

STRONG SUPPORT FOR MAUDE ADAMS

To properly present J. M. Barrie's plays one must thoroughly understand the Scotch dramatist. Barrie has said of Maude Adams that she understands his characters better than he does himself and it is a matter of theatrical history that beginning with "The Little Minister" she has made huge successes of all of his important plays that have been seen in the country. Over the revival of Barrie's "Peter Pan" to which Miss Adams is devoting herself this season the actress worked with a cool deal of enthusiasm. During the winter she planned a new production and throughout the summer she looked after the carrying out of the details. Many people were suggested for the various roles in the fairy play and they were all given a chance to show what they could do at the preliminary rehearsals before the final selections were made and the cast completed. This over the rehearsals became thorough and arduous and the result is that while Barrie's whimsical work is all delightful make-believe to the audience the players give the impression that to them it is all real. This is as Barrie wanted it and in his instructions to the players he given them little opportunity of going astray. Among the important players in the cast are Robert Peyton Carter, Wallace Jackson, J. L. Carhart, Allen Fawcett, Byron Silvers, William Shafe, Jr., Marion Abbott, Ann Pittwood, Margaret Gordon, Dorothy Tureak and Anna Heider. The production as it is to be unfolded here at the Page theatre is decidedly picturesque. The last act is in three scenes the final one showing Peter in his little house in the tree top.

MORE AUSTRALIAN BEEF EXPORTED BY COAST

SAN FRANCISCO, Cal., May 16.—Another blow at the high cost of living is promised in San Francisco following the arrival today from Australia on the steamer Tahiti of 200 tons of frozen beef, the first consignment of considerable size to be received since the invasion of Australian beef began. The meat was consigned to Levy, Schweitzer & Co., who predict that a cut of 2 cents a pound in the price of beef will follow the distribution of the Tahiti's cargo. This is only the beginning, according to the men who are promoting the importation of beef from the Antipodes. A plan is under way for putting four refrigerator steamers in regular operation between Australia and San Francisco.

PIONEER RESIDENT OF GRANTS PASS IS DEAD

Victor Reyvers, for 24 years a resident of Grants Pass, died at his home at 333 Bridge street, Thursday morning of paralysis, from which he had been afflicted for many months.

MILLS TO START AT DEAD INDIAN

Returning Tuesday from a trip of several days in the Dead Indian country, where he and Attorney G. W. Senger were showing timber lands to Mr. Ingram of Illinois, F. W. Moore stated to the Valley Record editor that there will be things doing in the Dead Indian country before snow flies again in the way of developing the lumber industry. Mr. Moore states that he and the Lindsay Brothers and others who have timber holdings in that region will build a flume from their timber holdings down Little Batte Creek to Eagle Point and will flume out the lumber from a large area of timber lands. Mr. Moore states that there are at least five hundred million feet of lumber in the Dead Indian country that would be accessible to such a flume. He states further that just as soon as a flume is constructed—thus assuring a way to get the lumber out—there will be at least a dozen saw mills, of greater or lesser magnitude, established in this particular area.

FAIRBANKS ON VEGETABLE DIET BY MEAT FAMINE

FAIRBANKS, Alaska, May 16.—Fairbanks is on a vegetable diet today, the available supply of meat being exhausted. All the beef, pork, mutton and cold storage poultry has been sold and there will be none available until the first steamer arrives from Lake Lebarge on June 10 with forty head of cattle. Governor Clark has been wired for permission to set aside the game laws for a month to permit the killing of geese and ducks.

CEMENT WORKERS GIVE MATERIAL FOR HIGHWAY

CHICAGO, May 16.—A pledge of cement makers which approximates a gift of 2,700,000 barrels of cement for an ocean to ocean highway is announced here today. The Association of American Portland Cement Manufacturers promised to give one per cent of their gross output for the next three years toward the highway project.

Huge Buffalo Elevator Burns.

