MADERO SHOT TWICE IN BACK EN ROUTE PRISON

Deported President and Vice-President of Mexico Slain While on the Way From Palace to Penitentiary—Excuse Is Fake Rescue

MEXICO CITY, Feb. 24.—The president and cabinet of Mexico held a meeting that lasted until early morning at which the killing of Madero was discussed. It was decided that Major D. Cardonajias, commander of Madero's escort of federalists, be arrested. The military prosecuting attorney, Vasquez Tangle began sitting today as a military judge taking evidence under oath. The cabinet has also authorized civil prosecuting attorney Castellanos to take such measures as may be necessary to punish anyone if it is shown that a crime was committed. It was officially announced today that in view of the charges that have been in connection with the killing, copies of all testimony and documents bearing on the inquiry will be furnished to the diplomatic corps. The bodies of Madero and Suarez were turned over to their relatives only after the American ambassador had interceded with the government and demanded that this action be taken. The autopsy showed that Madero's death was caused by two bullets which struck him in the back of the head. There were no other wounds on his body. Pinar Suarez had eight wounds in the chest and

ARMY SHEDS FIRST BLOOD CAUSE OF VOTES FOR WOMEN

BALTIMORE, Md., Feb. 24.—The first blood to be spilled in the cause of woman's suffrage in this country has been shown by the marching army of "General" Rosalie Jones. The plucky little general, who led her army into the great city after the long, hard march from Newark, N. J., and is resting today preparatory to making the 41 miles to Washington, was the authority for this statement. "Two of the army reported last night that their shoes, made hard by the constant wetting on the muddy roads, had cut their feet so badly that they bled profusely," she said. "I think this the only sort of blood shed to mark the present revolution of women in this country. We hope women in the United States will never have to break windows. Perhaps those methods are necessary in England, but we hope they will not become so here.

DOUBLE MURDER RESULT OF PLOT CLAIM MADERISTS

Guards Deliberately Killed Deported President—Yaqui Indians Take Warpath to Avenge Assassination—Bystanders Also Killed

EL PASO, Texas, Feb. 24.—The death of Madero and Suarez was the result of a plot by the government is the claim of friends of Madero's who say that Madero's death was decided on the day he was made prisoner. Maderistas on the border were bitter against Huerta for deserting Madero during the Mexican City battle and they are viciously bitter now over what they call the "deliberate killing" of the former president. Maderistas say no attempt was made to rescue Madero and Suarez from their guards in Mexico City but that the guards deliberately slew the two men and also killed two innocent bystanders, alleging the latter were part of the mob which attempted to rescue the fallen rulers. Yaqui Indians in Sonora have gone on the warpath to avenge the killing of Madero. More than 3,000 Yaquis are under arms in the state of Sonora and have offered their services to Governor Maytorena, to be a part of the army he is raising. Reports from the northern states of Mexico today indicate intense excitement over the killing of Madero and Suarez, but fail to show any open demonstration against Huerta. From Sonora came the unofficial report that the state congress was to convene today to determine whether the state should be declared in open rebellion against the Huerta Governor Maytorena, to be a part of telegraphed from Hermosillo, the state capital, to all prefects throughout the state to take prompt measures to suppress any demonstrations against Huerta as a result of the tragedy.

DORR OFFERS TO MAKE GUILTY PLEA

SALEM, Mass., Feb. 24.—A request that the trial of William A. Dorr, of Stockton, Cal., charged with the murder of William E. Marsh, an aged millionaire, be halted and that a plea of guilty of murder in the second degree be accepted was made at the resumption of the trial today. The court took the motion under advisement until this afternoon and in the meanwhile consulted with Chief Judge Aiken of the superior court, regarding the propriety of acceding to the request. The penalty for second degree murder is imprisonment for life. Dorr is said by his attorney C. H. Neil Barney, to be on the verge of a mental and physical collapse.

