

WORK BEGINS ON HIGHWAY BUILDING CRATER LAKE PARK

KLAMATH FALLS, May 3.—Lieutenant G. E. Goodwin has arrived to take active charge for the summer of the road building in Crater Lake National park. Lieutenant Goodwin will have charge of the local work, but Major J. J. Morrow, of the corps of Engineers of the United States army, with headquarters in Portland, is at the head of the work.

Lieutenant Goodwin stated last evening that at present there are eight or ten men at work at Kirk and near there and that a storehouse has been built and a stable for housing teams which will be used in hauling supplies.

Supplies on Hand.
Ten miles of the road between Sand Creek station and the park has been "swamped" out and many of the summer's supplies, such as graders, plows, water tanks and pumpings, have been received.

Lieutenant Goodwin is here to start the work on a larger scale and he has brought with him two or three office and engineering assistants.

At present, at the park line, of the Sand Creek entrance, there is more than a foot of snow and the work cannot start in earnest until the ground will permit heavy traffic.

The permanent road work in the park will be commenced as soon as the snow melts so that the road can be hardened to allow the hauling of tools and camp equipment into the park.

First Work Outlined.
The first real work to be done will be on the last mile and a half of the road from Fort Klamath and the road will be accessible to automobiles in visiting the park from this city.

Several sections of experimental roads will be constructed so as to learn as soon as possible the best material and binder to be used to stand the freezing and wear they will undergo in the park.

It is expected that an additional appropriation of \$75,000 will be made in the sundry civil bill, which is now before congress. This additional sum will be used for work during the year 1914.

PORTLAND VOTES ON COMMISSION FORM OF GOVERNMENT

PORTLAND, Or., May 3.—Portland is voting today to ascertain if the citizens desire a commission form of government, or whether the present council form shall continue. For the first time since the bill providing for equal suffrage passed the state legislature, the women are allowed to vote.

The polls opened at 8 o'clock this morning and will close at 7 o'clock this evening.

Nominees for city offices under the present form of government are also being balloted on today. Should the commission form of government be adopted, those candidates entered in the primaries will have made the race in vain. If the new charter is defeated they will be placed on the ballot for the regular election June 3.

The commission charter, if adopted, will cut the heads of city departments from 52 to 5. It provides a mayor, four commissioners and an auditor, who will be the only elective officers of the city, and abolishes all boards and commissions now existing. The salary of the mayor is placed at \$6000 a year, commissioners \$5000, and the auditor not less than \$3600.

All city employees are to be named by the commission, subject to civil service provisions.

There are 22,146 women registered for today's election and on account of the widespread interest taken in the commission charter, it is believed that practically all will have cast their ballots before the polls close. Many women are serving on election boards today.

CHARGED WITH VIOLATION OF WHITE SLAVE ACT

SAN FRANCISCO, Cal., May 3.—Charged with violation of the Mann white slave act, Earl Fullerton of Seattle was brought here today for trial. When he appeared in court for arraignment his counsel was absent and by agreement the arraignment was continued until Monday.

Fullerton, it is charged, brought Miss Vera Scranton to San Francisco from Seattle for immoral purposes. Miss Scranton will be a witness for the government.

NAT TO SHOW HUNTING SCENES DARKEST AFRICA

Motion pictures have furnished much in the way of interesting entertainment to the public in the course of the past few years, but seldom has the opportunity been afforded to witness a more remarkable collection than those which were taken of Paul J. Rainey's African Hunt, and which will be shown at the Nat next Monday and Tuesday.

The wild beasts of the jungle, the lion, the elephant, the rhinoceros, the giraffe and other animals which make their home near the equator seen only perhaps in captivity or in drawings are shown in their native haunts.

Mr. Rainey's hunting trip to Africa, the exciting incidents which marked his search for the wild beasts of the jungle right to their haunts, and the trophies, including many large specimens of the denizens of the equator which he brought back, is a story that has already been given to the public. There is no nature faking in the motion pictures of the Rainey expedition into the jungle, neither is there any posing. The lion is shown trailed to his lair by the American dogs which accompanied the party. The king of the forest is run to earth, and actually killed, by trained Mississippi hounds. Among the most interesting views shown by the motion pictures are the animals of the water-hole. The water-hole, within ten degrees of the equator, furnishes water to the wild beasts, who make their way to it from as far as eighty miles. The pictures of the expedition including a small army of natives which accompanied the party, the many thrilling escapes of the photographers in their quest for something out of the ordinary, are all shown in the films, which can safely be said to be an important addition to natural science.

TACOMA TO BUILD CITY TROLLEY LINE

TACOMA, Wash., May 3.—Following unsuccessful negotiations with the local traction management, Mayor Seymour and the other city commissioners today decided to build as a municipal project a streetcar line extending from the heart of the city to the manufacturing district on the tide flats providing the bond issue for that purpose is carried at the special election May 10. The city councilmen endeavored to effect a leasing arrangement with the traction company whereby its lines should be extended to accommodate the thousands of laborers employed on the docks and manufacturing establishments. When this failed, the councilmen announced the city would undertake the construction and operation of the line.

