Sequel To Love For Doll

Maternal Instinct Greatly Developed by Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fairy. And in the years that pass, the doll fades into the petals of a June rose, to evolve the most wondrous of all transformations.

And now comes a more serious period when the joy of real motherhood should be as tranquil as best effort can provide.

This is accomplished with a wonderful remedy known as Mother's Friend, an external application so penetrating in its nature as to thoroughly lubricate every cord, nerve, muscle and tendon involved.

There will be no pain, none of that nausea or morning sickness, no sensation of distress or strain of expanding muscles. The nerves, too, will be calm, thus making the period one of restful days, of peaceful nights and a source of happiest anticipation.

The young, expectant mother must be carefully watchful lest she become absorbed in those mental distresses which fitly prepare her for the most important event in her life.

Mother's Friend enables her to avoid all sensation of dread, worry or pain, and thus she is preserved in health and strength to take up the joyful task of motherhood.

You will find Mother's Friend on sale at all drug stores at $1.00 a bottle. Do not fail to use it regularly as directed. Write to-day to Bradfield Regulator Co., 135 Lamar Bldg., Atlanta, Ga., for their most valuable little guide book for expectant mothers.
