Why Not Do This
You who are spoiling your temper and your health just now with the mercury fooling around the 100 mark, why not have a little bungalow as a summer home on the ocean shore where you can have the revivifying effects of the sea breeze to blow the coils from your brain and microbes from your system. Even now, in your car, you can run over to Crescent City for a week-end and get results, but with the building of our railroad it will be still easier.
Buy an ocean frontage lot now and build your home. You will then be ready when the transportation facilities are better. We can sell a lot facing the ocean near the famous "Pebble Beach," for \$250, and one block back from the beach for \$75.00. There are only a few of these and the price will be advanced shortly. We have other desirable property however in the Lauff and other additions.
