## BUILD UP OREGON IS SLOGAN STATE WIDE CAMPAIGN

"Why spend your money on the support of eastern payroll, and enrich the pockets of millionaires, by continuously patronizing the outputs of their factories, when you can buy these commodities manufactured in your own town, county or state. Charity begins at home,' and call it

selfishuess if you will, but it belongs to a class of higher selfishness which is ever pardonable because it has to do with your own family fireside and that of your friends and neighbors."

This was the theme of a talk given last evening at the library building by Edyth Tozier Weahterred, who is here representing the Oregon Manufacturers' association in a state's campaign for Oregon-made goods. She made an earnest appeal to the ladies to supply their tables with the products of Jackson county so far as possible, and remarked that "the women purchase at least 90 per cent of the things that go into the home. and think of what it would mean to your local industries, if you asked for those commodities in place of eastern manufactured table supplies. It would give your county a larger payroll, would keep your money at home and result in an endless commercial reciprocity. It would open up thousands of acres of land, bring more people to your county, and more consumers-for everybody has to eat,

"And think, too, what would be the results if men would buy building materials at home, and would purchase as far as possible and practical, of their home merchants."

Mrs. Wentherred was enthusiastic in her argument for a greater use of printers' ink by the manufacturers, and plans the way for them to give more publicity to their outputs and thus create the demand for certain stricken Ohio cities. Mayor James articles not alone at home but out of the state.

DUKE OF MARLBOROUGH TO PLACE 1,000 ACRES OF VAST ESTATE UNDER THE PLOUGH M. E. PARLIAMENT

The Duke of Mariborough's announced intention of placing one thousand acres of meadow land, forming part of his estate at Blenheim, under the plough

is atfracting great attention all through England.

The Duke, who owns 19,685 acres, has chosen this method of waging a campaign against what he believes to be the present liberal government's laention of introducing legislation in the direction of the nationalization of the land in the British Isles.

The Duke of Mariborough argues that a private landlord can administer his land more cheaply and efficiently than the State could do and he will en
