JOLTS AND JINGLES By Ad Brown

Futurist Poem. Spring-warm-ide-wish, Flowers-water-river-fish, Auto-dust-party-gee! Fly-rod-reel-wace!

The man who kicks when his paper is fifteen minutes late should remember that the Sat. Eve. Post was two days late this week.

We know of a store that has flaunted a "closing out" sign for several months and is still doing business. Such a sign when it means nothing, doesn't add to the attractiveness of the city.

We also know of a sign man's sign that says his office is a place where it isn't.

But then, perhaps we have it in for signs in general.

We are told that the fact that fishing season is coming has nothing to do with the banks closing at noon on Saturdays.

ZAGLE POINT EAGLETS. By A. C. Howlett.

John Greb, owner of the El Rose orchard, brought over a few sacks of nice corn for Mrs. Howlett last Tuesday.

Mrs. R. A. Petty, her daughter, Miss Lillian, and son George, arrived from Texas Tuesday and was met at the Sunnyside by her husband, who has been working for several months on the A. Corbin orchard. They are planning to rent a house here and live among us.

Henry Daley, the young man who has been sick for several months and was taken to Medford for medical treatment, was brought home to his grandfather's, A. J. Daley, Tuesday and expired today, Wednesday, April 9, at 2:15 p. m. A more extended notice will be given later.

Work Pool is getting ready to plant corn and has had a nice corn marker made at Mathews & Fisher's blacksmith shop.

I wish to call the attention of the city council to the fact that we have but one bad mud hole in the corporate limits of our town and that would be such a sight in a city like New York or Medford that it would attract more attention than an Italian organist with his monkey, and the ridiculous part of it is that it is right in front of the town hall and right where the mail carriers have to drive when they bring the mail to the post office. It is a disgrace to the town and should be fixed, and as I believe every one of our councilmen and the mayor are readers of the Mail Tribune, I thus call their attention to it.

Miss Ruth Warner of Trail went up home Monday on the Eagle Point and Persist stage. She has been stopping in Central Point for some time.

Miss Gernell Jackson who makes her home in Butte Falls, has concluded to remain with her parents until Saturday.

Mrs. Birdie Gillespie of Medford, a sister-in-law of our townsmen, James Gillespie, is here visiting his family.

Mrs. M. L. Dailey came out Tuesday evening to meet with the Rebecka lodge here that night. Miss Mattie Minter also came from her home to attend the meeting of the lodge.

George Trusty of Elk Creek came out to visit his brother-in-law, Henry Childreth and Wednesday morning returned and took Mrs. Childreth and part of the children with him.

MORGAN'S FAVORITE MAXIM.

THE gigantic operations conducted by J. Pierpont Morgan were built upon confidence in the future of his country. His favorite maxim was his father's saying:

Any man who is a bear on the future of the United States will go broke. There will be many times when things will look dark and cloudy in America, when every one will think there has been over-development. But remember, yourself, that the growth of that vast country will take care of it all. Always be a bull on America.

Without discussing the merits or demerits of Morgan's course in discounting and cashing the future, the advice is both patriotic and sound. And if it is good advice for the nation as a whole, it is far better advice for the entire Pacific Coast, with its multiplicity of resources and its varied advantages.

What is true of the entire Pacific Coast is equally true of Oregon and more particularly of the finest part of Oregon—the Rogue River valley. The Rogue River valley is still in its infancy of development. It has but one railroad. It has no outlet to the sea. Consequently its wealth of mineral and timber stand untouched. Practically all that has been done is to scratch a limited portion of its soil and partially utilize its wonderful horticultural and agricultural resources. Its climate and scenery, its great assets, have never been commercialized.

The Pacific west, particularly the northwest, is destined to become the most populous portion of America, because the most desirable to live in. The resources that will sustain that population are here—they only lack development. With each passing year, an ever increasing stream of humanity will find its way to locate permanently where every prospect pleases, where blizzards, cyclones and floods are unknown, where there is seasonal variety of climate sufficient to keep the race vigorous.

Every part of the Pacific west is destined to grow more or less rapidly in the coming years. There may come temporary lulls, but they will be made up by spurts later on. And none of the towns with a future have as many natural and geographic advantages for rapid development as Medford. Its future is as certain as tomorrow, for with the people will come the needed capital to unlock the resources and build the railroads.