This action is looked upon as presaging ultimate municipal ownership of all traction lines in the city, the franchise of the Tacoma Railway & Power company on two principal lines expires in five and seven years, respectively.

In Chadley Heath, Birmingham, England, women blacksmiths make chains for five cents a yard.

A Wonderful Tonic That Aids Digestion

Thousands are unable to digest certain kinds of food. In most cases it is not the fault of the food, nor the stomach. It is probable that the stomach has been abused. Many resort to pre-digested foods and various kinds of medicines to get relief from dyspepsia, indigestion and heartburn, but without permanent benefit.

If your stomach was in perfect condition, you would not need medicine to digest the foods you eat. Jayne's Tonic Vermifuge is a stomach regulator. It gets the stomach in such a condition that it will digest food without other assistance. It overcomes the acidity and stimulates the coating of the stomach and intestines so that they will properly absorb and assimilate the nutriment from the food eaten. Sufferers from dyspepsia and indigestion will find permanent relief in a short time after beginning the use of the tonic. For children, the addition of a little sugar will make it most palatable. Many forms of supposed indigestion are the result of intestinal parasites, for which Jayne's Tonic Vermifuge is unsurpassed. Insist upon Jayne's; accept no other. Millions have praised it for more than eighty years. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.

EUROPEAN DANCER GOES BACK DISGUSTED

La Napierkowska, the European dancer, who has interested many persons in New York who love that kind of dancing, has gone back to Paris disgusted with the people of the United States. Madame did not have sufficient clothing during her dance at a New York theatre to satisfy the bluecoat who saw her. She was hauled off to court. But there a magistrate who had a greater eye than the bluecoat for the artistic let her go. The feelings of the dancer, however, were so badly hurt that she at once announced that she would no longer dance for the Americans. The humiliation of an "artist" to be dragged into court was more than she could stand.

TRAINER MOHAN TO REACH MEDFORD SOON

Earl Mohan, the expert judge and conditioner of athletes who has been retained by Dick Donald to handle Bud Anderson, next lightweight champion of the world, will arrive in Medford Sunday afternoon and on Monday will take charge of Bud when he arrives here to prepare him for his fight with Joe Mandot May 20.

Mohan is an expert at his work and will in all probability be retained to train Bud until the top is reached. Local fans are interested in Mohan and a number will be on hand to greet him and make him feel at home when he arrives Sunday.

CHRIS GOTTLEIB, FAMOUS ANGLER, BACK FOR SUMMER

Chris Gottlieb, one of the world's crack shots and one of the Rogue river famous anglers and owner of the Winchester orchard, has returned from a winter spent at Kansas City and the middle west to spend the summer at Medford. He brought with him a new rod which he is confident will land him the record fish of the year. All other fishing is tame compared with that of Rogue river, he states, which is well worth the trip across the continent.

Velvet Pumps

are very popular for spring and summer wear. They are dressy, extremely comfortable, easily kept clean, and serviceable. We are showing a very neat plain and two strap pumps at \$5.00 and \$3.50

42-CENT HATS FEATURE IN GREAT SUFFRAGE PARADE

NEW YORK, May 3.—Wearing 42 cent hand made hats—at least all the faithful wore the 42 cent brand—several thousand men and women today parade Fifth avenue in the greatest and most inspiring woman suffrage procession New York has yet witnessed. In many respects the parade was one of the most impressive demonstrations in the history of the recent campaign for votes for women.

Today's parade was the culmination of a series of events which had been planned to give the demonstration as much publicity as possible. On April 28, the suffragettes held their famous "washing bee," at which scores of women who parade today "did the Money washing" in their best clothes just to show the men that women who want votes for, women know as much about housework, and especially about clothes washing, as do those who don't want votes. Then came the great mass meeting and pageant on the evening of May 2nd at the Metropolitan opera house where Colonel Roosevelt spoke, and a spectacular program of barefoot dancing by men and women was given.

At the pageant "one beautiful woman from each state and from Alaska and a beautiful man to match" participated. All wore flowing Greek robes. These men and women, in classic costumes, were features of today's monster parade, which was witnessed by many thousands who packed the pavements along Fifth avenue for miles. Some of the paraders rode in carriages, some were horseback, but the great majority walked.

PUBLIC MARKET THROGGED TODAY WITH CUSTOMERS

The public market today was filled with the largest throng of customers experienced since last summer. During the entire morning patronage was heavy, while the offering was splendid.

The increased business is due in a great degree to the spring garden, which are now coming in. The bunch stuff at the market is crisp and new and is attracting much trade.

From this time on until fall the market will offer vast quantities of "grown at home" products.
