

LOCAL AND PERSONAL

Work is progressing rapidly on the new concrete bridge across Bear creek. Three of the concrete piers will be completed this week. These are the three piers in the center of the creek, the construction of which Contractor Perham was most anxious to have completed before the winter rain and high water set in.

Antone Rohleder, of Peoria, Ill., is in Medford looking the city and valley over with a view to locating. He tells that in his part of the east there is considerable talk of the Pacific coast country and especially of Oregon. There are Medford knockers, he says, even so far away as Illinois. He was told that wherever else he went he must stay away from Medford, because the city water was so bad that pestilence reigned supreme and that charnal houses were its chief product. Goe, that's a corker. As a matter of fact Medford gets its water from the base of a year round snow capped mountain thirty miles distance and the water is as pure as the driven snow—in fact it is nothing else than melted snow.

MARSHALL URGES OREGON TO SEND LANE TO SENATE

Greeted by more than 1000 local people Governor Thomas R. Marshall of Indiana, democratic candidate for the vice presidency, tarried in Medford for 25 minutes Wednesday evening and delivered a forceful straight-from-the-shoulder talk on the campaign issues of the day in which he did not mince words. The keynote of his address was contained in his statement that but three courses were open to the American people. Either must submit to be ruled by a small band of 100 men with headquarters on Wall Street, they must come to socialism or place men in power who believe in the individualism as first taught by Jefferson. Governor Marshall was warmly greeted and the large crowd which filled Haymarket Square opposite the Nash Hotel interrupted his remarks time and again with applause as he scored his point. He was warmly cheered as he boarded his train for the north.

Governor Marshall opened his remarks with the statement that it was not his purpose while in Oregon to plead for votes for the national democratic ticket stating that they were certain of success, but rather his purpose was to do what he could to aid in the election of Dr. Harry Lane as United States senator.

"I am not personally acquainted with Dr. Lane," declared Governor Marshall, "but we must have men in the United States senate in sympathy with Woodrow Wilson in order that he may not be hindered in the carrying of his policies into effect for it is the policies which he advocates and which will carry him into office that holds the hope for the future. We must have democratic control of the upper house in congress."

Governor Marshall discussed briefly the history of the last sixteen years of republican control of national policies and stated that it was his belief that there was no question of democratic success this year even long before there was talk of a third party. The people were beginning to reason and speak more for themselves than they did in past campaigns and no thinking man could turn down the pledges made in the democratic platform.

Governor Marshall was met at Ashland by a number of prominent democrats of Portland including Governor West who are accompanying him through the state. He spoke briefly at Ashland to a crowd of 500 people. He was advertised to speak at the Natorium in this city but owing to the fact that Number 16 was on time he did not have time to visit the Natorium so spoke in the open air instead.

SPORTSMEN AND ANGLERS WANT JUDGE KELLY ELECTED

At a joint meeting of the Rogue River Fish Protective Association and the Medford Rod and Gun Club the following resolution was unanimously adopted: Believing that a strict and aggressive enforcement of the Game and Fish laws of this county is of paramount importance, we commend to the voters of this county the election of E. E. Kelly to the office of district attorney. We know him to be a capable, fearless and aggressive lawyer and one who will see to it that these laws are enforced. It is of the utmost importance that the enforcement of these and other laws be not placed in the hands of an inexperienced lawyer. It is useless to stock our streams and preserves; and to expend sums in the employment of wardens unless a vigorous prosecution follows the violation of law. Attest: E. R. SEELEY President Medford Rod and Gun Club W. F. ISAACS President Rogue River Fish Protective Association

Medford Needs Better Fire Protection

To the Editor: This does not mean that the firemen do not do their duty, and the very best they can with their present equipment, and the local experience they have had. The only suggestion might be that they be provided with, and make a study on, during their leisure, of scientific fire-fighting literature, and periodicals. They do excellent work when once "on the job," but the trouble comes in getting them there in time, and the main cause of this inefficiency of methods of getting to them, information and location of fires, and fire, in all its features, is a calamity, in which instantaneous action means everything, possibly human lives, especially when it occurs somewhat out, where the telephone is the only means of communication, in the absence of a regular fire alarm system. The fire at 10th and Grape Tuesday at 3 a. m. is an example, as it was accidentally seen, only after in full blast, by a person crossing Grape street on Main, who immediately went to the one lonely alarm box installed by the old Home Telephone, at the Park, but long before this, 4 Pacific receivers and two Home receivers were down, in a fruitless endeavor to get "central," to call up the fire hall, meanwhile, the intense heat cracking our front windows, and finally got only the stupid response of half-awake operators, when the engine was already leaving the hall, from the accidental police alarm. This is too slow a process, and had telephone been the only means of alarm the adjoining residences would have been afire, before the firemen would have been even out of bed, but no criticism is intended of these particular operators as it is understood they are permitted to sleep after 12 o'clock and no one is clear and alert, when awakened from sound sleep and they can't be expected to get numbers right and think quickly. This is where our fire-protection is inefficient, and if the telephone company can't afford to keep at least one operator on duty at the board, and awake, at night, to instantly sound an effective alarm to the fire boys, upon call, then the city should provide compensation to have this, the only means of communication, available for instant use, at all times, by every one in the city. As the winter season approaches, fires will be more numerous (and as this article is being penned, word comes of another fire Wednesday morning,) as stoves, lamps, and lanterns are more in use, and insurance statistics show that 75 per cent of the annual fires, occur during the winter months, so this matter should have the immediate attention of the city council. YOUNG MOTHERS No young woman, in the joy of counting motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both herself and the coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. The baby, too, is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores. Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema, and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema. Dr. Holmes, the well known skin specialist writes: "I am convinced that D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years." It will take away the itch the instant you apply it. In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a \$1 bottle on our guarantee that it will cost you nothing unless you find that it does the work. 25 CENT "DANDERINE" FOR FALLING HAIR AND DANDRUFF--GROWS HAIR

DON'T PAY 50 CENTS FOR WORTHLESS HAIR TONICS—USE OLD, RELIABLE, HARMLESS "DANDERINE"—GET RESULTS Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—anytime—will surely save your hair. Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application you will say it was the best investment you ever made. Your hair will immediately take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Free Speech By Foul Mouths There is a foul-mouthed, indecent element in the city of Portland nightly insulting the decent, law-abiding citizens and openly reviling the flag. They have sent representatives to surrounding towns and in the name of free speech denounce the efforts to remove them from the streets. In the name of our wives and children we ask your support and Vote for No. 370, Voters' Pamphlet. THE BOYCOTT AND PICKET The employers of Oregon are not slave drivers, as is claimed by those who live by the sweat of their poor deluded victims. This fact is self-evident in any part of the state. The boycott and the picket are the representatives of a low order of intelligence, seeking by fear and the bludgeon to force a bad cause. Remove the system by a Vote for No. 368. See pamphlet.