Morgan's maxim is a good maxim. Apply it locally. Never lose faith or become discouraged with your home town and county, if it is Oregon. To paraphrase it:

"Any man who is a bear on the future of the Rogue River valley and Medford, will go broke. There will be many times when things will look dark and cloudy in the northwest, when everyone will think there has been over-development. But remember, yourself, that the growth of this vast country will take care of it all. Always be a bull on the Rogue River valley."

ALASKA DOGS IN \$5000 SWEEPSTAKE

NOME, Alaska, April 11.—Near Circle City today, four dog teams are running a close race for the \$5000 in the all-Alaska sweepstake race. Barring accident the teams will reach Circle late this evening and be ready for the getaway on the home stretch after a short rest.

Two thousand persons watched the start over the 412-mile course. The teams belong to Tommy Hlayok, John Johnson, Russel Bowen and Fay Dalzene, Mrs. C. E. Darling and "Scotty" Allen. Allen, driving the last team, is favorite in the betting.

Johnson is driving 31 Siberian wolves, the largest team ever entered in the race. At Solomon, Johnson and Allen were driving neck and neck, with Dalzene and Hlayok 8 minutes behind. At Council, Johnson was carrying a dog with a wrenched leg, which, under the rules he must carry over the entire course. Two of his other dogs are showing fatigue, and he seems tired, too many dogs to handle being the cause. Allen and Dalzene were running pretty even, Hlayok logging along a few minutes behind. The \$5000 purse will be divided three ways, 60 per cent to the winner, 25 per cent to the second and 15 per cent to the third.

LOW LEVEL REACHED IN STOCK MARKET

NEW YORK, April 11.—Prices reached a low level in today's stock market, although the pressure was not severe. Trading was dull at times. New York Central touched 103, the lowest since 1911, and Union Pacific, Reading and Amalgamated Copper lost fractions. The market closed irregular.

PRIEST RIVER BANKER IS ROBBED OF \$2000

SPOKANE, Wash., April 11.—According to information telephoned here from Priest River, Idaho, Lee Berry, cashier of the Citizens' State bank, was held up and robbed of \$2000 in the bank's office yesterday. After the robber had secured the money he locked Berry in the vault, and before Berry could effect his release, had escaped. Poses are searching for the robber, who is armed with an automatic revolver.

BATTLE RAGES AROUND NACO

NACO, Ariz., April 11.—After a day of inaction the constitutionalists under General Obregon drew closer to Naco, Sonora, today, and General Pedro Ojeda, commanding the garrison, prepared to give battle.

Obregon's command consists of 800 men, the remainder of the rebel forces having withdrawn from the vicinity of Naco. Brisk firing between the outposts of the contending forces continued throughout the night. The casualties, if any, are unknown.

THRESHERS EXEMPT COMPENSATION LAW

SALEM, Ore., April 11.—In reply to an inquiry from Philip S. Bates of Portland, secretary of the Oregon State Threshers' Association, Assistant Attorney General Van Winkle today gave an opinion that the workmen's compensation law does not include threshing machine in its provisions. If the law should be construed, however, to include, he advised that it would be necessary for the operators to advise the industrial accident commission if they did not want to be subject to the law.

Louis Hill, chairman of the board of directors of the Great Northern, passed through Medford Thursday evening on his way north.

A. E. Clark, Bull Moose candidate for United States senator at the recent general election, is visiting A. E. Remmes of this city.

BUD ANDERSON STILL A 10 TO 8 FAVORITE

LOS ANGELES, Cal., April 11.—Bud Anderson remains a 10 to 8 favorite over K. O. Brown today for their scheduled 20-round match at Vernon April 15. There apparently is little Brown money, and the odds are likely to lengthen unless Dumb Dan Morgan, the New York fighter's manager, who is enroute to Los Angeles, brings backing for his man.

Both boys were active today, each boxing several rounds. Brown went on the road for an hour. Each is said to be near the weight but neither will mount the scales in public.

Anderson will do his final boxing Sunday. On Monday and Tuesday he will confine himself to light work. Brown plans a strenuous final three days.

MISS EMERSON TO UNDERGO OPERATION

LONDON, April 11.—Contrary to her prediction during her late trial, Mrs. Paekhurst did not attend last night's suffragette meeting at Albert hall. Mrs. Flora Drummond, who presided, announced donations of \$75,000 as a result of "self denial week."

Miss Zelle Emerson, the American suffragette, who is confined in a private hospital following a jail sentence for militant activities, has developed appendicitis, according to Dr. Moulton. He thinks an imminent operation is necessary.

