LONDON, Feb. 19 .- Financial in trestst here persisted today in reporting that the health of J. Pierpont Morgan, the American financier, is still unsatisfactory. Advices from but hopes to sail for Italy at the end of the week.

The only direct statement from Morgan is the one he sent yesterday to the United Press.

American stocks opened down one or two points in the London market perity. today on acount of the uncertainty over Morgan's condition.

# CHARGE SOUTHERN PACIFIC IS TRYING EVASION

SAN FRANCISCO, Feb. 19.-Accation for the commission's sanction tinues it. of certain compacts with the Central Pacific. This action was decided upon at a meeting of the officials and attorneys of the Western Pacific here to day. The application of the Southern Pacific will be heard by the commission tomorrow. The Western declares that the compacts are monopsuch a way as to extend what it terms the present state of monopoly of the Southern and Central Pacific.

FIRST ESSENTIAL TO PROSPERITY.

E LSEWHERE the bankers of Medford appeal to the farmers and fruit growers to sign up for water so that an irrigation system can be constructed.

The advice is excellent. The growth, development and prosperity of the valley is dependent largely upon water. The bankers set this forth and should lead the way by at the agricultural college. Now that could acquaint us with the difference signing up all their stockholders.

If we want to interest capital, we must increase the productivity and output of the land. We must utilize the dle tracts and double the production of those now farmed in the days to come, one which they one of them could probably teach -and the only way to do it, is by irrigation.

If we want to make a surety of the interurban trolley line, we must guarantee it tonnage by increased production, which comes only from irrigation.

If we want to double the population, we must make it ossible for people to live on small tracts, which can only them in a few weeks what it would There is no question but more edube done by irrigation.

values of our lands, we must justify this valuation by in-

failure from drouth and insure our crops, irrigation is squad, the glee club, nor any of the course know their business, but on ssential.

We have got to come to irrigation some day, every one admits it, and the longer we delay it, the worse for us. We of the coeds on young life, which A college man would be diferent

area, offers an instance of what water will do. Last year, Again the college needs more pro- about felling a tree than he did be Watsonville shipped 6000 cars of apples, 125 carloads of iried apples, 20,000 barrels of vinegar, 140,000 chests of the tax we are now paying, and many invent some way in which the trees strawberries, six carloads of canned strawberries, and of our bright young men could ac- and logs would come to hand without many carloads of apricots, sugar beets, potatoes, onions quire professorships for various labor, and thus conserve all needs and other products.

There is nothing grown in the Pajaro valley that cannot be grown better in the Rogue River valley. There is no reason why the Rogue River valley should not grow and ship much more than the Pajaro valley ships. The soil is ust as fertile, the climatic conditions just as favorable. But two essentials are needed-water and industry.

The Rogue River valley will become far more populous, far more productive, far more famous than the Pajaro valley, because its natural soil and climatic advantages are far greater, its natural resources of greater variety and month Cairo state that he is still under the extent, and its area of cultivable land far greater-but the care of physicians in his hotel there. initial step for this development is irrigation, and until the entire valley is under water and the water in use, the valley by civil service. It has been estimatwill remain in the A B C of its development.

With irrigation will come the subdivision of farms, with water will come intensified farming and diversified production. With water will come population and pros-

### EIFERT'S HARA KIRI.

THE Mail Tribune regrets the stand that Mayor Eifert has taken—attempting to use the authority of his ofcusing the Southern Pacific company fice to build up a personal political machine. He might leasily buy by the box, appace and of attempting to evade by subterfuge expect opposition, not only on the part of the council but the order of the United States su-also on the part of the people. Vocal solo, selected, Miss Phoebe Hance. Address, Judge E. E. Kelly. Song. "America."

Business session.

### WANT NEW MAIL ROUTE

To the Editor: The people alon; Rogue river want a mail route vi: the lower steel bridge to Trail and return via the free ferry to Eagle Point Tuesdays, Thursdays and Saturdays. We go from three to eight miles after our mail. We would like some help in getting the route and would appreciate all the help you could give us to get the route.

Several people here would like to take your daily but it is not much good to us get a half a dozen dailies at a time.

We have tried to get a route but they would not put out hids as we petitioned. We asked for a tri-weekly and they gave out hids for a daily that no one could carry.

Hoping you will help us, I am MRS. MARIE FOSTER. Trail, Oregon.

The charter gives the mayor no authority to appoint | methods employed for detection of committees of investigation unless authorized by the council-yet Mayor Eifert assumed this authority and the re-

port resulting is a boomerang to his assertions. It proves conclusively that it is worse than folly to attempt a change in management of the public market.

The city engineer's office is usually immune from polities. What has politics to do with engineering skill and otistic in effect and are drawn in ability? And if an engineer has made good, his familiarity with conditions and improvements already existing are an asset to the city. Realizing this, changes in municipal engineering departments are rare. R. H. Thomson was city engineer of Seattle for a quarter of a century. Andrew Rosewater was of Omaha for a longer period-and numerous instances might be cited.

There is no complaint against Mr. Arnspiger. It is admitted that he has made extensive improvements satisfactorily and is conversant with the situation. There is evening. February 20, to which all then no reason for his removal, save that the mayor wants to use the city's offices to pay political debts.

The majority of the council are to be commended for the stand they have taken against the conversion of the city hall into a political machine. Mr. Eifert represents the 27 per cent of the votes he received-the council the other 73 per cent.

Before election, Mr. Eifert published the following pledge:

"If elected, my time and services will always be available to the public and suggestions and criticisms will at all times receive most careful consid-eration. When ever it is apparent that the majority of our citizens are united in opinion opposite to my individual views, I will yield to the ma-jority, regardless of my personal opinions."

The petition presented the mayor, and public sentiment ought to convince Mr. Eifert that it is time for him to 'yield to the majority, regardless of personal opinions."

Mr. Eifert should live up to his pledge and not commit political hara-kiri.

## Auction Sale of Acreage

The undersigned has decided make another auction sale of 21% to 5 acre tracts in the Pierce Subdivi-sion between the 15th day of April and the 15th of March.

Since my sale last March much im-provement has been done in this lo cality, positive evidence that this is preferable location for building suburban homes.

Two nice homes and a number of maller ones have been built this past summer and fall. Building is now going on in this neighborhood; a new free rural delivery now passes through the Pierce Subdivision. Ar lectric power and light line has recently been constructed. With good roads, free soil and city water. I home here is a little ranch in the city.
