its crew were drowned here early this morning when the British submarine B2 was run down by the Hamburg liner Amerika. The officer in command of the submarine was rescued.

FOUR TORPEDO DESTROYERS SAIL FOR ATHENS

LIVERPOOL, Oct. 4.—Four torpedo boat destroyers recently purchased by Greece from the Argentine Republic today sailed for Athens, according to dispatches received here today.

A Change of Feature

Is often very desirable, especially by elderly people. Nothing effects this change better, or gives a person a young appearance quicker, than a new set of teeth, should the natural ones be lost. We can make from ten to twenty years difference to your advantage, if you will let us attend to your teeth and select for you a new set of the very best quality. Maybe it's what YOU need.

S.S.S. NATURE'S PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the stomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body.
