MULHALL TELLS SECRETS. (Continued from Page 1)

JANET BEECHER TO WED A YOUNG LAWYER

WASHINGTON, July 17.—Plans to make the National Association of Manufacturers a controlling factor of congressional campaigns to defeat legislation in Washington which its members did not approve, to get the ears of men running presidential booms and to land a member of the association in the cabinet of the president were laid before the senate lobby committee today.

Martin Mulhall, self-styled lobbyist for the association swore to the authenticity of nearly four hundred letters which told of these plans and brought in the names of such men as former Presidents Roosevelt and Taft, late Vice President Sherman, former Speaker Cannon, Gore, Senators Aldrich, Hemenway, Foraker and others, Arthur Vorys of Ohio, manager of the Taft campaign of 1908 and Frank Hitchcock, one time chairman of the republican national committee and postmaster general in Taft's cabinet.

Mulhall testified that the National Council for Industrial Defense organization was allied to the national association. The manufacturers raised between five hundred thousand and seven hundred thousand dollars a year to be used to oppose legislation its members did not like.

Mulhall declared he went to Portsmouth, Ohio, and broke a strike there of 3000 shoeworkers. He said he entertained the strike leaders, bought the union's entire secrets and ended the strike within three days. The witness declared that on May 29, 1908, N. A. M. headquarters wrote him that they wanted "the right kind of congressmen" elected in the Tenth and Eleventh Pennsylvania districts, and wanted Cannon of Illinois and Jenkins of Wisconsin reelected. Many letters that Mulhall wrote to headquarters appealed for financial aid for Jenkins, "one of our best friends."

Once, Mulhall said, Jenkins did not have sufficient money to pay railroad fare and money was rushed to his aid. He told of paying Henry Neal, one of the speaker's messengers to keep him informed regarding the speaker's visitors.

All for G. O. P. Ticket. A score of letters and telegrams, arranged chronologically were read purporting to show that the N. A. M. officials were in constant touch with republican leaders both before and during the 1908 convention. Emery, one of the letters said, was "in touch" with the committee on resolutions ten days before the convention met.

The president of the N. A. M. Mulhall said, and the executive board attended the convention and when the ticket was selected all the resources of the N. A. M. were used to aid Taft and Sherman.

ARANT LIABLE TO ARREST FOR PARK TRESPASS

The effort of W. F. Arant to hold his job as superintendent of Crater Lake national park, despite his summary removal by Secretary of the Interior Lane, and the rulings against him by the federal civil service board and Attorney General McKeen, and the stoppage of his pay July 1, has been referred to the United States department of justice, which will probably take summary action and arrest him for trespass. Arant retains possession of the government headquarters, refusing to surrender on demand of Secretary Lane. Will G. Stiel, who was appointed superintendent, also remains in the park on Lane's order.

As a result of Arant's action, no work is being done on roads and trails, no auto licenses are being collected, no foresters are at work and the short season is rapidly progressing without needed improvements being made, money for which is available.
