

## AMERICA BLAMED BY REPUBLIC FOR MONGOLIA'S LOSS

LONDON, Nov. 15.—The Peking correspondent of the Daily Mail says: "Russia's action in recognizing the independence of Mongolia is having a far reaching effect in China."

"While proclaiming her adherence to the policy of the maintenance of the integrity of China, America has witnessed without a word of protest Mongolia being separated from China and brought under Russian suzerainty and her delay in recognition of the republic has materially assisted Russian policy and shaken the Chinese government."

"The clamor that has arisen is against a government which failed even to obtain recognition from the other republics after whose governments the case is modelled, America and France, for example, while it has received recognition from Russia."

"The British memorandum, which the British minister handed to the Chinese government in March, threatening that unless China gave a written understanding not to interfere in Tibet, England would not recognize the republic is unanswered. This is regarded as one of the unfortunate blunders made by the present British government."

"Its policy has consisted of resolute support of the Indian opium dealers and is in defiance of the universal sentiment of the better classes in China."

## HOME RULE TO BE DEFEATED BY SELFISH INTERESTS

ROCHESTER, N. Y., Nov. 15.—"I fear that home rule for Ireland will again be defeated," said James Beddon, labor member of the British house of commons and fraternal delegate to the American Federation of Labor convention here, interviewed on the sensational new developments in politics in the old country. "The home rule bill is now passing through the committee stage, and even should it ride safely through the gathering storms of the Commons, it is bound to encounter violent opposition and defeat in the house of lords. Then the commons and the lords will again become embroiled in a desperate struggle for the mastery, with the result that the ancient feud will force dissolution of parliament and an appeal to the country in a general election."

### Labor for Home Rule

"The labor party members of parliament stand as a solid phalanx for home rule in Ireland, but I regret to be compelled to admit that in case a general election is precipitated, our party will be hurt in the life and death struggle between the Liberals and Tories for the great political contests in Great Britain are becoming wholly economic in principle."

"The religious and racial issues injected into the home rule fight are a mere cloak manufactured for big business, the landlords, railway magnates and rising industrial barons to protect their special interests—their rentals and profits—and keep the working class in subjection."

"There are some seven hundred Liberal members in the house of commons who are controlled by big interests in Ireland and these selfish insurgents are responsible for the overshadowing clouds that are rapidly gathering on the British parliamentary horizon."

### Strikes to Prevent War

The visit of the British fraternal delegates to this year's federation convention has increased the interest favorable to closer association between the union forces of America and Great Britain in order to establish world peace by calling mass strikes, if necessary, in case of the declaration of war by the great

## ELECTRIC SIGNS MADE IN MEDFORD

A made in Medford industry that is justly assuming large proportions is the electric sign business conducted by Blaine Klum. Mr. Klum has made most of the electric signs in Medford and his work has put this city well up in the average class in respect to electric display appeals. Many people here have thought that the handsome signs Klum has hung were imported and have overlooked one of the important industries at home. On another page in this paper Mr. Klum has a message for the business men of the city—a message that is deserving attention.

## OBSERVATION CAR ON TRAINS 13, 14

Commencing with train No. 14 passing Medford Saturday, November 16th, this train will carry a ten section observation car, taking the place of one of the standard sleepers. This will not reduce the sleeping accommodations on this train, but will give the first-class passengers the benefit of observation, and will be found a great convenience to the traveling public.

This car will be on train 13 passing Medford on Monday, the 18th, and will be on these trains daily thereafter.

## RHEUMATISM URIC ACID CAUSES IT—S.S.S. CURES IT

Every variety of Rheumatism is caused by an excess of uric acid in the blood; the different forms of the disease depending on whether this uric acid settles in the nerves, muscles or joints. In Sciatica it is the nerves which are attacked, the muscular form shows the muscles to be the seat of trouble, while manifestations of articular Rheumatism are evidence that the joints are being diseased. To cure Rheumatism the uric acid must be removed from the blood; the circulation must be made pure. This cannot be accomplished with external applications; such treatment may furnish temporary relief from the pain, but it does not reach the producing cause. S. S. S. cures Rheumatism of every variety and form because it purifies the blood. It goes down into the circulation, neutralizes the acids and dissolves the irritating deposits which are pressing on the sensitive nerves and tissues, and producing pain. Whether your case of Rheumatism be acute or chronic S. S. S. is the medicine you need; it will cure you and at the same time build up the entire system by its fine vegetable tonic effects.
