

BUD UNHURT BY OPERATION STATES MANAGER DONALD

SAN FRANCISCO, Cal., July 31.—Dick Donald, Bud Anderson's manager, came up from Los Angeles today and leaves for Medford, Ore., tonight. Donald says Anderson is rapidly regaining his strength and will be ready for the best of them by Thanksgiving Day. Anderson will arrive in San Francisco Saturday morning and will leave for Medford Saturday night. Bud has the automobile bug, having purchased a big wagon, which he is shipping to the north, and superintending that task prevented him from coming up with his manager. "That operation will not hurt Bud in the least," said Donald, discussing the removal of Anderson's appendix. "The operating surgeon performed a wonderful piece of work and he assured me that Bud will become as strong as ever. Bud told me after the Cross fight that for several days before the battle he had felt sharp pains in his right side and that when he entered the ring he still felt them. They became so intense, he said, that he could not use his right hand, being afraid to throw it too far away from the sore spot and possibly cause even greater pain. The physicians told us that the trouble had been coming on for five or six months and that it was remarkable that Bud went even one round." Anderson will take it easy in the north for the next three months, roughing it occasionally and doing a little light work now and then. On November 1 he will look about for work and hopes to land something for Thanksgiving Day. Donald will see Jim Coffey this afternoon in regard to the matter.

ASIATIC HORDES BOTHER CANADA

VANCOUVER, B. C., July 31.—With the arrival here of more Hindus on the Nippon Shushen Kaishi liner Sado Maru, which is now at Victoria, and the report that 1000 Russians from Siberia are on their way here on a Russian volunteer liner, the problem of what to do with immigrants from Asia is stirring officials here today, although they succeeded in deporting the Japanese landed at Bella Bella two weeks ago. The eight Japanese landed by a junk which brought twenty-five veterans of the Russian war to northern British Columbia were sent home today aboard the Empress of India. Search is still being made for the junk.

Nine Hindus aboard the Sado Maru also face deportation, as the officials are informed that instead of coming directly from Calcutta they stayed for a time in Hong Kong. There was much excitement among the Hindus on the dock at Victoria when this party was not allowed to land, but no arrests were made.

ROADS ADVOCATE DUE IN MEDFORD

A. L. Westgard, vice-president of the National Highway Association, will shortly pass through Medford on his 17,000 mile trip by motor car which he is making under the auspices of the association in the interest of good roads everywhere. In his ride through Utah, he was accompanied part of the way by Governor Spry, and while in Nevada was joined by Governor Odell. This trip is creating wide interest everywhere, as every city, town, and hamlet is anxious to share in the good work that the National Highways Association is planning to do, and good roads all over the country mean development all along the line.

BALKAN MASSACRES CARNIVAL OF BLOODSHED

SALONICA, July 31.—A French commission which has been investigating reported Bulgarian atrocities at Doxato returned here today with proof that a perfect carnival of bloodshed swept that part of the Balkans. The commission exhibited shocking photographs depicting the atrocities consequent upon the general massacre both at Doxato and elsewhere in the same region.

FAVORS CEMENT MADE HERE FOR COUNTY HIGHWAYS

State Highway Engineer H. L. Bowly is consulting the county court regarding the proposed bond issue for highways. He states that he has taken up with the Southern Pacific a reduction in freight rates on road materials, similar to that granted in California, so as to cheapen the cost of highway construction in Oregon. He also advocates the placing of a large order for cement with the Beaver Portland Cement company, which is erecting a plant at Gold Hill, providing a satisfactory price could be secured. This would insure a market for the plant's output at home, to begin with. Major Bowly announces the appointment of Frank A. Kittridge, now resident engineer of the California Highway Commission, with headquarters at Cloverdale, as his assistant. Mr. Kittridge will take charge of the Jackson county highway surveys about August 10. He formerly was resident engineer for Washington. Major Bowly is anxious that work should be begun on grading the new grade over the Siskiyou mountains before winter, so the grade can set before surfacing.

KIDNAPPED BRIDE APPEALS FOR AID

SAN FRANCISCO, Cal., July 31.—Redoubled efforts to locate Mrs. Warham Cochran, the seventeen year old bride, kidnapped by an unidentified woman and held captive in a rooming house, were made by the police today following pitiful pleas made for help over the telephone by Mrs. Cochran to her sister, Mrs. Jewell Warham Andrews. "For God's sake," Mrs. Cochran screamed, "take me from this place. I am forced to do the work for nine people. My health is breaking." Before Mrs. Cochran could give the location of her prison she was drugged screaming from the telephone. Mrs. Ann Warham yesterday received a letter from her captive daughter. The kidnapping of Mrs. Cochran followed charges of perjury lodged against husband by Mrs. Warham. In her letter Mrs. Cochran begged Mrs. Warham to drop the perjury charges, asserting she would be given her freedom when this action is taken.

