Latest in Spring Fashions

BY MARGARET MASON. (Written for the United Press.) The Spring Fashion Girl Quite a cut-up in she, For her skirts are all slashed To the height of her knee. The question's an open one Therefore you see As to what she will wear For her spring lingerie.

NEW YORK, April 18.—There are a great many things going on under cover these days, but a great many more coming off. Corsets and petticoats have been discarded with reckless abandon and now combinations are dropping off the shoulders like petals from the last rose of summer. To be sure to attain just the proper uncorseted figure it is paradoxically necessary to have the most carefully fitted corset. Milady is svelte indeed who can afford to shed that all-embracing article altogether. She will find it safer and snugger to select one of the new models, long of hip, low of bust and stout of material—and gird herself therein. The very newest stays are all below the belt with the bust left unsupported. For the really buxom beauty, however, the brassieres have reached such a degree of perfection that any figure may be neat if not exactly natty.

Petticoats Coming Back. Though once cast aside, the petticoat is now being welcomed back like a prodigal son, and many a "fatted calf" is being prepared for its coming. The 1913 model seems born anew in a more ethereal form of filmy lace and diaphanous chiffon. As your skirt is slashed, so must your petticoat, be and this offers many possibilities for decoration. Made of azure, pink or white crepe de chine, trimmed in lace or point d'esprit, they are truly irresistible. Van Dyke points of German Val. set in the bottom of a skirt, each point sparkling with a tiny brilliant, give individuality to one effective model. Deep ruffles of pleated lace or net caught with rosettes of ribbon or tiny chiffon rosettes make another exquisite finish. Silk mul is another popular lingerie material that is sharing honors with fine batiste or the new voile linen which is extremely sheer and launders beautifully.

Combinations Attractive. Combinations in all these materials C. B. Baker and his family, who have been visiting Mr. and Mrs. F. L. Miles, left for the north Thursday evening. Mr. and Mrs. Ralph Jennings of Applegate spent Thursday in Jacksonville. George Elfers is among the late arrivals in Medford. T. G. Bradley, the electrician, returned from the California-Oregon Power company's plant on upper Rogue river Thursday. E. A. Hildreth of Butte Falls was a Medford visitor Friday. Just 25 years ago he landed in the Rogue River valley and has ever since been one of its leading boosters. As deputy assessor he has just completed the assessment rolls for Butte Falls district for this year.

FIFTY-FIVE SEEK OFFICE IN PORTLAND PRIMARIES PORTLAND, Ore., April 18.—With the time expired today for filing petitions, the candidates for nominations at the municipal primaries May 3, number fifty-five. Of these, six are candidates for mayor, seven for city attorney, three for city auditor, one for city treasurer and six for municipal judge. Only two women qualified to enter the campaign—L. Victoria Hampton and Mrs. M. T. L. Midden, for councilmen at large.

NEW YORK, April 18.—With the declaration that "American girls are good enough for anybody," Mrs. John Stone, a prominent Minneapolis delegate to the congress of the Daughters of the American Revolution, took a full arm swing today at the German government's policy of forbidding its diplomatic representatives to marry women from this country. Mrs. Stone presented a resolution in the convention urging the establishment of a bureau for the registration of all American girls of long lineage. "This will show that many of our girls can trace their ancestry to royal and noble families," she declared. The resolution was tabled. By a rising vote the convention

are most attractive cut on princess lines, the seams being joined with lace insertion or entre deux. Shown in the new drop-off-the-shoulder effects they draw up with a ribbon straight around under the armpits and over the bust; sometimes they are given a more stable appearance by a narrow flesh color ribbon band over each shoulder. They are the necessary outcome of the transparent bodices and sleeves on the newest evening gowns. Shirring and tiny tucks, insets of lace and embroidery, rosettes, rosebuds and bows riot in profusion over the upper part of the combination and finish them below. If you are handy with your needle and ingenious in designing let your fancy rove at will and your lingerie will be fit for Queen Titania. Unless you are particularly fussy about the fetish, "made by hand," you will find that the most charming combinations and petticoats can be purchased ready made at surprisingly low cost. As the chief essential of the new lingerie is its perfect fit, the ready-made garments have the advantage over the home-made products, of having been shaped by expert cutters. Novelties in Nighties. Cut kimona style or empire, the spring nighties grow lovelier and more charming as they grow thinner and thinner. In more ways than one they are sheer works of art. Most of the mere so sheer, in fact, that a little red jacket of crepe de chine or French flannel is a comfortable adjunct these cool spring mornings for the convalescent or the fortunate languid lady who breakfasts luxuriously "au lit." And then to cap the climax, as 'twere, are the coquettish breakfast caps that frame the face in a froth of lace and at the same time cover any shortcomings—or rather coverings—of your natural coiffure. These dainty confections are indeed and in fact a first aid to beauty in distress. Whether a mob cap of colored crepe de chine frilled in pleated lace and caught with a tiny rosebud or two, or Dutch snoods of Irish lace or caps of embroidery and net, they are all recherche. So size up your type of countenance and cap it becomingly. As honeymoon adjuncts these fetching snoods are unequalled. Breakfasts opposite a captivating cap are sure to be capital.

CRISIS IN SILK WORKERS STRIKE

PATERSON, N. J., April 18.—The strike of the Paterson silk workers is nearing a crisis today. The strikers are enraged at the employers for importing guards here from Newark, and trouble is feared. Two guards are under arrest today on a charge of shooting Antonio Vischio, a striker, during a disturbance. Vischio is reported dying. It is planned by the strikers to send 5000 children to New York to be cared for by sympathizers while the struggle lasts. The strike leaders also demand an investigation by the government of the causes which precipitated the walkout. Buffalo plans the erection of statues of Grover Cleveland and Millard Fillmore.

HEARST'S NEW YORK PLANT DESTROYED

NEW YORK, April 18.—Giving the employees of the paper and others in the building only a moment to seek safety, fire practically destroyed the Rhinelander building here, in which are located Hearst's New York American and Evening Journal, early today. The fire raged for four hours before it was controlled. It is believed that all escaped from the building in safety. No estimate of the damage has been made.

The PURE FOOD LINE. The little tots are always fond of pastry, but if made from lard it's bound to be greasy and indigestible, and isn't good for their little stomachs; if made from butter, it's too expensive—at present butter prices. Cottolene is far better than lard because it is a vegetable product, never makes food greasy, never causes indigestion. It is the equal of butter at about one-third the price. So why be extravagant? Feed the "kiddies" their fill of pastry—if made from Cottolene it won't harm them. Cottolene is both economical and healthful. Made only by THE N. K. FAIRBANK COMPANY.
