

MEDFORD MAIL TRIBUNE

AN INDEPENDENT NEWSPAPER PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY BY THE MEDFORD PRINTING CO. Official Paper of the City of Medford, Official Paper of Jackson County. GEORGE PUTNAM, Editor and Manager. SWORN CIRCULATION. Daily average for eleven months ending November 30, 1911, 2731.

Entered as second-class matter at Medford, Oregon, under the act of March 3, 1879.

Subscription Rates. One year, by mail, \$5.00. One month, by mail, \$1.00. For month, delivered by carrier in Medford, Jacksonville and Central Point, \$1.00. Saturday only, by mail, per year, \$2.00. Weekly, per year, \$1.50.

M'ARTHUR ELECTED MASTER OF TEMPLARS

DENVER, Colo., Aug. 14.—The grand encampment of Knights Templar today elected Arthur McArthur of Troy, N. Y., grand master, and advanced the other members of the grand encampment a step. The vacancies caused by the death of Grand Generalissimo Frank Pierce of San Francisco and the retirement of Grand Recorder Gerow also were filled. A grand junior warden also was elected.

TABLE ROCK

The Modoc people have rigged up a machine and are doing their own threshing.

A party of Table Rock people including Mr. and Mrs. R. C. Washburn and Mr. E. W. Carlton have gone for an outing to Crater Lake.

J. C. Pendleton made a business trip to Portland a few days ago. Miss Vanita Corlies is packing peaches at the Bear creek orchard.

Miss Eva Hall will teach the Meadows school again.

Miss Flossie Levier is visiting at the residence of her uncle Ben Perry.

Miss Iva McKinney of Medford has taken the place of Miss Ellen Alford as assistant cook at the Modoc orchards.

The Misses Dorothy and Mary Hartzell have been guests at the Lydiard home the past week.

Dr. G. Roy Ringo of Minot, North Dakota, will spend his vacation at Table Rock.

River parties of various kinds have been the popular amusements lately. Gypsy suppers, bonfires and potlatches have been some of the special features.

Steelhead fishing is good and it doesn't require much skill to take them.

A party of Medford "Larks" were out at Table Rock a few days ago introducing one of their number as Senator Chamberlain. They were a hilarious crowd and we did not learn who the other members of the party imagined themselves to be.

The Arrow Head society will give a special program in connection with a carnival on Saturday evening, August 23.

Rev. Schwimley of Ashland will conduct services at Table Rock again on the evening of August 24. Every one who can should hear him.

ORDINANCE NO. 775. An ordinance regulating the operation of the exhaust from the motor of all motor vehicles, and providing a penalty for a violation thereof. The city of Medford doth ordain as follows:

Section 1. It shall be unlawful for any and all owners and operators of automobiles, auto-cycles, auto-trucks, motor-cycles and any other similar vehicles to use and operate the same unless such owners or operators equip and use thereon a muffler sufficient to muffle and deaden the sound of the exhaust from the motor of such vehicle.

Section 2. Any person violating any of the provisions of section 1, of this ordinance within the limits of the city of Medford, Oregon, shall upon conviction thereof in the city court of said city be punished by a fine not exceeding Fifty (\$50.00) Dollars and costs of prosecution; or if such fine be not paid, then by imprisonment in the city jail not exceeding Twenty-five (25) days.

Section 3. The driver or custodian of a vehicle shall be deemed to be the responsible party and liable to the penalty as provided in this ordinance for a violation thereof.

The foregoing ordinance was passed by the city council of the city of Medford, Oregon, on the 11th day of August, A. D. 1913, by the following vote:

Porter, aye; Mitchell, aye; Stewart, aye; Cambell, aye; Summerville, absent; and Millar, aye.

Approved August 11th, 1913. W. W. EIFERT, Mayor.

Attest: E. T. FOSS, Recorder.

John A. Perl Undertaker. Lady Assistant. 25 S. BARTLETT. Phones M. 47 and 47-J-2. Ambulance Service Deputy Coroner.