AMERICAN AUTOMOBILE INVASION STIRS FRANCE

PARIS, July 31.—French automobile manufacturers are preparing a plan of campaign against the "American invasion" of good, cheap cars, and it was announced today that a committee would attend a manufacturers' convention to be held in London in November. The convention will be in the nature of an international European union banded together to fight the American output, and the French plan will be outlined there.

CAUGHT BY HAIR DRAGGED TO DEATH

SAN QUENTIN, Cal., July 31.—Caught by the hair and dragged to his death by a piece of machinery of his own invention is the fate here today of George Webb, for more than five years a guard at the state prison. Webb's invention was designed to give better ventilation in the jail and he was adjusting the machinery when his hair caught in the tumbling rod. He leaves a widow who lives in Oakland.

SINNOTT TO HASTEN NEW HOMESTEAD BILL

WASHINGTON, July 31.—Representative Sinnott of Oregon today urged the public lands committee to take up at once the Borah homestead bill, which already has passed the senate, make it an emergency matter and pass it at this session. The bill affects three year homesteaders and requires improvements of certain cash value per acre instead of a stated amount of cultivation.

MORE POACHERS ARRESTED FISHING AT AMENT DAM

Assistant District Attorney Johnson of Josephine county was in Medford Thursday consulting with Prosecuting Attorney Kelly regarding the trial of Cal Allen, Charles Maes and Wallace Le Clair who were arrested Wednesday morning for fishing under the Ament dam by Fish Warden Sundry. The complaint charges that the men fished with a net under the Ament dam Tuesday night. The claim is made that Allen and Maes left the boat to return to this city with a rig which they had tied near Jones creek, and that Le Clair ran down the river with the boat and the fish, and was not arrested till he reached this city. Neither boat or fish were captured by the deputies. Allen was recently arrested for illegally catching steelhead, but was acquitted for lack of evidence against him. Three years ago he was convicted for fishing under the Ament dam and is an old offender. Maes is one of the Oregon City fishermen who keep the wardens busy both in the Willamette and Rogue. Le Clair is not a net fisherman but fishes for market. The case will be tried before Judge Holman Friday.

BUD ANDERSON OFF FOR MEDFORD

LOS ANGELES, Cal., July 31.—Completely recovered from the immediate effects of his recent operation for appendicitis, Bud Anderson, lightweight contender, will leave here tonight for San Francisco en route to Medford, Or. Anderson will spend a week in Medford before going to his home at Vancouver, Wash., for a long rest. He expects to return to Los Angeles in October to seek a match.

OVER MILLION SALMON PACKED IN ONE DAY

BELLINGHAM, Wash., July 31.—Two hundred and eighty thousand sockeye salmon were brought to the canneries in this vicinity yesterday and five canneries packed 1,932,920 fish. Tugs continued to arrive today with two or three scow loads of fish each, and the floors of the canneries are piled high with the famous sockeyes. There are 150 traps in operation this season, and the fishermen with several varieties of nets run into the thousands. Indications are that this season's run will be a record-breaker.

SALOME ONLY ELEVEN WHEN SHE DANCED

PARIS, July 31.—Salome, the famous dancer of Biblical story, was but 11 years old when she performed before Herod and demanded as her price the head of John the Baptist, according to a report read by Theodore Reinach before the French Academy of Science. M. Ruach has just returned from the Orient, where he studied the coins of the ancient Nicopolis, capital of Little Armenia, over which Salome ruled. According to portraits of the notorious princess as shown on the coins, she was quite pretty, had classic features and was unusually intelligent.

EDWIN GOULD SUED FOR OVER A MILLION

NEW YORK, July 31.—F. Augustus Heinz is named as defendant here today in four suits aggregating \$1,100,258, filed in the state supreme court. Two suits were brought by Edwin Gould, who asks \$900,284 in one action and \$39,996 in the other. William Nelson Cromwell sued for \$154,000 and Richard Young for \$15,972. The actions, it is said, are based on aid rendered Heinz's financial institutions during the 1907 panic.

FISHING SEASON ON ROGUE ENDS AT 12 O'CLOCK TONIGHT

At midnight tonight commercial fishing ceases on the Rogue in Josephine county, the closing law going into effect at that hour. The upper river remains closed until next June, when another sixty-day season opens. It is expected that many of the fishermen will continue to ply their trade clandestinely and the fish wardens are prepared for trouble. Invasion of Jackson county is expected and all anglers are requested to co-operate by furnishing information concerning the commercial fishermen seen violating the law. Sale of trout and steelhead is absolutely prohibited under the law. Salmon caught with rod and line can be sold, but the salmon season is nearly over, the fish soon beginning to spawn. The Grants Pass fishermen and their Oregon City allies have enjoyed a good season, the total catch for the season being estimated at from 150,000 to 175,000 pounds, with an average market price of 8 cents in Portland, which netted the fishermen upwards of \$10,000.

