UNCLE SAM NO LONGER COLLECTOR FOR WALL STREET

WASHINGTON, March 19.—President Wilson in a statement last night approved by his cabinet after two hours' discussion, announced his administration had declined to request a group of American bankers to continue their negotiations for participation in a \$125,000,000 loan desired by the Chinese government.

The administration's declination was based on disapproval of conditions of loan and implication of responsibility on the part of this government, which the administration declares is obnoxious to the principles upon which this government rests.

The statement says that this government will lend its aid in every way toward promoting interests of China and alludes in complimentary terms to the efforts China is making to republicanize its government.

The statement takes added significance when it was authoritatively stated that the same policy would apply throughout the Wilson administration to parallel situations in Central America and elsewhere in which the United States was concerned.

In the last administration Secretary Knox urged passage of two loan conventions for the purposes of rehabilitating the finances of Nicaragua and Honduras. The United States was to have had a voice in the selection of inspectors of customs through whom interests of American banking firms was to be protected.

In Santa Domingo a somewhat similar process is now in operation under the convention entered into by the Roosevelt administration.

STOLE \$1; GIVEN LIFE; INSANE; PARDONED

COLUMBUS, Ohio, March 19.—Stirred by the "injustice of the sentence" Governor Cox today pardoned William Welsh, who was given a life sentence in the state penitentiary for stealing \$1 worth of bacon when he was hungry. A few months of prison life brought Welsh face to face with his fate and broke his mind, and today he is believed to be hopelessly insane.

Six years ago Welsh, penniless and hungry, was wandering through south Ohio looking for work. At Greenville he opened the door of a dwelling and stole a few pounds of bacon. Welsh was caught, brought into court and admitted his guilt. Then the judge sentenced him to life imprisonment, declaring the laws of Ohio provided that sentence for anyone breaking into an occupied dwelling with intent to steal and that he "had no other alternative."

WASHINGTON, March 19.—In an official statement of the policy today the secretary of war declared he was in favor of immediate preparation for the military forces of the United States to meet any emergency, holding discussion of disarmament by the international agreement will be entirely out of place in consideration of what this government should do to meet existing conditions. The secretary proposed the retention of the regular army at its present strength, improvement of the naval guard and not the creation of a reserve. The secretary said the most rabid anti-militarist could seriously suggest an army of 90,000 men to look after the population of 110,000,000 had any hint of militarism about it.
