This should be remedied at an early date.

Miss Della Price of Santa Cruz, Cal., is the guest of Mrs. N. P.

MARTIAL LAW PROCLAIMED FOR CALUMET REGION

LANSING, MICH., July 25.—It was learned from an authoritative source here today that martial law is to be declared this afternoon in the copper mining regions, where twenty-five thousand men are out on strike, if rioting continues. Governor Wood, his wife and his daughter, are expected to arrive here this afternoon and will take personal charge of the situation.

Adjutant General Vanderook announced that he has arranged to run special troop trains to Calumet. Some of these will cross other states en route to the scene; permission having been obtained from the governors of Illinois, Indiana and Wisconsin. The troops will carry three days' rations.

Thirty mines are affected by the strike order. Eighteen thousand miners and 7000 surface workers are out.

Most of the American residents of Calumet gladly welcomed the troops but the foreign element of the strikers is sullen and angry. The troops are quartered in the armory.

But few clashes occurred today. More than half of the militiamen already on the scene are miners who live in the copper country. It is not believed there will be any serious conflict between militiamen and strikers until the arrival of troops from the southern peninsula, who are not in sympathy with the strikers.

Orders were issued this afternoon that all saloons in Houghton and Keweenaw counties must close this evening, and the militia was instructed to arrest anyone caught buying or selling liquor.

PARENTS PREVENT WEDDING OF COUPLE

Ralph Burgess, son of Mr. and Mrs. Art Burgess, who recently returned from Canada where he played baseball, secured a license Thursday afternoon to marry Miss Ruby Burke, daughter of F. E. Burke. She is an employe of the Home Telephone company. The license was secured all unknown to parents of either party, who strenuously oppose the marriage of the couple at this time and have since succeeded in halting the ceremony.

Young Mr. Burgess planned to meet the young lady of his choice as she left work Thursday evening and elope with her. However, she left an hour before her usual time and he waited alone in the darkness.

Dodge of Grants Pass. Miss Price is the daughter of Professor C. S. Price, former principal of the Jacksonville school, and superintendent of the Jackson county schools, who subsequently became publisher of the Rogue River Courier.

A determined effort is being made to have Clyde Brandenburg, postmaster of Klamath Falls, removed. It is reported that J. B. McAllister, former chief clerk in the office, who was removed at the request of Brandenburg, has preferred charges of general incompetence. Among those who have expressed a desire to succeed Brandenburg when a vacancy occurs are W. T. Shive, William Wagner, W. S. Dezell and Mr. McAllister.

Suits to recover 20,000 acres of school land in six counties in Oregon, said to have been fraudulently secured by F. A. Hyde and others, will be begun soon. Much of this land is located in Jackson county. The federal and state governments will act jointly in this matter. No preference rights by reason of contest on any land involved will be allowed.

TOO LATE TO CLASSIFY FOR RENT—New five-room strictly modern bungalow, screened porch, laundry trays, fireplace, fine lawn, best location in city. 113 Geneva ave. 112

NOW IS THE TIME To build a home Labor, building material and choice building sites will never be as cheap again. You can buy a large lot with BEAUTIFUL VIEW of VALLEY on the East Side in best residence district with building restriction, good roads, close to city water, low taxes for small payment down, easy terms on balance. This is one of the best building sites in the valley. ADDRESS P. O. BOX 207 MEDFORD, OREGON.

RAINFALL FOR STORM 2.75 INCHES

Showers are predicted for Friday night and Saturday, but the indications are that the storm is nearly over. The total precipitation for the month is 2.75, all of which except .17 fell in the past three days. Some idea of the amount of moisture that has been precipitated can be gained when it is realized that an inch of rain weighs 113 tons per acre.