MOBILIZATION OF SECOND DIVISION ARMY ORDERED

Fourth, Fifth and Sixth Brigades Ordered to Galveston—Murder Delays Recognition—Bankers Loath to Loan Money to New Regime

WASHINGTON, Feb. 24.—Mobilization of a second division of the American army at Galveston for possible service in Mexico was announced here this afternoon by Secretary of War Stimson. Secretary Stimson said he had prepared orders for the Fourth, Fifth and Sixth tactical brigades, and that these orders would go out to the commanders affected this afternoon. The division includes a full quota of infantry, cavalry, artillery and a signal corps. The killing of Madero and Suarez in Mexico City will still further delay recognition of the new administration. It is stated that the United States will now withhold official recognition of the new regime until the blame for the killing is fixed and those responsible punished. Non-recognition may make it hard for the Huerta-Diaz regime to borrow money. Few bankers, it is believed here, would be willing to loan money unless the borrowing government was among those recognized as a world power. Loans to the Huerta Diaz administration, under present conditions, come under the category of financial aid to rebels. Orders Given Wood Orders for the movement of the troops were given to General Leonard Wood at 1 o'clock this afternoon and will be communicated by him to

TURKS SUE FOR PEACE IN BALKANS

LONDON, Feb. 24.—Secret negotiations for peace between Turkey and the Balkan states are in progress and are likely to be concluded next week, according to a despatch received here today by the Daily Mail from its correspondent at Belgrade. The despatch added that the report came from a reliable source, but gave no other details. A despatch from Sofia said that Hakk Pasha has accepted the note of the powers advising Turkey to cede Adrianople to the allies and leaving the fate of the Aegean islands to the powers. It was said Hakk Pasha has expressed a desire to be informed of the conditions under which the allies would agree to peace. Dispatches from Constantinople say the military commandant at Adrianople has notified Grand Vizier Shekret Pasha that he will be unable to prolong the defense of Adrianople more than another week.

GENERAL F. I. MADERO

EXTRA SESSION CONVENES APRIL 1 ASSERTS WILSON

TRENTON, N. J., Feb. 24.—President-Elect Wilson announced that the extra session of congress would be convened April 1. Asked straight as to the reason for the calling of the special session, Wilson refused to answer. He said: "I will not announce the subjects I shall recommend for consideration until after I reach Washington—until I send my message to congress." It is believed that the tariff and currency reform will be urged as well as the probable Mexican question. Wilson was silent concerning his cabinet. It was learned that he had been in constant communication with William J. Bryan for weeks, and the report that Bryan and Wilson were at odds over the single term question was baseless. It is believed the make-up of the cabinet is not yet completed.

SUPREME COURT UPHOLDS CITY'S RIGHT TO RULE

WASHINGTON, Feb. 24.—The United States supreme court today passed upon the validity of a Los Angeles ordinance establishing a public utilities commission and ordering reductions in telephone rates. The court reversed the decision of the district court of Southern California, which in effect dismissed of the Home Telephone company complaint against the city to join the operation of the city law.

MADERO'S FATE IN PROSPECT FOR FRIEND

EL PASO, Texas, Feb. 24.—Governor Abram Gonzales, a strong supporter of the late President Madero of Mexico, who has been under arrest in the palace at Chihuahua, was transferred to the penitentiary there today, according to advices received here. Friends of the governor fear this move foreshadows his execution.

WEST TO RETURN HAVING ENJOYED NEEDED VACATION

Executive Sends Word That He Will Again Be at Capitol Tuesday—Difficulty in Securing Quorum, Many Legislators Fail to Return

SALEM, Feb. 24.—Governor West, whose disappearance Friday evening caused consternation in the ranks of the anti-administration machine, has sent word that he will return Tuesday morning. He says that he took advantage of Washington's birthday being a holiday, to go away for a couple of days needed rest. There promises to be some difficulty about holding a quorum. Many senators and representatives have gone home and apparently do not intend to return. Their constitutional time is up and both branches of the legislature have no authority to hold them. The Rogue river fish bill is up in the house for consideration of the senate amendments added by Smith of Josephine. A hard fight is expected.

UNCLE SAM FIGHTS STRIKERS IN COURTS

CHICAGO, Feb. 24.—A precedent which may have an important bearing on the future right of the government to interfere with picketing in labor disputes was established here today when the government asked for an injunction to prevent striking linemen from interfering with the business of the Postal Telegraph company. This is the first time that the government has brought a petition in equity in a strike. Here tofore it has brought indictments. The government alleges that members and officers of the Brotherhood of Electrical Workers are responsible for the cutting of the Postal wires thereby interfering with the transmission of inter-state messages. It also alleged intimidation by employees of the Postal company in pursuance of a conspiracy.

