600 POPPY PLANTERS KILLED BY CHINESE

SHANGHAI, July 16.—Statistics published here today by the government show that 600 poppy planters and their employes have been killed in pitched battle with soldiers in the past twelve months as a result of the new republican government's energetic efforts to eradicate the opium curse. In the report mention was made of the stand taken by President Wilson and his cabinet in refusing to support the demands of American bankers or traders in China for reimbursement on account of the destruction by the government of China of opium and poppy crops on which they held liens. The report declares that the American administration's action has done wonders in strengthening the crusade against the opium evil.

BENSON SPENDING MILLION DOLLARS FIGHTING BOOZE

PORTLAND, Ore., July 16.—First having provided an adequate substitute for whiskey in the form of a gift of twenty-five bubbling fountains for Portland, S. Benson, millionaire timberman, is today fairly lamed on his project to wipe out, by constitutional amendment, every distillery in the United States.

Although he is a total abstainer himself Mr. Benson does not propose to place this constitutional amendment restriction upon the manufacture of beer or wines, because of the honest difference of opinion prevailing among medical experts as to the harmful nature of these beverages. But declaring whiskey and kindred spirituous fluid poisons, he would stamp them out "as one would stamp out a poisonous serpent in the lane." For the preliminary work of wiping out whiskey, Mr. Benson has made an appropriation of \$50,000 which he will draw on as heavily as is necessary. "I have the money," said Benson today, "and I believe it my duty to use it for humanity. We have entered into this fight from the standpoint of economics. Religion does not enter into it at all. Our fight is a strictly business proposition, and will be conducted strictly on business lines. The fight may take two years or ten. I personally have nothing to win or lose, but I have seen the misery which whiskey produces. I have seen bright, energetic men in my lumber camps become worthless simply through the appetite for drink. "Information I have gathered show that a billion dollars is annually spent over saloon bars for liquor bearing a high percentage of alcohol. Seventy millions dollars is invested in the manufacturing end of this so-called industry. This a sore that should be removed from our national economic life. State legislatures cannot do it. It rests upon the government to take the step." Benson believes the plan he has tentatively mapped out will not prove too great a financial catastrophe upon the men engaged in the business. He proposes to allow them five years to go out of business after the amendment becomes a law. For more than a year, he has had this idea in view. His counsel, E. E. Covert, of Portland, has been in Washington conferring with legislators and investigating further into the liquid liquor question.

M'REYNOLD GOES BRYAN ONE BETTER

WASHINGTON, July 16.—While all this prohibition stuff is being handed out so freely, with Secretary of State Bryan boasting that he quaffs only grape juice, it is but meet that one other member of the Wilson cabinet be given his due. Attorney General McReynolds doesn't drink; he doesn't smoke; he doesn't chew, and it is said of him that he doesn't even indulge in anything as near a swear word as President Wilson's golfing "tut-tut." At the many banquets which the attorney general is a guest he always turns down his wine glasses. But he makes up on the mineral waters that are passed around.

President Wilson is rapidly becoming an ardent automobilist. As a matter of fact, it can be stated without fear of contradiction that he has become one. During the hot weather he takes a long automobile ride every afternoon and sometimes a second one in the evening after dinner.

GETS PERMISSION TO OPPOSE HETCH-HETCHY

WASHINGTON, July 16.—Eugene J. Sullivan, president of the Sierra Blue Lakes Water and Power company, was granted permission today by the senate public lands committee to file a brief by July 23 against the issuance of a permit to San Francisco to use the waters of Hetch Hetchy for a municipal supply. Other sources of supply, according to Sullivan, are available. He also claimed that the city was not facing any serious water famine.

PANAMA LAWS BANISH CHINESE IN CANAL ZONE

PANAMA, July 16.—The Chinese situation which has arisen in this republic rivals the Japanese question of California and is quite likely to involve the United States more or less seriously before it is settled. This is the belief today of Panama government officials.

