LICENSE BUSINESS COSTS JACKSON COUNTY HEAVILY

J. H. Wilson, the expert accountant, who finished an examination of the county books Saturday, takes a rap at the state for forcing county clerks to attend to the handling of fees for hunting and fishing licenses.

This is set forth in the report on the condition of the office of County Clerk W. R. Coleman, which is as follows:

"The county clerk has been keeping his work up to date in good shape. The circuit court throws a large amount of business on the clerk. The probate court, the county court and the public generally keep his attention fully engaged all the time.

"In addition to these duties, the clerk has naturalization business, a go-between the circuit court and the department of commerce and labor.

"He has a considerable volume of scalp bounty business, a large volume of election business and registrations therefor consume much time and labor. He has the computation of the levies on the tax rolls, which with 15,000 or 16,000 different computations requires much labor, and he has the issuance of game licenses, which lays a burden on the county for which there is no repayment. This game license all goes to the state. It is placed in the hands of the county clerks for convenience, but it costs Jackson county several hundred dollars for the state's convenience, which is not right.

TAFT WEEPS AT OWN POLITICAL WAKE

NEW YORK, Jan. 6.—President Taft presided here Saturday night at what he styled his own political "wake." He made the funeral oration over his own political corpse and asked modest praise for his deeds while he lived in the white house. He recited at length the causes that led to his "demise" and attacked his enemies, whom he held responsible for his taking off.

His defense of his administration was the executive results it has produced, and his reply to his personal criticism was he had been more misunderstood than blameworthy. His attacks upon his political opponents were confined almost exclusively to the progressives and was not bitter, but sorrowful.

POLITICIANS BUSY SHAKING PLUM TREE FOR WILSON

NEW YORK, Jan. 6.—With Wm. McCombs, chairman of the Democratic National Committee en route, the brigade of "Rocking Chair" politicians who have already fixed the cabinet for President-Elect Wilson got busy and distributed the ambassadorships. While many names were suggested, it was asserted that the strongest pressure was brought to bear for certain candidates. Some of the names suggested were for the "good" they had done the party in a financial way or any other way, despite the flat assertion of Governor Wilson that no man could have any mortgage on any job.

The big fight will be for the ambassadorship to England, the chief post in the diplomatic service. One of the candidates for this position is Wm. Church Osborn, New York lawyer and reformer. He is a brother-in-law of Cleveland Dodge, president of the Wilson and Marshall Business Men's League, and the man who raised \$86,000 to finance the fight for Wilson's nomination.

Former Governor Francis of Missouri is also likely to be boomed for the English post, it is said today. However, he and his friends still have hopes that the cabinet lightning will strike him and still keep plugging for a post follo.

Frederick W. Allen, whose father and grandfather both were in Congress, is an active candidate, it is said for one of the posts.

Frederick C. Penfield, of Germantown, Pa., was said to have the backing of the Pennsylvania division for the post of ambassador to Berlin.

Charles R. Crane, the Chicago banker and manufacturer is one of the chief candidates for ambassador to Russia.

PUBLIC RECORDS HAVE NO PROTECTION

Valuable public records of Jackson county stand in danger of slow destruction unless the county court takes some action to protect them. This is brought out in J. H. Wilson's report on the recorder's office, which is as follows:

"The recorder is much cramped for room in his office. His office force necessarily occupies much of the office room, and desk room for use of the public is very scarce. This works a decided inconvenience on the public and is a source of constant embarrassment to the recorder.

"The recorder's vault is too small. It is filled with books, many of which they are compelled to lay up on the floor, resulting in the certain destruction of these invaluable public records.

"If the public records of Jackson county are to be preserved from moulding and decay, some adequate arrangement will have to be made for their better protection. This is especially the case with city maps.

SOUTHERN PACIFIC ABSORBS TROLLEYS IN CALIFORNIA

SAN FRANCISCO, Jan. 6.—As a forerunner of the probable absorption of many electric lines in Northern and Central California, the purchase by the Southern Pacific company of the Central California Traction company is foreshadowed today, following a conference in Stockton between Paul Shoup, head of the Southern Pacific electric lines, and the owners of the Central California corporation.

In southern California the Southern Pacific put an end to competition by buying out the Pacific Electric and the Los Angeles Pacific lines, and it is believed the same policy will be followed in Central and northern California, where the Harriman lines interests conflict with those of the Stockton - Sacramento Interurban, the Stockton-Lodi interurban and other traction systems.

SUFFRAGETTES PLAN TO KIDNAP A MINISTER

LONDON, Jan. 6.—That the suffragettes are plotting to kidnap some member of the British cabinet was learned today following the announcement that Scotland Yard was in possession of reliable information bearing on the plan.

It is not known what member has been selected. Friday, however, the suffragettes invaded the office of Home Secretary McKenna, tore open the closets and ransacked the place until ejected by the police. The party included six athletic women.

Detectives are guarding all cabinet members.

BE SUSPICIOUS OF ANY CHRONIC ULCER Any sore that is obstinate or slow in healing should cause suspicion and put the sufferer on guard. Many an ulcer which could have been cured if it had been properly treated, in time, has been allowed to remain open until it became infected with some degenerate poison from the outside which made it a malignant, eating sore. Most old sores come from an impure and polluted condition of the blood and can be healed if the circulation is cleansed and purified of the predisposing cause. To attempt to cure a chronic ulcer with salves, washes, lotions, etc. is trifling with what may become a serious condition. S. S. S. heals chronic ulcers in a perfectly natural way. It goes down into the blood and removes the impurities and morbid matters which are the means of keeping the place open; then the sore is bound to heal. Not only does S. S. S. cleanse the circulation but it restores its healing powers, and aids in promoting the necessary qualities for good health. S. S. S. builds new flesh tissue from the bottom of the ulcer to the outer skin and makes a permanent cure. Book on Sores and Ulcers and medical advice free to all who write and request same.
