## PEOPLE PASSED ELEVEN MEASURES ON NOVEMBER 5

Additional returns on the woman suffrage vote in the state have lifted its majority to a lead of more than 3000.

Out of nine bills submitted on the roads question, four were carried, but these four do not add much to the program of progressive road legislation. Two of them authorize the use of convicts and of city and county prisoners in road building, and the others limit the debt that may be incurred to 2 per cent of the assessed valuation of the state and 2 per cent of the assessed valuation in each county.

Complete official figures from all the counties may be necessary to determine the status of the proposed amendment to the constitution, permitting an income tax. The vote as so far tabulated gives a small lead against the measure.

Of the 3 measures on the official ballot, 11 were passed and 27 defeated, counting the income tax amendment as lost. The list follows:

**Measures Passed**  
Woman suffrage amendment.  
Amendment permitting different tax rates on classes of property.  
Amendment doubling liability of bank stockholders.  
Public utilities commission.  
Eight hour day on public works.  
Act prohibiting private employment of state convicts, but authorizing their use in road work.  
Act prohibiting private employment of county or city prisoners, but providing for their employment in road work.  
Amendment limiting state road indebtedness to two per cent.  
Amendment limiting county road indebtedness to two per cent.  
Exempting household effects from taxation.  
Medford rate bill.

**Measures Defeated**  
Creating office of lieutenant-governor.  
Separation of state and county taxation.  
Requiring majority vote to amend the constitution.  
Creating Cascade county.  
Millage tax bill.  
Requiring majority vote to pass initiative measures.  
Grange bill for county bonds for road building.  
Grange highway department bill.  
Flat salary for state printer.  
Creating hotel inspector.  
Blue sky law.  
Harmony highway commissioner and state bonding bill.  
Harmony county bonding bill.  
Law for creation of new counties.  
Exemption of money and all forms of credits from taxation.  
Revision of inheritance tax laws.  
Home Rule road bill.  
Abolishing state senate.  
Graduated single tax.  
Abolition of capital punishment.  
Anti-boycott bill.  
Requiring permit for speaking on streets.  
Appropriations for state university buildings.  
Referendum.

**RAILROADS FIGHT RATE BILL**  
(Continued from Page One)

much higher rates than now exist on such articles as hay, grain, farming products and other shipments of like classification. Another guess at what the measure would mean to the shippers is that it would greatly increase the "spread" between carload and less than carload rates into certain territory, particularly into Southern Oregon, where the bill was conceived, born and nurtured under the patronage of the Medford Traffic Bureau. This would give Southern Oregon jobbers a much greater distributive zone.

"I have studied the measure carefully and I confess I don't know what to make of it," said C. B. Althison, chairman of the Oregon Railroad Commission, this morning. "All I say is that it looks like a radical piece of rate legislation, but being now a law by the vote of the people, our commission will see that it is enforced. We want a test case of it made in the courts as soon as possible."

The State Railroad Commission and the traffic chiefs and rate experts of the railroads will confer in the next day or so and see if they can throw any light on the measure.