New laws, directed against the Chinese residents of Panama, recently passed, together with official decrees issued by President Porras, will practically legislate the Chinese out of this section of Central America, a spot where they have been steadily growing in numbers for many years. Failing to get any satisfaction from the Panamanian government the Chinese republic has appealed to Washington for help and holds that the United States must see that the Chinese residents of Panama are given commercial protection.

The new laws come pretty close to taxing anything and everything a Chinaman in Panama does. The Chinese merchants claim that they pay nearly 70 per cent of the import duties of the country yet, under the new law, their chamber of commerce here is to be taxed \$1,000 gold a month which will drive it out of existence. The social and religious organizations are heavily taxed, the Chinese stores are restricted as to the class of goods they may sell, the members of the race are required to register frequently—and pay a fee each time—and other restrictions are placed almost upon their every move.

The Chinese claim that this is in direct violation of the Panamanian constitution which guarantees equal rights to the citizens of all nations. They also charge that when American Minister Dodge, acting on instructions from Washington, appealed to the Panama government he was promised that the laws would be made less drastic, but the matter was then allowed to rest.

The laws of Panama do not permit of a test of the constitutionality of any new law unless the president and his cabinet disagree on that law. There has been no disagreement on the Chinese situation. The Chinese of Panama and of Central America are a thrifty, industrious lot. They never mix up in any of the political affairs of the nations and their dollars have done much to put many of these nations on a firmer financial footing. The credit of the Chinese merchants of Panama ranks very high with the wholesalers of the United States from whom they buy heavily.

CANNERY TENDER WRECK AT EXCURSION INLET

JUNEAU, Alaska, July 16.—The cannery tender Jack Horner, belonging to the Pacific Fisheries company, is a wreck at Excursion Inlet today following a fire which burned her to the water's edge. The boat's fuel supply became ignited by backfire from the engine. The Jack Horner was built in Seattle two years ago and was valued at \$14,000.

For The Neck And Shoulders

A Free Prescription That Instantly Obliterates Blemishes, Tan, Freckles and the Marks Left by High Collars. The Dutch neck and the evening gown too often expose the discoloration and blemishes of high collars or the effects of tan and freckles. It is easy to overcome these conditions and make the neck beautiful and white and soft and smooth—to overcome, in other words, every blemish and make the low neck as attractive as it is comfortable. This preparation can also be used on the shoulders and face, and it is marvelously effective to beautify the hands and arms. If you want to try it, go to your druggist and get a one-ounce bottle of Kalux Compound. Pour the entire contents into a two-ounce bottle, add quarter ounce witch hazel, then fill with water. Prepare this at your own home. One application will delight you. It is deliciously cool and soothing and it is not affected by perspiration. It will not rub off. If you put it on one hand only, or on one side of the neck and note the difference, you will see the wonderful change it makes instantly. The results are immediate and continued use of this preparation will keep your skin as soft and smooth as a child's.

SAY PETERSON GOT AWAY WITH SET OF HARNESS

A warrant for the arrest of John Doe Peterson was issued out of Justice Taylor's court Wednesday morning, charging Peterson with the crime of larceny by baillee.

Early this week Peterson represented to the Medford Harness company that he had just bought an interest in the West Side Livery stable and upon these representations secured under a lease contract a set of double harness of the value of \$50. Yesterday evening the harness company discovered that Peterson had shipped out a carload of horses, together with the harness, and was on route to Washington. A warrant was issued for his arrest and the authorities along the route of the shipment wired to take Peterson in custody.

Many a Mail Tribune Reader Will Be Interested.

When people read about the cures made by a medicine endorsed from far away, is it surprising that they wonder if the statements are true? But when they read of cases right here at home, positive proof is within their reach, for close investigation is an easy matter. Read Medford endorsement of Doan's Kidney Pills.

F. W. Gray, 507 Palm street, Medford, Ore., says: "A few days ago my kidneys began to bother me and the trouble was aggravated by my occupation, which required me to be on my feet the greater part of the day. When I began work in the morning I felt alright, but after I had been on my feet for a couple of hours, my back began to pain me and at night I would scarcely be able to straighten. In some way I heard of Doan's Kidney Pills and began using them. They cured me in a short time and in return, I am pleased to recommend them."
