Boos Appointed Fair Commissioner

G. E. Boos

George E. Boos returned from San Francisco, bringing with him his appointment of commissioner of the Panama-Pacific International exposition to be held at San Francisco in 1915. His commission covers the states of Oregon, Washington, Idaho and Montana. Mr. Boos will again leave the city on Tuesday after a meeting with Senator Von der Hellen, and Representatives Reines, Westlund and Carlin of Medford, to take up his work. The scope of his duties at this time will be to interview the several governors and legislators-elect of the four states assigned to him relative to appropriations for buildings and exhibits. Oregon was the first to select a site for its building and Mr. Boos says it is one of the most prominent

on the grounds. New York state has already appropriated \$700,000 for a building and it is expected this will be doubled. Twenty-two foreign governments have also officially accepted the invitation of the president of the United States to participate. Mr. Boos is desirous to have Oregon in the front rank and solicits suggestions and a general support in his work by the general public, and especially so from his Medford friends. Mr. Boos is well fitted for this appointment, having held a similar commission of the Alaska-Yukon-Pacific exposition in 1908. His experience as a newspaper man and a large acquaintance with the people in the west will crown him with success in his undertaking.

CARUSO SEEN STABBING OFFICER

SALEM, Mass., Nov. 11.—Sworn testimony that he saw Antonio Caruso, defendant with Joseph Ettor and Arturo Giovannitti on trial here for the murder at Lawrence of Anna Lopez, a textile-striker, stab a policeman just before the woman was killed, was given at today's session by Howard Kanada, of Cleveland, Ohio. Immediately after the stabbing, Kanada said he saw "several flashes" come from the direction where Caruso was standing. The defense had alleged that Caruso was home eating supper when the Lopez woman was killed. The defense was hit hard this afternoon by the court ruling that all testimony intended to show that the textile operators "planted dynamite to discredit the Lawrence strikers must be stricken from the records."

WILSON SILENT UNTIL INAUGURATION

PRINCETON, N. J., Nov. 11.—Although President-Elect Woodrow Wilson is receiving scores of invitations to speak, it was announced here today that he probably will make no public addresses before his inauguration next March. Seven Presbyterian churches in Washington are anxious to have Wilson worship with them when he occupies the white house. "Marshall and I are both Presbyterians," said Wilson today. "I am glad there are enough churches of that denomination in Washington to go around." The daily mail of the president-elect is extremely heavy.

MORE OUT-DOOR LIVING

And Death Rate Will Be Lowered. Statistics prove that the death rate is very much greater in the winter months than in summer, and that the lack of fresh air is largely responsible for this condition. If the system becomes rundown, blood thin and watery, circulation poor, no appetite, don't do with drugs, but take our delicious cod liver and iron tonic Vinol, not a patent medicine, as everything in it is named on every package and if it does not give you a hearty appetite, enrich the blood and create strength, we will return your money; that shows our faith in Vinol. A case has just come to our attention from Albany, N. Y. Mrs. H. Hartman says: "I was in a run-down condition for about five years until this spring, when I learned what a good tonic and strengthener Vinol is. It is certainly the best tonic I have ever used and it has done wonders for me." Try a bottle of Vinol, on our guarantee. Medford Pharmacy.

RUSSIAN PAPERS DENOUNCE AUSTRIA

ST. PETERSBURG, Nov. 11.—Bitter denunciation of Austria's alleged effort to prevent Serbia from enjoying the spoils of war was voiced here today by two leading newspapers of St. Petersburg, the Rech and the Novoe Vremya. Although the Rech believes a compromise possible and thinks a port in the Adriatic Sea is indispensable for Serbia, it urges the triple entente to confront the triple alliance at once. "We are reluctant to believe," says the Novoe Vremya, "that Italy and Germany, with their own traditions of struggle for freedom, are supporting the Austrian threats. But if Rome and Berlin have forgotten the histories of German and Italy, one cannot suppose they are ignorant of the existence of Great Britain, France and Russia."