INVISIBLE GOVERNMENT.

THE "invisible government," which for so long has made democracy a travesty on government, which has long dominated city, state and national government, is showing its hand in New York, and the publicity gained thereby sounds the doom of the greatest aggregation of grafters that ever looted a commonwealth—Tammany Hall.

The "insidious lobby" investigation, following countless exposures of Wall street and trust activity, has at last convinced the most complacent American citizen that he must wake up and indulge in a general housekeeping. The reform wave which started in the far west is at last breaking on New York.

Sulzer has been impeached by Tammany Hall because he refused to turn the government of the state over to Tammany, because he advocated reform, because he championed direct primaries, initiative and referendum, because he attacked stock gambling, because he would not turn offices over to organized graft.

Charles F. Murphy, leader of Tammany Hall, a man with no visible means of support, having no legitimate occupation, is the "invisible government" of both New York City and state. He has grown enormously wealthy, as his predecessor, Croker, did, from graft. With him are allied the "bosses" of both parties, allied for a division of spoils, with the people as the spoils.

Murphy controls the legislature, and the legislators, like cattle, are bought, sold and branded to suit the master's desire. The deadlock between Sulzer and Murphy has resulted in chaos in state affairs. The governor has been deprived of appointive powers. The governor has through Murphy's orders. Murphy proteges are kept in office. The various departments are paralyzed.

Sulzer faces serious charges, but not half as serious as can be proven against his accusers. He is impeached on evidence given by brokers who have been put out of business by legislation advocated by the governor. Part of the charges he denies, part he explains. Most of the blame is taken by his wife, who handled Sulzer's finances.

Sulzer has made the fight for reform and for the people. Therefore he is attacked. Whether guilty of charges filed or not, he is in this instance fighting the good fight and should receive the support of people of all parties in the effort to destroy the invisible government of corruption, graft and loot, that has so long oppressed and distressed the people of New York.

Warning Against Dangerous Potato Tumber Moth

(From U. S. Department of Agriculture Crop Letter.)

The potato tumber moth is working such injury to potato crops, especially in Texas and California, that the bureau of entomology of the U. S. department of agriculture has issued special instructions to potato growers to help them overcome this highly injurious pest.

The department urges potato growers to sort the potatoes for seed two weeks after digging and then to sort them over two weeks later. It is easy to pick out the infested tubers because of the excrement of the moth, which adheres by means of a web to the outside of the potatoes and can be readily detected. The tubers unaffected by the tuber moth should then be placed in a moth-proof bin.

The tubers placed in the moth-proof bin, after final sorting, should then be fumigated by means of carbon bisulphid (or bisulphid of carbon as it is also known), in order to kill any moths which might have bred out or have slipped in through crevices, or when the bin was opened. Carbon bisulphid is applied by pouring small quantities into flat vessels such as milk pans or pie tins. An average of three pounds should be used in 1000 cubic feet of space. It is more effective at high temperatures, 80 to 90 degrees Fahr. high being best. About a pint is poured into each receptacle and the pans are placed in the bins at the top. The gas being heavier than air naturally penetrates the mass of potatoes, reaching those at the bottom. The bin should be tightly closed for from twenty-four to thirty-six hours with good assurance that the germinating power of the seed is not destroyed. The utmost care should be taken that no fire, such as that from a clear, electric fan, stove or even a gas light or lamp should be brought into the vicinity. Otherwise, as the gas is very inflammable a fire may result or a serious explosion may follow.

All potato growers should keep a careful "lookout" before and after fumigation. At first the fumigated seed potatoes and those in the field should be inspected daily to detect any growth of the insect; later, observation every other day and finally once a week should be sufficient. If there is any indication that the tuber moth is propagating, a second fumigation with carbon bisulphid should be given.

This method of saving seed potatoes is so simple, although very effective, that the specialists fear that many potato growers will disregard it.

