

ROYALTY REVIEWS HOUSEHOLD GUARDS ELITE OF ARMY

WINDSOR, England, June 16.—In the beautiful Great Park, adjoining the grounds of Windsor Castle, King George today reviewed the household cavalry, or mounted section of the royal bodyguard. The three regiments, first life guards, second life guards and royal horse guards blue, are reckoned the elite of the British army, and in their glittering cuirasses and helmets they made a gallant show as they trotted and galloped past the saluting point.

Excluding the gorgeous band, whose scarlet tunics are smothered in gold lace, there were just over 1800 guardsmen on parade. Many of the spectators were hoping that the king would don a cuirass and helmet for the first time in his life, but he did not risk it.

Not a man present was less than six feet, and the average was probably nearer six feet three inches, so his majesty contented himself with a field marshal's uniform rather than be the only "midget" on the field. The duke of Teck, brother of Queen Mary, was in command of the first life guards, while his brother, Prince Alexander of Teck, is a major in the second life guards. The regiments were first of all led past the king by their honorary colonels, Field Marshal Lord Grenfell, General Earl of Dundonald and Field Marshal Sir Evelyn Wood, who, however, took up positions beside his majesty before the steel-clad squadrons thundered past at the gallop, and the younger princess, witnessed the review from a carriage, and great crowds of appreciative spectators thronged the parade ground to watch the brilliant spectacle.

Queen Mary, with Princess Mary stringency, and that general monetary conditions are critical. Glittering first mortgages, even on an appraisal of 40 per cent, are going begging. A great industrial crisis is feared, owing to the long credit on which business is done, and inability to make collections promptly. It is estimated there are more than 80,000 vacant flats in Berlin alone. Many buildings are left unfinished because owners are unable to get money to complete them.

GRANTS PASS FISH POACHERS AT OLD LAW VIOLATIONS

Two of the commercial fishermen at Grants Pass were arrested last night by Game Warden Sandry for fishing in the restricted area below the Ament dam. Both parties were taken had steelhead in their boats. Mr. Sandry states that the unlawful fishing has been going on for several nights, but this was the first time he has been able to catch the poachers.

District Attorney Kelly wired J. N. Johnson, deputy district attorney at Grants Pass, to push the prosecution vigorously against the poachers and to notify all the commercial fishermen on the river that if the violations continue his office will take steps to test the legality of the law which opens the river to commercial fishing in Josephine county.

Among the fishermen are some of the most notorious lawbreakers from the Oregon City fishermen, who have given endless trouble to the authorities.

SUNDAY EXCURSIONS A GREAT SUCCESS

The Southern Pacific ran a well-patronized excursion to Shasta Springs yesterday. Weather conditions in California were ideal and the excursion thoroughly enjoyed by all. At Weed the baseball team left the train, the train going on to Shasta, where some fifty excursionists visited the Shasta fish hatchery and enjoyed the attractions of that place. The train then continued on to Shasta Springs, where two hours were spent. The excursionists enjoyed the mineral water and beauties of that resort. Returning, the ball team was picked up at Weed and fast time was made to Medford, the special reaching here at 10 p. m.

A large crowd took advantage of the Pacific & Eastern's excursion to Butte Falls and spent Sunday wandering in the forests along that natural picnic ground. Excursions will be run every Sunday.

The most picnic to Rogue River was participated in by a large crowd and a most enjoyable day spent.

MAMMOTH ANCHORS AND CHAINS OF SS. IMPERATOR

The anchors of the largest ship in the world and the chains which secure them establish new records for size and strength. Although a transatlantic liner may not use her anchors for years at a time, they are always kept in position and in perfect working order. The SS. IMPERATOR, of the Hamburg-American Line, the largest ship in commission, carries no less than five great anchors. Her main anchor weighs 28,435 pounds and is the largest in the world. There are two additional bow-anchors, weighing 17,636 pounds; a fourth of 11,435 pounds and a warp-anchor of 4,960 pounds.

Anchor chains are provided large and strong enough to hold the great ship. Every link of the chains is of hardened steel and is designed with a crossbar that they may not tangle. The combined length of these chains is

1,250 yards, or about three-quarters of a mile. The combined weight of the five anchors and the chains is 485,082 pounds, which alone would make an important item of cargo for an ordinary vessel.

The anchors are designed with long sharpened flukes to prevent them from dragging. Should they ever be used, the pull exerted against them would,

of course, be enormous. The IMPERATOR has a length of 519 feet, a beam of 98 feet and a tonnage of 50,000. Her great size has been utilized to equip her with large public cabins and staterooms, which do away with any suggestion of crowding. She is constructed with an inner hull rising high above the waterline, which makes her a ship within a ship.

