

RAPID PROGRESS ON NEW BRIDGE

E. G. Perham who has the contract for putting in the concrete bridge across Bear creek in Medford, reports that this week his men will have completed all of the piers on the east side of the creek, and next week he will finish the piers on the west side.

This will complete all of the foundation work. Immediately following this work the wood superstructure for the support of the cement stringer forms will be put in.

Mr. Perham does not anticipate any trouble from high water on this work as the superstructure timber will be set on a solid foundation and it would require an unusual season of high water to effect them. When these timbers are in place the elements can in no way interfere with the progress of work on the structure.

FIVE THOUSAND CORDS OF FUEL BOUGHT

The Pacific and Eastern railroad has had something of a harvest this fall in wood hauling business. To date the company has brought into Medford from Butte Falls and Derby over 3,000 cords of four foot five wood, and there are more than 2000 cords still awaiting transportation.

This little matter of wood alone shows to what extent the enormous timbered belt near Butte Falls could be brought into use for the betterment of local wood and lumber conditions if a disposition on the part of those owning these large timbered tracts to put on the market some of these natural products was shown.

INTERESTING LECTURE AT NAT TONIGHT

Everyone interested in electric lighting and the proper use of lamps, should attend the free illustrated lecture to be given at the Natatorium tonight by F. D. Fagan, the lighting expert secured by the California-Oregon Power company. Many interesting pictures will be shown on the manufacture of the incandescent electric lamp, going back as far as Edison's first lamp which was made in 1879. The proper and improper method of lighting stores and show windows will be shown in detail. The effect of various kinds of light on colors will be demonstrated showing clearly that it has been impossible with the use of the old carbon lamp to match colors. This will be interesting to the ladies and they are especially invited to attend.

Mr. Fagan said today that the average consumer of electricity was losing about thirty per cent of the light from lamps now in use, as there was approximately as much light goes to the ceiling as to the floor, that he proposes to show us how to gather the wasted light and make use of same by throwing it on to the subject to be illuminated. In fact one statement was to the effect that he would secure as much light from a two-candle power lamp, as we get from the ordinary thirty-two candle power.

The lecture is free and the public is cordially invited.

The Daily Hint from Paris.

An embroidered robe of white linen, with a blue and white floral pattern. The overblouse is cut on a pattern to show an underblouse. Made in France. Hat of white lace, white flowers and black leaves—Maison Vitot.

CHESTER PARKER WINS AUTOMOBILE

Chester Parker of the Ritter & Dunlap store, won the Toggery automobile Thursday night after an exciting contest as has ever been held in Medford. Mr. Parker lead contestants with 5,600,805 votes. His nearest rival was W. P. Mealy with 4,216,780 votes. James Dally polled 3,458,111, and Miss Ione Flynn 3,214,940.

A large crowd of contestants and friends were at The Toggery last night to hear the returns and the telephone was kept busy until a late hour. When the announcement was made there was general satisfaction as Mr. Parker had worked hard and faithfully and his friends have stood by him nobly. He wishes to thank all the friends who gave him votes and to express his gratitude to The Toggery for the manner in which the contest was conducted. The losers took the news with good grace and all unite in praising the business-like and strictly accurate method in which the count was made. Mr. Isaacs in turn thanked the contestants for their work and patronage and only wishes he could give each of them a car. It was a successful good natured contest in every way and added many to the host of friends The Toggery has in Medford.

GREEKS SEIZE TURKISH ISLAND

ATHENS, Nov. 1.—The seizure of the Turkish Island of Samothrace, in the Aegean Sea, about twenty miles off the coast, by Greek bluejackets, is reported in despatches received here today. The island is inhabited by 4,000 persons, mostly Christians.

COUNTY SURVEYOR GRISEZ DEAD AT ASHLAND

County Surveyor Frank A. Grisez, died at eleven o'clock Wednesday night at his home in Ashland from a derangement of the kidneys and related organs. Mr. Grisez was born at Yreka and raised in Siskiyou county where he followed the profession of civil engineer. About ten years ago he moved to Ashland and was City Engineer of that city for several years and was county surveyor of Jackson county at the time of his death. His parents were prominent pioneers of Siskiyou county. He leaves a wife and baby as well as numerous relatives. Deceased was a member of the Catholic church. The remains were taken to Yreka for interment at the family burying ground.