BEGGING URCHINS IN JUVENILE COURT

Merle Stadler, aged 12, Carl aged 11 and Fibert aged 8, were brought before Judge Tom Velle Friday on complaint of their father, a plasterer, who complained to the chief of police that the boys stole. The boys said in court that they picked up some plums on the ground under a tree. Their appearance in court indicated no viciousness, simply lack of parental care. The father says that he is away from home working most of the time. He recently remarried and the wife is a cripple.

The boys are well shown little orphans and have been clothed and given meals around town, for which they have become proficient beggars. They claim they have to in order to get something to eat.

Judge Tom Velle withheld sentence pending investigation, remarking that it looked as if the parents were trying to shove their own duties on the state.

When You Look out of doors of a morning and you can't make up your mind whether or not it's going to rain before you arrive downtown then is the time of times when a featherweight, dampproof raincoat would absolutely fill the bill.

Now is the time to buy a good rain coat that will answer your needs for the next year. We have a few rubberized coats left. Regular \$10.00 \$12.50 \$15.00 and \$20.00 coats while they last at just half price.

All oil slickers at 1/3 off, which means you can own one cheaper than we do. This is your chance

AMERICA BREAKS EVEN AT TENNIS WITH ENGLAND

WIMBLEDON, England, July 25.—America and England broke even here today in the singles matches in the play for the Dwight F. Davis international tennis cup. The surprise of the day was the defeat of Maurice N. McLoughlin of San Francisco by J. C. Parke, a member of the English team. Tennis experts throughout the country predicted an easy victory for McLoughlin, but his service was off color, his backhand returns weak, and he went down before the consistent playing of Parke after a hard-fought contest.

America evened up, however, when R. Morris Williams clashed with C. P. Dixon, although the latter pressed the Philadelphia hard. Williams won the first set 8-6, but Dixon easily took the next set, 6-3. The third set went to Williams, 6-2, and the fourth to Dixon, 6-2. The final set was full of thrills, but Williams finally won, 7-5, giving him the match and saving the day for America.

chins and have been clothed and given meals around town, for which they have become proficient beggars. They claim they have to in order to get something to eat.

Judge Tom Velle withheld sentence pending investigation, remarking that it looked as if the parents were trying to shove their own duties on the state.

LOOK YEARS YOUNGER! GRAY HAIR DARKENED BEAUTIFULLY WITH SAGE

Says Sage and Sulphur Will Stop Falling Hair and Cure Dandruff. Common garden sage brewed into a heavy tea with sulphur and alcohol added, then left to age and carefully filtered will turn gray streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggy and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of

Come In and See The Special Offer Until August 1st. JOHN DEERE SPREADER The Spreader with the Beater on the Axle The Simplest Spreader Made No Clutches No Chains No Adjustments JOHN DEERE Easy to Load Roller Bearings Light Draft Entirely New .. Nothing Else Like It THE JOHN DEERE SPREADER—The Spreader with the Beater on the Axle—is as much of an improvement in spreader manufacturing as the self-binder was over the old reaper. It is made along entirely new and different lines from the ordinary spreader. The first manure spreader ever made was built in 1878 by the Kemp & Burpee Manufacturing Company. Up to the time of the John Deere Spreader every spreader has been made along the same general lines as this first machine. Power was taken from one end of the main axle and transmitted, either through chains or gears, to the beater, mounted above and in the rear of the axle. Hereafter the only improvement in manure spreaders since the first one was made in 1878 has been in the refinement of details. The John Deere Spreader is a radical departure from the old method of construction. It is made along entirely new lines and is a great improvement over the old style spreader. Come in and examine the machine and you will readily see why the John Deere Spreader is so far superior to any spreader heretofore constructed. Even if you don't need a New Spreader Now come in and get one of our spreader books. They contain a number of articles on why farm manure should be used on the land, how it should be applied, how it should be stored, the value and effect of using it in various ways. In addition there is a detail description of the John Deere Spreader with illustrations in colors of this spreader working in the field. Better Investigate .. It's Worth Your While HUBBARD BROTHERS, Medford