PARIS SHIES AT SEEING JACK JOHNSON

PARIS, July 31.—Since negro boxers are not any too popular in Paris, negotiations are under way to pull off the Jack Johnson-Al Palmer match at Marseilles instead of here. Fight promoters seem to fear Johnson's reputation would hurt the profits here, should the newspapers decide to take up the cudgels against the black.

GET EXPERT HERE TO TALK ON PEAR HANDLING

On Saturday, August 2, at 2 p. m. at the Public Library Mr. B. B. Pratt of the U. S. dept. of agriculture, bureau of plant industry, will give a lecture upon fruit handling and fruit storage. Mr. Pratt on behalf of the U. S. government last year conducted the experiments in this valley in picking, packing and cold storage of Bartlett pears which resulted so successfully. This is a subject of vital importance to all fruit growers and a large attendance is hoped for.

WOMAN SUFFERED TEN YEARS

Auburn, N. Y.—"I suffered from nervousness for ten years, and had such organic pains that sometimes I would lie in bed four days at a time, could not eat or sleep and did not want anyone to talk to me or bother me at all. Sometimes I would suffer for seven hours at a time. Different doctors did the best they could for me until four months ago I began giving Lydia E. Pinkham's Vegetable Compound a trial and now I am in good health."—Mrs. WILLIAM H. GILL, 15 Pleasant Street, Auburn, New York.

DOCTOR'S DAUGHTER TOOK IT

St. Cloud, Minn.—"I was so run down by overwork and worry that I could not stand it to have my children talk aloud or walk heavy on the floor. One of my friends said, 'Try Lydia E. Pinkham's Vegetable Compound, for I know a doctor's daughter here in town who takes it and she would not take it if it were not good.'"

"I sent for the Compound at once and kept on taking it until I was all right."—Mrs. BERTHA M. QUICKSTADT, 727 5th Avenue, S., St. Cloud, Minn.

Lydia E. Pinkham's Vegetable Compound may be relied upon as the most efficient remedy for female ills. Why don't you try it?

YOUTHS VIOLATE PAROLE; MUST GO TO REFORM SCHOOL

Homer Reynolds and Roscoe Rumsay, both under sentence to the state reform school, were taken into custody this morning on a charge of petty larceny. And both admitted having stolen paper bags from the Medford Candy company and a number of gunnysacks from a rancher. Yesterday afternoon the boys sold some of the sacks to the Russ Mill, which promptly informed the police. When they returned with a fresh consignment this morning they were taken into custody. Both boys were out on parols and will now be committed to the state institution to serve during their minority, unless their conduct warrants another parole.

PORTLAND, Ore., July 31.—Forecast: Oregon and Washington; Fair tonight and Friday; northeasterly winds.

PAGE THEATRE
Friday, Aug. 1

Come In and See The Special Offer Until August 1st.
JOHN DEERE SPREADER
The Spreader with the Beater on the Axle
The Simplest Spreader Made
No Clutches No Chains No Adjustments

Easy to Load Roller Bearings Light Draft
Entirely New .. Nothing Else Like It
THE JOHN DEERE SPREADER—The Spreader with the Beater on the Axle—is as much of an improvement in spreader manufacturing as the self-binder was over the old reaper. It is made along entirely new and different lines from the ordinary spreader.
The first manure spreader ever made was built in 1873 by the Kemp & Burpee Manufacturing Company. Up to the time of the John Deere Spreader every spreader has been made along the same general lines as this first machine. Power was taken from one end of the main axle and transmitted, either through chains or gears, to the beater, mounted above and in the rear of the axle. Heretofore the only improvement in manure spreaders since the first one was made in 1873 has been in the refinement of details.
The John Deere Spreader is a radical departure from the old method of construction. It is made along entirely new lines and is a great improvement over the old style spreader. Come in and examine the machine and you will readily see why the John Deere Spreader is so far superior to any spreader heretofore constructed.
Even if You Don't Need a New Spreader Now come in and get one of our spreader books. They contain a number of articles on why farm manure should be used on the land, how it should be applied, how it should be stored, the value and effect of using it in various ways. In addition there is a detail description of the John Deere Spreader with illustrations in colors of this spreader working in the field.
Better Investigate .. It's Worth Your While
HUBBARD BROTHERS, Medford
