

ASKS COOPERATION PLANTING FRY IN SMALL STREAMS

Ten thousand trout fry have been taken from the Elk Creek hatchery and planted in Red Bluff, Mill creek and the upper Rogue by James Grieve of the Prospect hotel. Persons wishing to co-operate in restocking streams are urged to do so at once, as the fry is in good condition and easier moved now than later.

Speaking of this co-operative work, Superintendent Hugh C. Mitchell of the hatchery writes as follows:

Asks Cooperation.

"I sincerely wish more such plans could be contemplated as this proposition of distribution is a mighty serious one, this is the one subject calling for the utmost care. I candidly believe the loss when liberating fry even exceeds the period at which the fry begin to feed, however such has been my experience. Far too many fry are turned loose at this point, the natural food supply cannot be sufficient, even though the Rogue exceeds any Pacific stream I have been on, in this line.

"It is pretty hard to comprehend what the feeding of millions of mouths means even though they are small fry, the essential point being a bigger scope of territory in which to distribute. I am indeed glad to avail myself of the opportunity of scattering the station's product over as much of the Rogue as is suitable for that purpose. I will gladly co-operate with persons showing that interest in this work. Naturally I am proud of this, the grandest of any-thing streams, and will exert every effort to improve it, provided such is possible.

New Wheel Working.

"The new current wheel is exceeding anything I had dared hope for, furnishing an abundance of water for all purposes, the ponds are completed and in readiness to receive fry as soon as the sac is absorbed. The fish owing to low water temperature are developing very slowly; this is exceedingly gratifying, making a soldier and harder fish, provided to accident happens, something will be placed in the river later that will give returns in due time.

"As soon as fishing reaches its zenith I sincerely trust the Medford boys will call often, and feel that this station is theirs. We appreciate the assistance you have given us in this work."

HIGH CLASS PLAYERS FOR PAGE THEATRE

For the Pantages vaudeville at the Page theater next Wednesday and Thursday, with a special matinee each afternoon at 2:30 o'clock a high class program is offered.

On the bill are the Mother Goose Girls in the elaborate musical fantasy produced by Menlo Moore, the noted Broadway vaudeville artist. The girls will be seen in numerous characters familiar to all by their appearance in fairy tales. Special scenery is used in the act, three massive sets being introduced and the musical numbers are all tuneful.

Martini and Troise have Italian lyrics as the specialty. They are heard in the songs of the wonderland of Europe and to add attractiveness to the act they will offer several instrumental selections.

Emil Hook, the versatile comedien, and his company will be seen in the laughing hit of the year, "Love's Young Dream."

McPhee and Hill are comedy bar experts whose work never fails to please. In the happy musical farce, "Nearly a Soldier," Browning and Lewis, two able entertainers, will appear. Their methods are most amusing and their songs of the catchy sort.

The Pagescope will offer new animated events.

NELSON RELEASED BY SUPREME COURT

JEFFERSON CITY, Mo., June 2.—Colonel William R. Nelson, publisher of the Kansas City Star, was, by an opinion of the state supreme court, released today from contempt of Judge Guthrie, of Kansas City, on the ground that Guthrie, who tried Nelson, had prepared a verdict that Nelson was guilty on the night before the trial. The opinion said: "We are clearly of the opinion that the publication condemning Guthrie in neither literally nor substantially, but was highly contemptuous."

CROSS, COOL, CLEVER, CLASSY CONTENDER FOR CHAMPIONSHIP

Dr. Louis C. Wallace, or "Leach Cross," (his stage name) who is to be Bud Anderson's Fourth of July opponent, is a dentist by profession, as well as boxer, and maintains a suite of dental offices in Brooklyn.

Cross is 27 years of age, is one and one-half inches taller than Anderson and is a rugged boy with a "kick" in either hand and is as clever as any lightweight in the ring today. Rivers, Ritchie, McFarland and Britton exempted.

Story of Career.

In his third fight Cross sustained a knockout in the second round Jack Doyle administering the sleep potion from which it took several minutes and liberal applications of ammonia to revive him. The Hebrew went along after Doyle's beating for 49 fights without losing when he came to this coast and met "Fighting Dick" Hyland at Colma, California, in 1909. Hyland was then in his prime. Cross stayed with him for 41 rounds. The fight was in the open air and the day was raw, foggy and cold and only a few fans gathered to see the go. While Hyland is given credit for a K. O. it is admitted that Cross was not hurt and decided that 41 rounds was more than his end of the gate was worth.