MERCURY TAKES A SUDDEN LEAP UPWARD

The mercury took a sudden leap skyward Thursday afternoon and before it stopped it had touched 80, an unusual mark for this season of the year. Wind followed, but was warm, the minimum Thursday night being 53. The weather man says it will rain Saturday.

CHARLES ISAACS' HOME IS BURNED

Fire shortly after noon today destroyed the home of Charles Isaacs on the Eagle Point road. The high wind made it impossible to fight the flames. The origin of the fire is unknown.

FEDERAL RECEIVERSHIP FOR UNION PACIFIC

WASHINGTON, April 11.—Government receivership of the Union Pacific railroad is probable if the United States court in St. Louis does not approve the new Harriman merger dissolution plan, according to announcement here today.

FORWARD!

As is the case with all new methods of performing old tasks, vacuum cleaning, with its widespread public interest, has attracted the nimble dollar seekers, who, lacking inventive skill and of limited facilities or resources, seek to sell poorly designed and cheaply constructed vacuum cleaning devices to the uninformed.

An efficient and durable vacuum cleaner must of necessity be compact in form, with no working parts exposed.

It must be light enough in weight to render it easily movable.

It must have a suction of sufficient strength and capacity to clean thoroughly and rapidly.

It should have no moving brushes receptacle should not be exposed to wear floor coverings and its dust the atmosphere.

Having summarized the essential requirements of a desirable cleaner, we now offer you the National Vacuum Cleaner with full confidence in our product and invite comparison in competitive tests to substantiate our claims.

Have you had a demonstration? If not, why not? Call up The Mail Tribune office and one of our solicitors will call at once. Call Main 75.

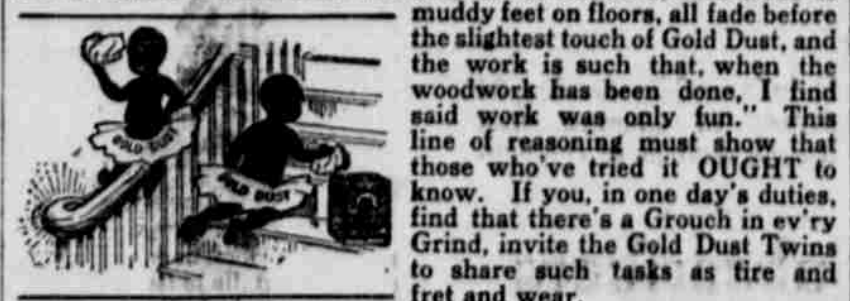

The Gold Dust Twins' Philosophy

THE floors and doors appear to wait until the dust germs congregate; the housewife hails each dawning day with grim and harrowing dismay. Says she: "My work will NEVER end; o'er dusty stretches I must bend, until, with aching back and hands I finish what the day demands."

The "Floor-and-Door-a" Girl

work and the endless doors, until when Hubby saw them, too, reflections said: "Why, howdy-do!"

"The Gold Dust Twins," said she, "I find, help leave the woes of dust behind. Each mark of sticky hands on doors, each tread of muddy feet on floors, all fade before the slightest touch of Gold Dust, and the work is such that, when the woodwork has been done, I find said work was only fun." This line of reasoning must show that those who've tried it OUGHT to know. If you, in one day's duties, find that there's a Grouch in ev'ry Grind, invite the Gold Dust Twins to share such tasks as tire and fret and wear.

From kitchen floor to bedroom suite, these tireless little chaps make neat, and best of all, the sum expense is measured up in meager cents. They put both dust and dirt to rout and run the last old microbe out.

The Gold Dust Twins

1000 Rooms Wanted

In order to accommodate the people attending the Odd Fellows Grand Lodge and Rebekah Assembly to be held in Medford May 20-21-22.

Fill out printed blank below and mail to John A. Perl, Sec. Room Committee, not later than April 20, in order that list can be classified.

We will have rooms available from May 20 to 23 as follows: Rooms with bath @.....per day for one person; @.....per day for two persons. Rooms without bath @.....per day for one person; @.....per day for two persons. Street and Number..... Name.....

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots. There's no longer the slightest need of feeling ashamed of your freckles, as a new prescription ointment—double strength—has been discovered that is guaranteed to remove these homely spots.

Simply get an ounce of ointment—double strength—from your druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion. Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

ZEROLENE FOR AUTOMOBILE LUBRICATION. Zerolene leaves practically no carbon. It "stands up" under any speed and heat. Sold in 1/2, 1 and 5 gallon cans—the small cans flat shape, easy to handle—just fit in the tool box. For Sale Everywhere Standard Oil Comp'y (Incorporated)