BUFFALO, May 16.—The grain elevator Erie, one of the largest in the world, is in ruins here today, following a fire which caused a loss of more than \$1,000,000.

MARRIED.

SCHUMP-WALKER.—In Medford April 14, 1913, F. D. Schump and Amy B. Walker, both of Gold Hill, Rev. W. T. Goulder officiating.

WELCOME GIVEN TO FRANK CHANCE

CHICAGO, May 16.—Frank Chance, former manager of the Cubs and the idol of Chicago baseball fans, now piloting the New York Highlanders, was given a rousing reception upon his arrival here today. He was met at the station by hundreds of his friends and escorted to a hotel.

More than 30,000 persons are expected to attend the Chance day celebration at the American league park here Saturday when the Highlanders clash with the White Sox in the third game of the present series. Scalpers are trying to corner the tickets for Saturday's game, some of the seats already selling as high as \$7 each.

SHOOTS HIMSELF BECAUSE OF 'PHONE CONVERSATION

SAN FRANCISCO, May 16.—A trivial telephone conversation between two persons is responsible here today for the suicide of John Whelin, who imagined that his fiancée, Mrs. Marie Boney, was talking to a rival. "You had better marry the other fellow," said Whelin. "I'm all through." Then he shot himself through the head.

Wan, Weary and Worn Out

If You Feel Tired to a Finish and Utterly Used Up Here is Quick Relief.

S. S. S. Makes Your Blood Corpulent. Unite for Mutual Protection.

Half the people you meet complain of weary muscles, stagnant brain, jangled nerves, and a wonderful desire to lay down and just quit. Most of these people have been using nervines that spasmodically flare up the nerves only to die down again, as die they must. Avoid nerve stimulants. Bear in mind that this worn out feeling is due to poor blood, to bacteria in the water you drink; to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toxemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.

The medicinal value of the components of S. S. S. is relatively just as vital and essential to well-balanced health as those of the grains, meats, fats and sugars of our food. If you feel played out go to any drug store and ask for a bottle of S. S. S., Swift's Pure Specific. Here is a remedy that gets at work in a twinkling. It just naturally rushes right into your blood, scatters germs right and left, up and down and sideways.

You feel better at once, not from a stimulant, not from the action of drugs, but from the rational effect of a natural medicine just as active and just as timely as to a man who has been lost in the mountains, is about starved and comes across a settler just cooking a savory meal of good honest beef. Do not neglect to get a bottle of S. S. S. to-day. It will make you feel better in just a few minutes. It is prepared only in the laboratory of The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga. Send for their free book telling of the many strange conditions that afflict the human family by reason of impoverished blood.

FIRE DESTROYS HALL AT WILDERVILLE

Fire at Wilderville Wednesday afternoon destroyed the big building containing Oglesby's hall, together with a vacant dwelling that stood just back of the hall. The fire is supposed to have been started from a defective flue, the rear part of the building being occupied by Charles Oglesby and his family, Mr. Oglesby being the owner of the structure. A stock of goods in the confectionery store and club room conducted by Mr. Oglesby in the front part of the building was also lost with but little salvage. The burned structure was one of the leading buildings at Wilderville, and its loss will be much felt, though it is expected that it will be rebuilt. The vacant dwelling that burned was the property of Mr. McCann.

orchestra will give a number of selections, and the house attendants will be present in full uniform. The workmen will finish their work Saturday morning. The playhouse is in its best bib and tucker and the management and owner desire that their invitation for inspection be widely accepted. A number of theater lovers from nearby towns will be present. Richard Carle, with ten girls, may appear in a singing and dancing act in vaudeville.

it is expected that it will be rebuilt. The vacant dwelling that burned was the property of Mr. McCann.

PUBLIC TO INSPECT PAGE THEATRE SATURDAY NIGHT

The new Page theater, to be opened Monday night, May 19, by Maude Adams in Peter Pan, will be thrown open to the inspection of the public Saturday night by Managers Fuson and Gordon. To this the public is invited. The regular theater
