18 OPERATORS JOIN STRIKERS

SAN FRANCISCO, Cal., April 25.—Eighteen wireless operators, recruited from the steamers Astec, Bear, Beaver, Paraiso, Multnomah, El Segunda, Hanalei and Pleiades, are added today to the forces of the operators on strike against the Marconi company all along the coast.

Two of the recruits to the strikers war were gained here only after a sharp battle of wits between International President Konekamp of the telegraphers' union and Superintendent Irwin of the Marconi company at the gangplank of the steamer Multnomah. Just before the boat was due to sail for Portland yesterday afternoon Konekamp induced Operators Nielson and Peters to quit. Irwin hustled up two strikebreaking operators to replace them, and after a spirited clash with pickets the reliefs were hurried aboard and the ship sailed three hours late.

Konekamp said today: "The men are well satisfied with the progress of the strike. They did not expect any boats to be tied up before next week and they feel encouraged at the delaying of the Multnomah. We will be in excellent shape Monday for a long fight."

Konekamp is informed that the strike is progressing well at Seattle.

TREAT IN STORE FOR FRISCO KIDS

SAN FRANCISCO, Cal., April 25.—One of the most unique outdoor entertainments ever planned will be staged on the ocean beach here Sunday afternoon when the Indoor Yacht club, in an attempt to serve a double purpose, gives the greatest free show in San Francisco's history.

The main purpose of the yachtless sailors is to show the natural advantages of the city's great natural playgrounds on the shore of the Pacific ocean, but the more appealing purpose is to give the poor "kiddies" of the city a regular time without a penny of cost beyond their car fare. Every form of sport that can be conducted in the open or in the water has been arranged for, including swimming and boat races, automobile races, ladies' and gentlemen's horse races, field and track events, aviation, baseball, vaquero stunts, a bit of vaudeville and plenty of music.

While the sports are going on the indoor yachtsmen will pass through the crowd distributing candy, fruits and cakes to the youngsters. Twenty thousand bags of candy and hundreds of pounds of fruits will be given away.

DYNAMITE BANK BUT GET ONLY \$60

STOCKTON, Cal., April 25.—After cutting all electric light and telephone wires leading into town, stealing the only automobile available to pursue them and abandoning it on the outskirts of town, three robbers dynamited the Union safe deposit bank at Lockeford early today. They were discovered in the midst of their plundering by citizens who had been aroused by a night watchman, and a battle in which about 40 shots were fired followed.

The robbers hastily grabbed about \$60 in silver and fled in their own automobile, overlooking about \$1500 in another compartment of the safe they had blown up. They fled in the direction of the mountains with a posse in pursuit.

"Robbing" the Dining Room to "Pay" the Kitchen

NO wonder butter is so high. Particular women who are loath to use lard or cooking butter in their cakes and fine pastry, use table butter. With butter at the price you have to pay for it, that's downright extravagance. Cottolene is just as good as butter for pastry; for frying, it is better. And Cottolene costs no more than lard. Moreover,

Cottolene

is richer, and two-thirds of a pound of it will go as far as a full pound of butter or lard. And lard and Cottolene are not to be mentioned in the same breath, for Cottolene is a vegetable product, healthful, always safe—and makes digestible, rich, but never greasy food.

Remember, Cottolene is better than butter, better than lard—and much more economical.