INSTALL MACHINERY THREE LODES MINE. At a special meeting held Thursday by the board of directors of the Three Lodes Mining company, arrangements were completed for the clearing and grading the ground for the installing of machinery on their property located in the Galice mining district.

The first unit of machinery will consist of crushers & pulverizers, jig concentrators and classifiers. This machinery will have a capacity of from 100 to 150 tons of ore every 24 hours. The company will also install a small saw-mill for the manufacturing of building material, and an electric power plant at their power site on Howard creek. This power will furnish from 175 to 400 horsepower and means cheap power and lights for their reduction plant. Manager Brown will leave Monday with a crew of men.

The work will be pushed to completion as rapidly as possible, in order to get the machinery in operation before winter sets in.

Fair Weather Predicted. PORTLAND, Or., Aug. 14.—Fair tonight and Friday, except showers tonight northwest portion; warmer Friday; westerly winds.

ARRANT UNABLE TO COMPERHEND LOSS OF OFFICE

That W. E. Arrant, deposed superintendent of Crater Lake park, has not yet realized his removal is shown by the following report of a Klamath chamber of commerce meeting taken from the Northwestern:

"Attorney Carnahan switched the subject of freight rates to that of what he considers the great injustice done to W. Frank Arrant. 'We have thousands of acres of land in Crater Lake park and other federal reserves, yet not a Klamath Falls man is in charge. 'It is the duty of the chamber of commerce,' said Mr. Carnahan, 'to see that Mr. Arrant is backed up and justice is done.'

"W. Frank Arrant, formerly superintendent Crater Lake national park, in speaking of his chance of office, said that he was asked by his many friends not to submit to an unlawful removal. On speaking of his removal, he said he did not believe it was proper; that right should prevail always.

"I was not fighting for myself," said Mr. Arrant, "but for the people. We must stand together to be vindicated. There was no document or visible authority. I was simply thrown out and it was not very pleasant. I was encouraged to make a stand. We are in a lawful cause and if we make a lawful fight we can win our fight for Klamath Falls and Klamath county."

SMITH MUST PAY FOR 20,000 ACRES

PORTLAND, Ore., Aug. 14.—Twenty thousand acres of timber land in Coos county is today forfeited to the government by the C. A. Smith Lumber company by order of Federal Judge Bean under the provisions of the "innocent purchaser" act. The company may re-purchase the lands from the government by paying \$2.50 per acre. The lands were originally purchased from the Oregon and California railroad company, which was recently deprived of immense holdings secured through an old government land grant by a federal court decree.

With Medford trade is Medford made.

TOO LATE TO CLASSIFY

WANTED—A man to run a tractor engine in an orchard near Medford. Must have experience, good position to the proper man. Phone 8-R-2. 125

PARISIAN SAGE FOR THE HAIR

Unightly—matted—colorless—scrappy hair made—fluffy—soft—abundant and radiant with life at once. Use Parisian Sage. It comes in 50c. bottles. The first application removes dandruff, stops itching scalp, cleanses the hair, takes away the dryness and brittleness, increases the beauty of the hair, making it wavy and lustrous. Everyone needs Parisian Sage.

HIGH MEAT PRICE COMING WINTER RESULT OF DROUTH

CHICAGO, Aug. 14.—Retail meat prices this winter will be higher than ever if the prediction of packers here comes true. They say today that because of the drought in Kansas and the southwest, which has deprived stock of feed, forty cents a pound for mutton cuts is certain, and forty-five probable.

Practically all the corn has been ruined in the section which is usually a heavy exporter of cattle and other stock. For the last ten days there has been a steady rush of cattle to the markets of the middle west and a big shortage later seems certain. The farmers foresaw a light hay crop and began shipping their steers early. Then the drought came and the rush increased.

For the first three days of this week 129,000 head of cattle were received in the western markets. Because of this rush the prices of livestock are slumping now, but it is predicted they soon will soar to unheard of marks.

MEDFORD GATEWAY TO CRATER LAKE

On account of Medford's geographical center and the beautiful scenery along Rogue river, Medford is sure to be the main gateway to Crater Lake.

