HUNDRED YEAR CLUBS

Believe Life May Be Prolonged

Men who are devoting their lives to the study of longevity believe that in days to come a man of 99 will be in his prime, and old age will begin long past a hundred years.

Scientists have proved that the simple life, temperate habits, exercise, and an active mind are essential to a long and happy life.

When the blood gets thin and sluggish and creeps lazily through the veins, and the arteries begin to harden, there is nothing that will enrich the blood, improve the circulation and restore strength to every backsliding organ in the body so quickly as our delicious cod liver and iron tonic Vinol. Here is proof.

Mrs. Michael Bloof of Lewiston, Pa., at 83 years of age was so weak, she had to be wheeled around in an invalid's chair—she writes that after taking a few bottles of Vinol she could take long walks and do her housework. That shows how Vinol strengthens old people.

Try Vinol on our guarantee that it will do you good or cost you nothing. Medford Pharmacy, Medford, Ore.
