#### LEGISLATIVE RECORDS.

NOW that the legislative session has gone into history, it is well to examine the work of the local representatives. Their work averages well with that of other delegations.

Most of the meritorious legislation enacted this session originated with Governor West or had his hearty endorsement. Included in the list of administration measures are such important laws as the employer's liability, mothers' pension, minimum wage for women, girls reformatory, sterilization and prison reforms, various reforms of legal proceedure, county road bonding and state highway acts, moral reform and law enforcement statutes, new game code, millage tax for educational institutions, state aid for irrigation enterprises, a state board of control for state institutions, etc.

These laws were enacted, not because they came from the governor, but in spite of it, by a hostile legislature, because of the public sentiment for them created largely by the governor during the past two years. It is therefor interesting to observe the course of the Jackson county

delegation in reference to the governor. Senator Von der Hellen ranked throughout as one of Never was the Hon. Fillmore the governor's staunchest supporters in the senate.