The traffic by automobile, both private and by auto stage, has increased more than five hundred per cent this season.

The 1915 fair should bring thousands of tourists to Medford and Crater Lake.

From the Hall Taxi company the information is gained that the tourists are delighted with the scenery along Rogue river.

The Hall Taxi company has received several letters congratulating him on his efficient chauffeurs.

GOOD LECTURERS FINE EXHIBITS AT WELFARE MEET

The lectures and demonstrations being given in the high school building by specialists from the Oregon Agricultural college, the Oregon Social Hygiene society and the state dairy and food commission are both interesting and instructive. Extensive and carefully prepared exhibits are also on display from the hygiene society, the dairy and food commission and different departments of the college.

The dangers lurking in the dirty milk pail, unclean food and water are vividly real, as seen through the high-power lens of the bacteriologist. Specimen cultures are exhibited.

J. D. Mickle, state dairy and food commissioner, is here and E. J. Cummins, lecturer from the Oregon Social Hygiene Society, is here to meet representative citizens this evening at the high school building and explain the purposes of the society. His exhibit especially should be inspected by all parents and persons interested in social work.

Practical lectures and demonstrations on domestic science and art are given by Mrs. Robbins and Miss Groves. The last session will be held this evening at 7:30. Public is cordially invited to attend.

PANTAGES VAUDEVILLE ABOVE THE AVERAGE

The Pantages vaudeville at the Page theater this week is the strongest bill shown in this city in a long time, and a packed house showed Medford's appreciation. The headliner, the Eight English Roses, while all right in its dancing way, should be displaced from its top position on the bill by the Victoria quartet. This quartet is a quartet, with some comedy sidelines not old with age. The McNutt trick bicyclists are the opening act on the bill, a small boy and a smaller girl furnishing the main sentiment with the audience. The stunts they do are novel. The moving pictures are above the average.

PORTER CHARLTON OFF FOR TRIAL IN ITALY

NEW YORK, Aug. 14.—Smiling and cheerful, Porter Charlton sailed today for Genoa on the liner Italia to stand trial at Lake Como on a charge of murdering his wife, formerly Mary Scott of San Francisco. Life imprisonment is the maximum penalty for murder in Italy. Friends and relatives were at the dock to bid Charlton farewell.

KANSAS WOMAN WHO SUFFERED

From Headache, Backache, Dizziness and Nervousness, Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lawrence, Kans.—"A year ago I was suffering from a number of ailments. I always had pain and was irregular. During the delay I suffered a great deal with headache, backache, dizziness, nervousness and bloating. I had been married nearly three years. I took Lydia E. Pinkham's Vegetable Compound and now I feel better than I have for years. I recommend Lydia E. Pinkham's Vegetable Compound to all who suffer as I did."—Mrs. M. ZEUSER, 1045 New Jersey Street, Lawrence, Kansas.

I feel better than I have for years. I recommend Lydia E. Pinkham's Vegetable Compound to all who suffer as I did."—Mrs. M. ZEUSER, 1045 New Jersey Street, Lawrence, Kansas.

Montana Woman's Case. Burns, Mont.—"Lydia E. Pinkham's Vegetable Compound cured me of awful backache which I had suffered with for months. I was so weak I could hardly do my work and my head and eyes ached all the time. Your Compound helped me in many ways and is a great strengthener. I always recommend it to my friends and tell them what a grand medicine it is for women. You may use my name for the good of others."—Mrs. JOHN FRANCIS, Burns, Montana.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

Behling's Hand-You-Money-Back-Sale

MEANS MONEY IN YOUR POCKET BOOK

We have taken this method of putting on this sale to get the public to read our offering as it surely means a saving to you.

It has been a pleasure to us to see new as well as regular customers take advantage of this sale and we do hope that their purchase will be an everlasting foot pleasure to them.

If you are not already one of our customers, commence now, you never had a better chance to save money on up-to-minute styles of low shoes.
