

BRYAN REQUESTS CANADA TO JAIL JACK JOHNSON

Arrest Ordered of Big Smoke Who Flew in Disguise From Chicago Following Reduction in Bail, Ostensibly Enroute to Russia.

Wore False Moustache When He Crossed Border—Can Still Proceed to France Without Molestation.

MONTREAL, Que., June 27.—On the request of Secretary of State Bryan, the Canadian government today ordered the arrest of Jack Johnson, the American negro prizefighter, pending his deportation as an "undesirable immigrant," if he attempts to remain in the Dominion.

Johnson, who is here, fled from Chicago, following the reduction in his bail from \$30,000 to \$15,000, ostensibly en route to Russia.

Johnson wore a false moustache when he crossed the border. The authorities here say the big negro can be arrested and deported only if he attempts to stay in Canada. He did not enter the Dominion as an immigrant but held through transportation from the United States to a foreign country via Canada. If he proceeds to France he will not be molested. Johnson declares he will sail on Tuesday.

MAN REPORTED DEAD DENIES HIS DEATH

PORTLAND, Ore., June 27.—"No sir, I am not dead. I didn't jump in to the water at Seattle, leaving a note to distracted relatives."

Thus spoke Archie Pettys of Portland today and, in very truth, he looked to be a resident of earth rather than of the land of shadows. Pettys is inclined to think his friend, Leslie Anderson of San Francisco, is putting a joke over on him, but cannot exactly appreciate the delicate vein of humor.

Anderson arrived in Portland today and denied vigorously that he had left the message for Pettys's relatives. Pettys said he and Anderson recently quarreled and that Anderson later sent him some post-cards from Seattle.

USELESS TO GIVE HUSBAND A BEATING SAYS WIFE

SAN FRANCISCO, Cal., June 27.—"Couldn't you get some one to hunt him up and give him a good beating, that would make a man out of him, instead of getting a divorce?" was the question Superior Judge Dunne, sitting for Judge Graham, asked Gertrude Moody, asking for divorce from Clifford Wright Moody, on the ground of desertion. "Useless," said the wife, and Judge Dunne granted the divorce.

SAFER FOR GIRLS HIKING ALONG THAN IN STORE WORK

SALT LAKE, Utah, June 27.—Girls are safer walking alone across the country than they are when working in department stores. The insults which they are apt to meet in many stores are totally absent when they are on the road.

These are the conclusions of the Misses Frances Leach, 18, and Mary Corne, 23, feminine glob trotters, who are walking from Denver to San Francisco via the old Midland trail. They are not attempting to make any speed records, having left Denver May 12. They left Grand Junction, Colo., on their western trip a few days ago.

The girls declare that their effort is merely preliminary to a more extended pedestrian tour later. If they succeed they will remain on the coast for several months and then attempt to walk back to the Atlantic. "My muscles are hard as nails," laughed pretty Miss Leach today. "A month's walking out in the open air did that. We both worked for our living in a department store in Denver, and became so run down in health that we decided a trip of this kind was the only thing that would permanently restore our health. When we started I could scarcely walk two miles a day, and now I can do fifteen and get fat on it.

The girls finished the first leg of their long journey—Denver to Grand Junction, Colo., a distance of 475 miles, in three weeks time and arrived in the latter city fresh and unwearied. Although both girls have always gone armed, each carrying a small revolver, they declare they have been subjected to insult only once.

ENGLISHMAN DEFEATS JOHNSON AT TENNIS

LONDON, June 27.—In the fourth round of the English lawn tennis championships at Wimbledon today, Watson, of England, defeated Wallace Johnson, of America, in three straight sets, after the American player had taken the first set. The scores were 3-6, 8-6, 6-1, 7-5.

Maurice E. McLoughlin, of San Francisco, the American champion, was pitted against another American, R. Norris Williams, of Harvard. McLoughlin took the first two sets, 6-4, 6-4, but lost the third to Williams, 3-6. Thereupon Williams retired from the contest.

Williams' retirement was owing to an agreement to have McLoughlin represent America in the finals. Today's match was regarded as merely a practice game.

FRENCH AVIATOR FALLS 250 FEET TO DEATH

CHALONS, France, June 27.—Falling 250 feet while testing a monoplane, Maurice Foulquier was instantly killed here late today. He was an experienced biplane pilot but this was his first flight in a monoplane.

STEEL OFF TO ASSUME DUTIES AT CRATER PARK

Supt. Will G. Steel, of the Crater Lake National park is in Medford on his way to assume office. Under instructions from the Department of the Interior, he must be at the park July 1. There is some interesting speculation as to what will happen should Former Superintendent Arant refuse to vacate, as he has refused to resign upon the request of Secretary Lane. Mr. Steel says he has full instructions to cover such emergency, but refuses to divulge them.

In addition to the \$125,000 to be expended by the war department this season in road construction in the park, congress has appropriated \$75,000 for improvements under the direction of the superintendent, which will be expended in trails down the crater and in other improvements.

Mr. Steel states that good progress is being made on the roads in Crater Lake park. The government engineers in charge of the work have a large force employed and more than a mile of permanent highway has already been built.

Mr. Steel has made application to the government to send some gray squirrels to the park as an experiment. There are now no squirrels in the park except chipmunks and as the gray squirrel is a feature in all eastern parks and become very tame, they would be an added attraction around the lake and soon become acclimated.

Mr. Steel leaves Saturday for the park, going out on the P. & E. to Derby, thence by stage to Prospect. From here he will be driven to the park by James Grieve. The continued rains will delay the park season which will probably not formally be opened until July 15, although meals will be served and accommodations supplied July 1.

The stone inn at the lake will be rushed to completion at once.