WHAT DO YOU KNOW

(Continued from page 6)

made? He is the handiest man in Oregon, at cabinet-making. He will help you to complete your design and then make it for you at a very moderate price. He has been serving the people in this line for four years. He has a fine equipment that keeps pretty busy all the time. Good time to tell him about that Christmas present you want made right now before the rush comes on. He is headquarters for store and office fixtures and Mission furniture of every description. Give his name and address.

NUMBER 82.—What is the name of one of the safest and most progressive and at the same time one of the youngest banks in this section of the state? The capital stock is \$200,000. The total resources of this bank have passed the \$200,000.00 mark. Its growth has been steady, under present management, due largely to its reputation for strength, solidity and conservatism, and long experience of the management, and the fact that its personal interest in the welfare of its depositors and its inclination and ability to extend to them at all times every proper banking accommodation has made of them friends as well as clients.

NEWTON GIRL

Pale, Run-down, Anemic—Restored to Health by Vinol

Miss Katharine Burns of Newton, Mass., says: About six months ago I was in a run-down condition and my blood was very poor. I had taken several medicines prescribed by physicians, but they seemed to do me no good. Finally Vinol was recommended, and from the first bottle I noticed a great improvement. I have taken six bottles and I feel strong and as well as ever.—Katharine Burns.

Vinol is the greatest body builder and strength creator we know of—the curative elements of the cod's liver, aided, by the blood-making, strengthening properties of tonic iron contained in Vinol, restore the lacking ingredients to the blood, and the result is health, strength and vigor.

If you need building up try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Medford Pharmacy.

COTTOLENE

Means Cleanliness & Economy!

You can cut your butter bills in two if you will confine the use of butter to your table, and use *Cottolene*—which is just as good as butter for shortening, and better for frying—in cooking.

Cottolene costs no more than lard. It will go one-third farther than butter or lard, because it is richer.

Cottolene contains no hog fat, but is a pure, vegetable product—made from choicest cotton oil. It is pure and clean, in source and making, is sold only in air-tight tin pails, which protect it from dirt, dust and store odors.

Cottolene is healthful; *Cottolene* will produce the best results in cooking; *Cottolene* is more economical than butter or lard.

Why not give *Cottolene* a trial, and serve your own best interests?

Try this Recipe:

Made only by THE N. K. FAIRBANK COMPANY

Use butter on your table

Use Cottolene in the kitchen

CREAM MUFFINS
1 pint sifted flour 2 eggs
1/2 cup Cottolene 1/2 cup milk
2 tablespoons baking powder
1/2 teaspoon salt
Mix the baking powder and salt with the flour. Beat the yolks of the eggs lightly, add milk and stir quickly into the flour, then stir in the softened Cottolene and lastly the egg whites well beaten. Fill a greased muffin pan two-thirds full and bake 15 minutes in a very hot oven.

Owes Life to This Consumption Remedy

It is beyond human power to perform miracles. The makers of Eckman's Alternative, a remedy for Consumption, do not claim that it will restore every one to perfect health, but so many have voluntarily testified it saved their lives, that all who have this dread disease should investigate and try it. It should stop the night sweats, reduce fever, promote appetite and in very many cases, prolong life. Read what it accomplished in this case:

Catherine Ave. and Anson Place, Queen's Court, L. I. "Gentlemen: In the year 1888 I was taken with a heavy cold and a nasty cough and went to several doctors, including a specialist. Their medicines failed. I then went to the Catskills, but the cough still kept up. I stayed there a year and then went on a farm near Jersey City, a very sick man. "My brother then recommended Eckman's Alternative to me very highly. At first I would not consent to use it, owing to the fact that I had taken so many medicines without being helped in any way, but finally I consented. It is now nearly two years since I first took it. I am now cured and I dare say that I would have been buried long ago if it had not been for Eckman's Alternative. I wish to thank you for the goodness to me. Wherever I go I highly recommend the Alternative as I owe my life to it. "Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in supplanting the system those not certain poison, quinine or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa. for more evidence. For sale by all leading druggists
