Mayor W. H. Canon returned Wednesday morning from Portland, where he had been at the bedside of his son, Fay, who was injured a few days ago by an explosion at Silverton. He stated that his son was still in pretty bad shape but that he would recover. His nose is badly broken and there are several deep cuts on his cheeks, but he does not think his face will be badly disfigured.

IMPORTANT WITNESSES WHO TESTIFIED AT THE BECKER TRIAL

Here are shown some of the important witnesses for the State who testified at the trial of Charles Becker, who is charged with the murder of Herman Rosenthal. They are: Anna Glettner, a sister of Mrs. "Jack" Rose; Miss Margaret Rose, a nurse at one time employed at the home of "Jack" Rose, although not related to him; Mary Storr, who has been employed in the home of "Jack" Rose for two years; Bernard Rudiger, a waiter employed at the Union Square Hotel, and Mrs. Rosenthal, widow of the man for whose death Becker was put on trial.

CRUSHING BLOW TO IRONWORKERS

INDIANAPOLIS, Ind., Oct. 23.—A crushing blow was dealt the defense today in the case of the forty-seven members of the International Association of Bridge and Structural Ironworkers charged with illegally transporting dynamite, when United States Judge Anderson, over the strenuous objections of the union men's counsel, permitted the government to introduce testimony of dynamite explosions. The court also ruled that any evidence by which an overt act could be shown, would be proof of a conspiracy.

BOURNE RETAINS PLACE UPON ALL COMMITTEES

SEATTLE, Oct. 23.—Students of the University of Washington who have entered a vigorous protest against the acceptance of the \$12,000 chimes from Alden J. Blethen, on the ground that it was a "tainted gift," are appied today.

S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the outside is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness.