BODY OF NAVY AVIATOR FOUND FLOATING IN WATER

BALTIMORE, Md., June 27.—The body of Ensign Billingsly, the naval aviator who was killed in an aeroplane flight near Annapolis naval academy last week, was found today, floating on the water near the place where his machine struck.

MILLION AND A HALF ESTATE LEFT BY HOBART

PATERSON, N. J., June 27.—An estate of \$1,467,862, yielding an annual income of about \$100,000, was left by Garrett A. Hobart, late vice president of the United States, according to an accounting presented today to the surrogate's office here by the trustees.

Warner Oland has been engaged by Robert Campbell to play Robert Hilliard's role in "A Fool There Was," when that play is sent on tour next August.

FAVORABLE REPORT TROUT HATCHERY AT BUTTE FALLS

Chairman J. Frank Hughes, of the state game and fish commission and Master Fish Warden Edward Clanton, who were appointed a committee to report upon a proposed trout hatchery at Butte Falls, visited that city Thursday and were very favorably impressed both by the sites offered and the facilities in prospect. They pronounce Big Butte ideal for the purpose as well as the prefluent stream in Oregon. Mrs. Hughes accompanied her husband.

At Butte Falls the inspection party were shown two sites, one on each side of the river, each about half a mile above the city, by Manager Mills, representing the Dewing timber interests, who made the offer. A third site has been offered some three miles above and a fourth by Edgar Hafer at the mouth of Four-Hit creek. Time was too limited for inspection.

Superintendent Wilson of hatchery construction will be sent here within a week to make a more careful examination of the various sites, as well as of the Elk Creek hatchery, and make comparative estimates of cost.

A hatchery will involve the investment of several thousand dollars, furnish steady employment for several men and insure the restocking of local streams with trout, as well as be a great show place for Butte Falls.

COPPER RIVER RAILROAD MAN KILLED IN ACCIDENT

CORDOVA, Alaska, June 27.—L. M. Price, superintendent of bridges of the Copper River railroad, is dead here today following the wreck of a motor speeder when it struck a horse near Blackburne. Price and General Superintendent Caleb Corser were riding on the speeder. Corser escaped injury by jumping.

KID PLAGG MAY MEET FRANKIE BURNS NEXT

SAN FRANCISCO, Cal., June 27.—Kid Plagg, the San Joaquin Valley lightweight, may be selected to meet Frankie Burns before the Oakland Wheelmen next month. Matchmaker Rohan has made Manager Wolff an offer and the latter will give his answer tomorrow. Plagg has never performed here but he has made quite a reputation in the valley.

ROOSEVELT GETS PERMIT TO PACK A WEAPON

NEW YORK, June 27.—Magistrate Corrigan confirmed reports today that Colonel Theodore Roosevelt and District Attorney Whitman have permission to go armed. Judge Corrigan said he "took a chance" when the permits were issued and did not demand certificates of good character. With Medford trade is Medford made.

USING POISON TO SAVE ORCHARDS GRASSHOPPERS

Arsenical poisoning for grasshoppers has been resorted to on an extensive scale by the Rogue River Canal company to save their orchards on the so-called desert from grasshoppers. As a result millions of grasshoppers are dead and the ground is strewn with the dead and the dying hoppers.

Bee men have been busy moving hives from the vicinity for fear that the poison may kill the bees, though this is unlikely. Nevertheless, the apiarists do not intend to take a chance. Chief Deputy Game Warden Sander made an inspection of the district Thursday to find out whether any and game birds had been affected, but was unable to find a single dead bird.

The hatch of grasshoppers is the biggest in years. The wet weather prevents destruction by fire, the usual means and it is either a question of poison or stripped orchards.

Mr. Mignon Nevada made a success at her first appearance before a Parisian audience in "H. Barbicere."

STEWART AWARDED CONTRACT TO BUILD PRECOOLING PLANT

Contracts were let Thursday by the Rogue River Fruit and Produce association for the construction of a pre-cooling plant with a capacity of 100 cars storage. The building will cost \$40,000, will be 30x124 two stories in height, have concrete foundation, tile walls and millwork interior. It will be located at the junction of the Hill and Harriman lines, at the north city limits, with track facilities from each.

R. J. Stewart was awarded the contract for the building; Gilson Chambers Co. for the cork installation; the Vulcan Iron Works for the refrigerating plant; the Downson company, of Portland, for the tilting.

The first floor will be finished and equipped for refrigerating 50 cars of fruit. The second floor will be used for dry storage. A section, 24x30, at the north end, will be used for operating, packing and receiving fruit. Under it, in the basement, will be located the machinery.

Bonds for the building were approved by the stockholders.

Billie Burke will use "The Amazons" again next season.

BOOSEY SAID TO BE FATALLY ILL FROM DIABETIS

W. J. Boosey, recently adjudged insane and an inmate of the Oregon Insane asylum, is probably fatally ill from diabetes, according to letters received by his daughters from the nurses. For some time Mr. Boosey has had a running sore on his leg which has developed gangrene.

The Misses Boosey made application to the county court Friday to be sent to visit their father and be with him and County Judge Tom Valle purchased tickets to Salem for them. They leave Friday evening.

The women have carried out their father's opposition to the county's road building operations, but Friday surrendered and requested the county to rebuild the fence according to agreements made last winter and which Mr. Boosey later repudiated.

JACK DOUGLAS TO GO THREE ROUNDS WITH ATTELL

SAN FRANCISCO, Cal., June 27.—Jack Douglas, the San Francisco bantam, is scheduled to go ten rounds with Young Abe Attell, of St. Louis, at Three Parks, Montross, on July 4.
