

SOCIETY

Through the willing efforts of the Pan-Hellenic society and the hearty co-operation of the Merchants' association, the high school manual training and art departments, and numerous individuals of Medford, the women's rest room is ready for use. It is on the fourth floor of the Medford Furniture and Hardware building, conveniently reached by means of the elevator. A "housewarming" was held Saturday afternoon, and an interested crowd inspected the two rooms that have been made attractive and comfortable for the ladies of the Rogue river valley. Tea and wafers were served as a sample of what may be obtained there at any time of any week day for five cents. Shoppers' burdens may be lightened by leaving their bundles here, and even babies may be checked. All the guests expressed their pleasure and approval, and it is hoped that ever woman will take advantage of these quarters prepared for her.

The next meeting of the Wednesday Study club which takes place at the library the afternoon of the nineteenth is anticipated somewhat more than usual as the topic of the meeting relates to the study of eugenics which is much discussed at the present time. LITTLE CHANCE STATE HIGHWAY

That there is very little chance for legislation at this session which will result in the construction of a state highway is the statement of W. H. Gore, who has just returned from an extended visit at Salem and Portland in the interest of such a measure. Mr. Gore states further that the legislature seems hopelessly tangled on the question and that only an organizer of the highest ability could bring about a program which would be effective.

"It looked rather good at first," states Mr. Gore, "but so many of the members have other irons in the fire, and seem unwilling to make a fight, for such a measure. I was hopeful at first but I had this pretty well taken out of me."

"The matter has not been dropped yet, however, and matters may swing around."
