**THREE MILES OF
 GRADE FINISHED
 ON COAST ROAD**

(Grants Pass Courier.)

The graders on the right of way
 of the new railroad have been mak-
 ing excellent progress the past week
 and at quitting time Saturday night
 they had reached a point at station
 60, or 16,000 feet from the city. The
 grade is complete as far as Allen
 creek, with the exception of putting
 in the culverts. Just beyond Allen
 creek a cut of eleven feet is being
 made and the dirt taken out is used
 for fill at the creek. This work is
 being accomplished by wheel scrap-
 ers. Albert Anderson, the contractor
 who has done much of the street
 work in Grants Pass, is in charge of
 the work and has had twenty-two
 teams and thirty-seven men on the
 past week. The figures in the en-
 gineer's office show that the dirt is
 being moved at a most reasonable
 rate. Mr. Anderson says that he
 expects to have the grade completed
 and ready for the ties as far as the
 bend in the road, or about four miles
 out, in another week.

The public utilities commission
 met Saturday afternoon and audited
 the bills for work up to date. The
 commission also authorized the pur-
 chase of cement tile of the local
 factory for use in the culverts, the
 tile to be according to specifications
 of Engineer Harmon.

William Loftus, president of the
 Interstate Construction company,
 which was organized to build the
 road from the end of the city built
 out to Crescent City, is at Crescent
 City on his first trip over the line,
 but he will return in time to attend
 the mass meeting at the opera house
 Monday evening. Dr. Reddy, Frank-
 lin Helm and W. J. Sage will return
 from the coast with him.

 a letter from Nova Scotia which
 stated that George Gregory died at
 the home of his sister in that Prov-
 ince on July 17th, just seven weeks
 after reaching there.

 day. The birds, a cock and two
 hens, were shipped here from Corvallis

 erva.

 panied by Charles Collins and wife,

 creek yesterday morning where the

 now completed so that no more sal-
 mon can go up stream. This rack is

 be ripe and the catching begun.

Improving the Highway

(From the Grants Pass Courier.)

The people of Jackson county are
 to vote upon the question of bond-
 ing in the amount of half a million
 dollars for the building of a paved
 highway from the California line to
 the west line of Josephine county,
 being the first county in the state
 to take advantage of the law provid-
 ing for the voting of bonds for road
 building purposes. The route of the
 proposed road is along the present
 Pacific Highway, and utilizes the
 paved of Ashland, Medford and Cen-
 tral Point in it is 52 mile course.
 The bonds are to bear five per cent
 interest and are to be retired in
 blocks of \$100,000 each five years,
 commencing in ten years. The elec-
 tion will be held September 9th.
 No county should be afraid of
 bonds that are voted for the purpose
 of bettering the road system, for it
 is the best investment that a com-

**KING RENE'S DAUGHTER
 AT STAR THEATRE**

The Star theater offers for today
 and tomorrow "King Rene's Daugh-
 ter," an exceptionally strong pro-
 duction in three parts, filmed by
 the Thanhouser company.
 The lead was assigned to a Miss
 Maud Fealy, a newcomer in pictorial
 drama, of charming personality,
 rare intelligence and keen apprecia-
 tion of what is required of her in
 the part she plays. She is a per-
 petual delight to the eyes, moves
 with grace and she seems imbued
 with the sweetness and purity of
 her role. During her stage career
 she has supported Sir Henry Irving,
 William Gillette, Nat Goodwin and
 several other famous actors. She
 is most ably supported in this pro-
 duction by the entire Thanhouser
 company of players.
 Most remarkable are the fascinat-
 ing and impressive scenic effects,
 notably the exquisitely chosen ex-
 teriors. That feature alone, provid-
 ing as it does a series of lovely pic-
 tures that hold attention, is enough
 to give the production high rank,
 but it is so well balanced in other
 respects that its almost bewildering
 beauty is not intrusive. Little or
 nothing mars the illusion that we
 are watching human nature and hu-
 man action in an atmosphere of ro-
 mance, where sentiments and ad-
 ventures are unfolded to our vision
 on enchanted ground.