SUNDAY BIG DAY WITH THE BAPTISTS

Yesterday was a big day with the Baptists of Medford. In the morning the pastor preached a strong sermon before an appreciative audience on the subject: "The Aroma of Life."

In the afternoon at three o'clock over two hundred men gathered at the Baptist church to hear Dr. R. W. MacCullough deliver the first of his series of lectures on "The White Life Among Men." The men's orchestra of the church furnished a splendid musical program. Dr. J. W. J. Marion presided and made a short address in which he stated that the root of the social evil was the double standard of morality and made an earnest plea for the single standard of morality for both men and women.

Dr. MacCullough pointed out what a tremendous problem was confronting the American nation as well as other nations of the world in the social evil. He told how it was sapping the life blood of the nation and of the terrible results to the individual and the home. Dr. MacCullough made a stirring appeal for "The White Life Among Men." Dr. W. W. Howard sang "Rock of Ages" with splendid effect.

In the evening Dr. MacCullough painted a word picture of Peter leaving the boat and going to Jesus. As Peter was sinking beneath the waves he cried out: "Lord, save me, or I perish." The pastor showed how this was the prayer of every earnest man and how Jesus alone could save. The service closed with Baptism.

Colestin Excursion.

The Southern Pacific will run an excursion to Colestin Sunday, June 22. Particulars by hand bills and newspaper advertisements later.

ASK WILSON'S AID FOR BASEBALL TOUR

WASHINGTON, June 16.—Manager Jimmy Callahan, of the Chicago White Sox, will today ask President Wilson to sanction the issuance of letters by the state department to American Ambassadors abroad, asking them to do what they can to help the Giants and White Sox on their world tour, which is planned for the end of the present season.

The president who is himself, some "fan" is expected to accede.

Senator James Hamilton Lewis, of Illinois, is expected to introduce a resolution in the United States senate wishing the touring baseballers Godspeed.

REBELS DEFEAT HUERTA FORCES WITH 600 LOSS

EL PASO, Texas, June 16.—In a battle with 1200 Mexican federals, near Sasullo May 29, rebels under Generals Villa, Chao and Hernandez defeated the Huerta troops with a loss of six hundred killed and wounded, according to dispatches received here today from Southern Chihuahua. The rebel loss is not given. After the battle the rebels resumed their march northward on Chihuahua City.

The federal garrison of five hundred at Juarez, across the Rio Grande from this, is threatened by a force of constitutionalists from Ojinaga.

ROCK IN FIELD DEFEATS MEDFORD

The game at Weed yesterday between Medford and the lumbermen was won by Weed 6 to 5. Medford was robbed of the game by a rock in the field, against which a ball bounced and shot over the fence making the only homerun of the game. Medford was ahead until seventh inning was reached and without the accidental homerun by Weed, the home town boys would have been returned winners.

McFadden from the Applegate pitched for Medford and was declared by the Medford rooters who made the trip to be "some twirler." Hurd relieved him in the fifth, it being McFadden's first game and with some practice McFadden will be able to go the nine rounds in tiptop style.

Weed will probably come to Medford for the Fourth of July series and these games should be the best baseball Medford has had an opportunity of witnessing in many years.

The major league clubs have started to gather the 1913 crop of minor league wonders. Detroit was one of the first of the big league clubs to get on the job, having signed Pitcher Grimes and First Baseman Burns of the Ottumwa (Ia.) team.

OPERATION TO STOP GROWTH OF BIG YOUTH

PHILADELPHIA, June 16.—Heroic measures were decided upon today by surgeons at the Medico Chirurgical hospital here to stop the growth of John Michael, a fifteen-year-old boy, who is now six feet seven inches tall. So far as known, this will be the first operation for "gigantism." A portion of the pituitary gland, which is believed to control the mechanism of life, will be removed from the base of the youth's brain. Mentally the boy is as yet normal, but the surgeons say that if the operation is not performed the overgrowth of the body will affect his mind. Scientists are hopeful that the operation will be successful.

Names taken from the lineup of the Chicago Federal league team, as printed in a Chicago newspaper: O'Leary, Stan'y, K'nagh, K'ding, G'rich, M'Don and M'ire.

FAIR-MINDED PHYSICIANS

recognize the value of Lydia E. Pinkham's Vegetable Compound and do not hesitate to prescribe it. A woman from St. Cloud, Minn., says she was led to take it because she learned that her doctor's daughter had been taking it with most excellent results. This is another link in the long chain of evidence to prove the reliability of Lydia E. Pinkham's Vegetable Compound for women.
