SENATE PASSES TARIFF BILL WITH LA FOLLETTE'S AID

WASHINGTON, Sept. 10.—The democratic tariff revision bill passed the senate at 5:43 o'clock Tuesday amid a burst of applause by a vote of forty-five to thirty-seven. The passage was attended with surprises in the final moments when Senator La Follette, republican, voted with the democrats and was joined a few minutes later by Senator Poinsette, progressive. The democrats had counted on losing the votes of Senators Randall and Thornton of Louisiana, democrats who voted against the bill because it put sugar on the free list. As it passed the senate the tariff bill represents an average reduction of more than four percent from the bill that passed the house and nearly twenty-eight per cent from the existing rates.

THAW DEPORTED

(Continued from Page 1) ing made to arrest him. Emerging from a barber shop here, where he had been shaved, the recaptured fugitive said: "This is an outrageous proceeding. I have not heard from my Canadian lawyers. Evidently they were not on the job. I do not understand how the Canadian immigration officers overrode the king's bench decree, but they did. The case has been irregular all the way through. But I hope to get justice in New Hampshire."

Thaw Loses His Way

Asked why he came to Colebrook, the fugitive said he lost his way and was not sure where he was going until he was arrested, but not locked up here. Sheriff Drew took Thaw to dinner at the hotel here today. Afterwards he went to a barber shop, was shaved and announced that he was ready for anything. Thaw's arrival here greatly excited the villagers, and crowds gathered at the hotel and barber shop, watching and following Thaw's movements. The New York fugitive will be given a preliminary hearing late this afternoon, when Justice of the Peace J. C. Carr is expected to transfer the prisoner to Lancaster, the county seat.

Issued the Order

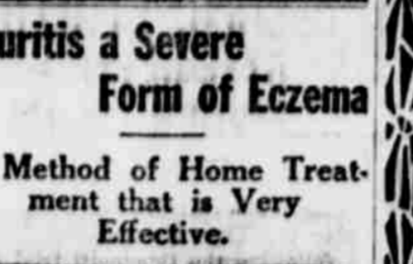

OTTAWA, Ont., Sept. 10.—"I issued the deportation warrant for Harry Thaw in pursuance of my duty as acting minister of the interior," said Minister of Justice Doherty this afternoon. "I acted after the most careful consideration, and I did no more than execute the law. Thaw was suspected, seized, examined and condemned as an undesirable. So he was sent back to his own country by the same route by which he entered Canada."

Pruritis a Severe Form of Eczema

A Method of Home Treatment that is Very Effective.

There is probably no other remedy so well known as S. S. S. for the blood. And for this reason it is the one remedy invariably called for in treating pruritis and other skin diseases. But there are many people who do not insist upon having S. S. S. and are easily persuaded to try something else "just as good," so they are told. If your blood is thin; if your skin is irritated with eczema, lupus, tetter, psoriasis, or any other blood humor; if you are troubled with pimples or boils, do not permit yourself to be talked into buying something else, but insist upon S. S. S. It is really a remarkable remedy. It contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment. And the medical elements of this matchless blood purifier are just as essential to well-balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food. These facts are brought out in a highly interesting book on skin diseases, compiled by the medical department of the Swift Specific Co., 134 Swift Bldg., Atlanta, Ga. It is mailed free, together with a special letter of advice, to all who are struggling with a blood disease.

My physician, one of the leading practitioners, said that it was lung trouble. I took eggs and milk in quantities, but I got very weak. The doctors said I would not gain in weight as long as I stayed in the store; but I kept on working and prayed each day that I might get well. I believe my lungs were answered for by Mr. C. A. Eppinger, my shoemaker (Lynchport & Co., Department Store, 206 to 214 Market street, Wilmington, Del.), but in fact of a remedy called Eckman's Alternative that had done great good, and upon his recommendation I began taking it at once. It was about June, 1908, I continued faithfully, going to other remedies, and finally decided the clearing of the lungs. I finally believe Eckman's Alternative saved my life. I sent my appetite later to the State Board of Health to be examined for further culture bacilli, and none were found. My mother died from Consumption when I was about two years old.