LOSSES NUMEROUS IN STOCK MARKET

NEW YORK, Feb. 24.—Losses of 1 to 2 points were numerous in today's stock market. American Can broke six points. Mexican Petroleum Rubber and Harvester made the biggest declines among the others. Copper shares as a group were strong. Canadian Pacific gained 2 5/8 and Southern Pacific 1. The market closed dull. Bonds were easy.

ARREST LEADER OF SUFFRAGETTES FOR INCITING FIRE

Mrs. Parkhurst Taken in Custody Accused of Being Responsible for Burning Up of Lloyd-George's Country Home by Suffragettes

LONDON, Eng., Feb. 24.—Formally charged with inciting the burning of the Lloyd-George country home at Walton Heath and stirring up the other suffragette outrages, Mrs. Emmeline Pankhurst, leader of the London militant suffragettes, was arrested by Scotland Yard men this afternoon, just as she was to address another meeting in the London pavilion. A large crowd had gathered and Mrs. Pankhurst was ready to mount the platform when the police told her she was under arrest and led her away. The captive was followed by a crowd of her women sympathizers and the whole party was suddenly surrounded by a howling, hooting mob, who jeered the women. After the arrest, it was learned that Home Secretary McKenna early today held a conference with the king, and it was supposed that the arrest of the suffragette leader was the result of the consultation. After Mrs. Pankhurst's arrest, Miss Annie Kenney, one of her lieutenants, addressed the crowd in the pavilion. She charged that the newspapers incited the people against the suffragettes.

293,000 ACRES LOST BY NORTHERN PACIFIC

WASHINGTON, Feb. 24.—The supreme court today deprived the Northern Pacific railroad and many settlers occupying it, of their title to 293,000 acres of land adjoining the Yakima Indian reservation in the state of Washington, when it sustained the decision of the ninth circuit court of appeals in cancelling the railroad's patents and awarding the land to the government.

SENATE COMMITTEE FAVORABLE TO HOWARD

WASHINGTON, Feb. 24.—The majority of the senate judiciary committee reported favorably today on President Taft's nomination of Judge Clifton Howard to succeed United States Judge C. H. Hanford, for the western district of Washington. The nomination dies this week, with many others, as the democrats and progressives refuse to confirm any more appointments.

ENGLISH DEMAND INTERVENTION BY AMERICAN ARMS

Press of Great Britain Says Civilized World Expects United States to Go Into Mexico and Straighten Affairs Out—Assassination Condemned

LONDON, Feb. 24.—American intervention in Mexico is demanded here today by leading London newspapers. All voiced sharp comment on the killing of former President Madero and Vice President Suarez, ridiculing assertions that the two men were killed by a mob which sought their freedom. Immediate action by the United States is urged. "The civilized world," says the London Globe, "has a right to expect that the United States will respect its responsibilities as well as reap its advantages from the Monroe doctrine." Speedy Action Demanded The London Daily Express says: "This is no time for dalliance or sentiment. Americans have been in Mexico before, and must go again. Further delay of action by the United States means the ruin of all its legitimate enterprises in Mexico. Large British capital invested in Mexico gives this country the right to demand action by the United States." The Express calls the force of 9000 men ordered to the Mexican border by President Taft as "a pill for an earthquake," adding that the work before the United States will require the services of a million men. The Daily Mail says: "The United

MAN FOUND DEAD IN ROOM; LEAVES NO CLUE TO PAST

In a room in a local hotel, huddled in a corner, the lifeless body of T. B. Ingham, whose family connections and former home, are unknown, was found by a maid Sunday morning when she entered the room to make it up. The police were notified and an investigation made, the result of which established conclusively that Ingham had died of natural causes, probably heart failure. The body was removed to the morgue where it is held pending an attempt to learn something of Ingham's past. On the body was found an Ingersoll watch. Not a single letter or a cent of money could be found. He had paid for his room in retaining it. Ingham was but slightly known here. It is believed that he was a chimney sweep, and it is known that he traveled up and down the line occasionally. He arrived in Medford this time Thursday or Friday.