Meets McFarland.

"One Round" Hogan was cutting quite a figure in the lightweight ranks when he was matched with Cross in New York early in 1912. Hogan upheld his "one round" reputation, with the reverse English, Cross beating him so badly that he quit in the first round. Later they were rematched and Cross knocked Hogan cold in the third session. Cross has met Paeky McFarland in two no decision affairs, one six and another ten round event. Jack Britton bested Cross in ten rounds and his fights with men of any importance with the exception of his recent knockout of Joe Mandot in ten rounds have been of the no-decision six or ten round variety.

Best Fighter Yet.

Cross without a doubt is the most formidable opponent Anderson has yet been called upon to face. Cross is cool, clever and arming and dangerous at any stage of a fight. To beat Cross decisively would be a bright feather in the Medford championship contender's cap. When the purse is cut 60 and 40, the dentist lives up to his given name and "sticks like a leech." It has been said that Cross will knock his opponent's teeth out and then try to strike a bargain with him for a new "bridge" or "plate."

Cross is a living proof of the statement that boxing, such as it was in the days of Gans is a lost art, he never having been a near championship contender four or five years ago, when a fighter of his years and experience should be at his best. Cross is managed and trained by his brother Sam Wallace.

JAPAN TOO POOR TO SEEK WAR

LOS ANGELES, Cal., June 2.—"Japan is too poor to seek war with the United States; she could not do so even if she were to be unfriendly, which she is not."

This declaration by Dr. J. K. Ochiai, sub-dean of Trinity Divinity school of Tokyo, before a large congregation at St. Paul's pro-cathedral, is expected by leading Japanese here to put an end to much war talk.

Dr. Ochiai, after explaining the reasons that Japan, even though she were so inclined, could not go to war with the United States, declared that war talk in Japan was the result of a jingoism that represents no real sentiment. He declared that the loyalty of Japanese in America is wrongfully questioned, and predicted that Japanese residents of California, if the time ever comes, will prove in every way their attachment to this country.

SPECIAL MEETING MONDAY OF MERCHANTS ASSOCIATION

There will be a special meeting of the Merchants Association Monday, June 2nd, 8 p. m., at city hall to take up the matter of a celebration of the Fourth of July. All merchants are urged to be present as this is an important proposition.

EARL C. GADDIS, Pres.
JOHN M. CARKIN, Secy.

Charlie Doolan's Phillies have won 15 of their 19 home games this season, or nearly 79 per cent.

TWO DEMOCRATIC SENATORS OF LOUISIANA RUN OUT ON DEMOCRATIC TARIFF BILL

Senators J. R. Thornton and J. E. Ransdell of Louisiana have "run out" on the national democratic administration so far as free sugar is concerned. They will not vote for that part of the tariff bill sent by Oscar W. Underwood, leader of the house of representatives. They will not stand for free sugar as advocated by President Wilson and adopted by the house.

PARIS WELCOMES EXPLORER PEARY

PARIS, June 2.—Admiral Robert E. Peary, the arctic explorer, will arrive here this week in response to an invitation addressed to him by the French Geographical society.

A great reception awaits him. He will be received by the society in solemn session at the Sorbonne and on June 6 will deliver a public address in the enormous amphitheater of the famous institution.

Many believe the French society would have ignored the presence of Peary in France had there not been something of a popular clamor for his official recognition. He is said to have strong opponents in the society, not that they do not believe that he reached the north pole, but are piqued because he failed to submit his proofs to the French society at the time he honored the British.

Dr. Jean Charcot, the Antarctic explorer, is one of Peary's most ardent supporters and he has several times expressed astonishment at the society's failure to take some action honoring Peary. The fact that he is now to be received and feted by the society is regarded as a sort of victory for Peary.

W. R. C. AND G. A. R. THANK THEIR FRIENDS AND AIDS

As each succeeding memorial day comes and goes, we see the Boys in Blue march with less firm a tread, and note the ranks are becoming thinner. Not, notwithstanding the fact that the soldiers of the sixties are being mustered out one by one, the meaning and purpose of memorial day is instilled into the hearts of the present and the coming generation, and there are always those who willingly and gladly lend their aid in making the memorial day services a success and ever keep in mind what the old soldiers did for our nation.

