CONTRACT FOR
EQUIPMENT ON
COAST RAILROAD
(Grants Pass Courier.)

While in Portland Thursday
Franklin Helm and Dr. Reddy con-
tracted for the rails for the laying
of the first unit of the new railroad,
delivery to be made within the next
two weeks.

Equipment Ordered
This first purchase of equipment
for the new line includes thirteen
flat cars and a dozen box cars and
a couple of coaches were negotiated
for to be shipped later when the
road has reached a stage that the
coaches will be needed.

While in Portland Messrs. Reddy
and Helm had the articles of incor-
poration amended changing the
name of the company from the
Grants Pass & Crescent City rail-
road to that of the California, Ore-
gon & Eastern, and it will hence-
forth be known under the latter
name.

J. M. Neeland, President
The directors of the company have
elected J. M. Neeland of Los An-
geles as president of the road. Mr.
Neeland is a man well known in
railroad circles, especially in the
southwest, one of his notable
achievements having been the build-
ing of the Panama-American rail-
road, a line extending 790 miles
through Old Mexico territory. Mr.
Neeland is at present the vice-presi-
dent of the southern corporation.

AN IMPRESSIVE PICTURE
AT THE STAR THEATER

An especially strong picture is
the Gaumont Weekly at the Star theater
tonight, besides giving the usual good
scenes, it shows the unveiling of the
monument erected in honor of the
heroes of the Maine. The last scenes
are very impressive, showing the bur-
ial of the Maine. The burial of the
Maine has been shown here before in
motion pictures, but not as vivid and
realistic as this picture shows it. No
one should miss seeing this picture.
The other numbers on the program
are good. Coming tomorrow, a real
sensational entitled "The Demon of
Destruction." This film is a thriller
from the first to last and teaches a
strong lesson; also tomorrow one of
those funny Keystone comedies.

FORBES OF BEND NAMED
ON CELILO COMMISSION

BEND, Ore., July 26.—C. N. Me-
Arthur, speaker of the house today
announced the appointment of Ver-
non A. Forbes of Bend to be one of
the two house members of the Celilo
commission, which is empowered to
act with the state engineer in investi-
gating the power possibilities of Celilo
Falls in the Columbia river. James
D. Abbott of Portland is the other
house appointee. The names of the
two appointees from the senate
have not been announced.

"EVERYWOMAN" IS
MOST ELABORATE
PRODUCTION YET

Surpassing in size and magnifi-
cence anything which has hitherto
been offered to the public in a trav-
eling organization, Henry W. Sav-
age's immense production of the dra-
matic spectacle, "Everywoman,"
which will be seen at the Page The-
ater August 1, stands alone. No other
manager would have attempted to
present with a traveling organization
a spectacle so massive. Not a fea-
ture which was used in this produc-
tion during its two years' run in
New York has been eliminated.

In addition to the one hundred
and fifty people which are required
in the production and to work the
mechanical and electrical effects, an
entire symphony orchestra is carried
by the company. The music, which
was composed by George Whitefield
Chadwick, dean of the New England
Conservatory of Music, requires an
intelligent and careful rendering to
bring out all its beauties, and only
skilled musicians, after weeks of
strenuous rehearsals are competent
to play it.

The organization is equipped with
three car loads of scenery and cos-
tumes and electrical effects. It in-
cludes a grand opera and a musical
comedy chorus, in addition to the
large dramatic ensemble. "Every-
woman" is, in fact, a commingling
of the more attractive features of
opera, musical comedy and spectacle.

While it amuses and furnishes en-
tertainment which can be understood
and appreciated by anyone, it also
promulgates a moral lesson of ines-
timable value. Mothers, on seeing
the play, have brought their daugh-
ters to it to impress upon them a les-
son they could not otherwise impart.
Clergymen of all creeds and beliefs
have found in it food for reflection
and have endorsed it in most emphatic
terms. In London it met as en-
thusiastic a reception as it did in
America. For the production in this
city Mr. Savage is sending his most
powerful company. It is headed by
Adele Blood, who appears in the title
role, and brings to one of the great-
est roles ever written not only superb
beauty but a sure dramatic touch.

AMERICA WINS
TODAY'S TENNIS

WIMBLEDON, England, July 26.—
America had its inning here today
in the play for the Dwight P. Davis
international tennis cup. Maurice
McLoughlin of San Francisco and
Harold H. Hackett of Boston, rep-
resenting the United States, winning
the doubles matches from H. Roper
Barrett and C. P. Dixon, the English
team.

America now has the edge on the
English team. The representatives
of the United States broke even in
the singles matches yesterday, and
by capturing the doubles today have
made themselves favorites in the
betting to win Monday's final sing-
les matches and the cup.
McLoughlin, who lost his singles
match to J. C. Parke yesterday,
showed a wonderful reversal of form
today and no little of the credit for
today's victory is due to his prom-
ise. He brought the spectators fre-
quently to their feet with his fine
drives and backhand returns, and
his service was practically invinc-
ible.
England took first set, 7 to 5,
America second, 6 to 1; England
third, 6-2; America fourth, 7-5, and
fifth, 6-4.

United States forestry department

great danger of disastrous forest
fires in Idaho, Oregon, Washington
and California, where hot, dry weather
is reported. There is said to be
still danger in New Mexico and Ariz-
ona, but general rainfalls in those
states have minimized the peril.

NAPHTHA EXPLOSION
ENDANGERS LIVES
MANY WORKERS

MALDEN, Mass., July 26.—Scores
of employes of the New England
Dyeing and Cleaning company nar-
rowly escaped death here today when
two hundred gallons of naphtha ex-
ploded, starting a fire which com-
municated to eight other buildings.
Early reports to the police said
twenty-one employes were missing
but later all were located.
The erroneous reports of loss of
life originated from a statement by
a fireman who declared he saw sev-
eral persons jump from a building.
These escaped unhurt. Scores of
windows were shattered by the force
of the explosion and buildings a block
away were fired.
The cause of the explosion is not
known. The damage is roughly esti-
mated at \$40,000.
Small lighorn hats are being veil-
ed with printed chiffon.
