Church going people nowadays hear from their own pulpits a great deal of doctrine that sounds like Christian Science. Most clergymen have read its text book, "Science and Health," by Mrs. Eddy, and many of them are giving their readers some of its teachings without indicating the source. Others in presenting Mrs. Eddy's ideas have courage enough to face the credit where it belongs. An instance of this kind is related by Mr. Wm. R. Rathvon, member of the Christian Science Board of Lectureship, who lectures here next Tuesday evening, March 18, at the Natatorium. While lecturing in a western city Mr. Rathvon learned of a deacon of a prominent orthodox church there who was active in inviting his friends to attend the Sunday services of his church. As a final argument and one which was often effective, he would conclude his invitation, "You'd better come, for our preacher is giving us regular Christian Science these days."

ST. PATRICK'S DAY OBSERVED AT PORTLAND

PORTLAND, March 17.—The Irish residents of Portland conducted many programs today in commemoration of St. Patrick's day. The most imposing function was the annual services at St. Patrick's church, presided over by his grace, Archbishop Christie.

A tagday for the benefit of the St. Agnes baby home and St. Mary's boys' orphanage is being conducted and thousands of people are decorated with the paper replicas of the Shamrock, each one of which represents a contribution of ten cents to the support of these institutions.

Commemorative exercises under the auspices of the Ancient Order of Hibernians will be held tonight at the Masonic Temple.

No parade was held today.

UNEMPLOYED ARMY STORMS THE CAPITAL

A number of members of the state legislature also contributed toward the maintenance of the weary hikers.

Browne, who refers to his little band as the "commonweal of Christ," announced today that he will remain in Oak Park tonight and after his men have recuperated sufficiently, will continue the march to Sacramento proper, appearing before the legislature tomorrow afternoon.

He said, however, he was not ready to make the names public.

Positions on the industrial accident commission are considered to be among the most important in the state. There will be three commissioners, each to receive an annual salary of \$3500. The corporation commissioner will receive a salary of \$2000 a year.

BOTANISTS PLAN ROGUE RIVER TRIP

An excursion that will give the Rogue River valley even more publicity than that of the geographers last year is that of the International Botanists who will visit this section during the coming season. Dr. F. E. Clements of the University of Minnesota, who with Dr. Cowles of the University of Chicago, is in charge of the trip, is a personal friend of Prof. O'Gara who is in communication with him and believes that the society will come here. The International Botanists represent the botanical societies of Europe and the United States and their visit here would be of great importance as they would not only study the fruit but the virgin timber. They are interested in tracing the various plant zones and any reports they would make would be given to the world.

SHAMROCKS BLOSSOM FORTH IN CITY TODAY

The day was not observed in Medford otherwise as St. Patrick's day is not a legal holiday in this state.

CHINESE MURDERS HEADED THIS WAY

Chief of Police Hittson is on the outlook for four Chinese tong murderers who are reported by the Portland police to be heading south from that city. Descriptions have been forwarded but as all Chinamen look alike it will probably prove a difficult matter to pick them out.

The Chinamen are wanted at Portland and Seattle for a murder occurring during a recent tong war.