And so in Medford. And therefore the local members of the Grand Army of the Republic, and the Women of the Relief Corps, wish to publicly thank all who took part and assisted in the program of yesterday. And especially thank the managers of the Page theater who so kindly gave the use of the handsome new building for the services of the day; also Rev. Shields who gave the invocation; Atty. H. A. Canaday who gave "Lincoln's Gettysburg Address"; Miss McDonald, for her splendid readings; Miss Hinman, who rendered two excellent solos, accompanied on the piano by Miss Vroman; Rev. Bradley, orator of the day; the Baptist orchestra for its several selections and the Redmen for the use of their hall during the afternoon.

Press Correspondence, W. R. C.

WEATHER BUREAU REPORT SHOWS MAY A NORMAL MONTH

The mean temperature of the month of May, 1913, was only 1 1/2 degrees below normal, while the precipitation was normal. Some damage was done by frost on the 2d, but as a whole the valley suffered little. Orchard heating saved several hundred thousand dollars in pears and apples. Practically all of the pears on the valley floor would have been lost or injured if timely frost warnings issued by the local office had not been heeded. A light frost on the 29th did no damage.

Weather report for May, 1913:

HOME RULE BILL IN SECOND STAGE TO PASS AGAIN

LONDON, June 2.—The Irish Home Rule bill entered upon its second stage today when the measure came up for its second reading in the House of Commons under the provisions of the Parliament veto act, which permits a bill thrice passed by the Commons to become a law despite the fact that the House of Lords may have rejected it. The bill was rejected by the Lords four months ago.

The measure which sets up an Irish Parliament in Dublin to deal with national affairs, while retaining 42 members at Westminster to vote on imperial affairs, was passed by the Commons on January 16 by a majority of 110, but rejected a fortnight later by the Lords by a majority of 257. The Liberal-Labor-Nationalist coalition was in full force today, and will have to vote down all opposition amendments, as the bill, in order to comply with the terms of the Parliament act, must go through in its original form. There will be two days general debate on the second reading, and instead of the usual committee stage, Premier Asquith has substituted a parliamentary novelty in a "suggestion stage" during which the house may pass "suggestions" which will be sent up to the Lords with the bill, so that the latter body can incorporate them as amendments of desired.

WORDS FROM HOME

Statements That May Be Investigated Testimony of Medford Citizens

When a Medford citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills. Such testimony is convincing. Investigation proves it true. Below is a statement of a Medford resident. No stronger proof of merit can be had.

W. F. Gould, 119 W. Jackson St., Medford, Ore., says: "I used Doan's Kidney Pills, procured at Haskins' drug store, and am pleased to say that they have given me more relief than any other kidney medicine I have ever taken. Other members of my family have also used Doan's Kidney Pills and the results have been so satisfactory that I do not hesitate one moment in giving this statement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Why Stand for Such Agony?

It is Entirely Unnecessary that Anyone Suffer with Boils, Carbuncles, Abscesses and Other Eruptive Sores.

Every spring a host of people are the picture of woe; they suffer the intense agony of carbuncles, boils, cystic acne and other extremely painful and often dangerous abscesses. All they require is to

Get Your Blood Purified With S.S.S. and You Won't be Tortured Like This. Get the stagnation out of their blood with S.S.S.

This wonderful remedy works on the principle of stimulating cell growth, of

enabling the blood to quickly infuse new life into the tissues, to stop decay, to prevent the formation of those accumulations of broken down cells that rapidly multiply into the form of carbuncles and other eruptions.

Science cannot explain just why certain elements in the blood feed the bones, others nourish the hair roots, and so on. And it is this same mysterious action of S.S.S. that attacks all diseased spots, drives away all germs, heals all sores and supplants the activity of disease germs with the powerful healing action of leucocytes. Remarkable testimonials have been written that prove beyond question there is no blood disease but what can be cured by S.S.S. And in all those cases that were treated with mercury, iodides, arsenic, copper and other minerals with no permanent effect, the most astonishing recoveries have been made by S.S.S.

There is not a blood taint of any nature that can remain in a system fortified by this most wonderful remedy, for it is absolutely pure and contains only those elements that the blood naturally assimilates, and which the tissues gratefully accept. It agrees with the most delicate stomach, even in those cases where the use of strong drugs has so weakened the digestive system that medicine cannot be given. Get a \$1.00 bottle of S.S.S. at any drug store and thus be assured of a complete cure of any eruptive blood disease. If your case is peculiar and you desire special advice write to The Swift Specific Co., Medical Dept., 117 Swift Bldg., Atlanta, Ga.
