PROGRESSIVE AIMS TOLD BY WOMAN

Miss Alice Carpenter of Boston, gave a Bull Moose address in Haymarket Square last night, in which T. R. was praised, and a gloomy finish predicted for the G. O. P. A "rag" pavement dance raged close by, yet Miss Carpenter drew a fairly good crowd.

"The republican party is controlled absolutely by the stand-pat element," said Miss Carpenter. "President Wilson with his pronounced progressive views is splitting democracy."

The history of the progressive party from its birth to the present was recounted, and the betrayal by ex-President Taft told. Miss Carpenter said the progressives believed the tariff should be left out of politics.

This afternoon Miss Carpenter spoke at Ashland, after an auto ride through the valley, and will speak again tonight in Haymarket square.

CHARLTON BLAMES WIFE FOR CRIME

COMO, Italy, Sept. 13.—Porter Charlton, awaiting trial here for killing his wife three years ago, made a statement today slightly varying his earlier story of the tragedy. His wife, he said, was much older than himself, goaded him constantly and finally drove him to such a frenzy that he was practically insane for a time, and in this fit of rage killed her.

Charlton's father, Judge Paul Charlton, today engaged Signor Varsio, a member of the chamber of deputies, to defend his son.

SEARCHING BELVEDERE FOR SMUGGLED OPIUM

SAN FRANCISCO, Cal., Sept. 13.—Customs officials were combing Belvedere island, the site of homes of some of San Francisco's richest citizens, for a cache of smuggled opium. Information that such a cache exists was furnished to the federal authorities by Douglas Tilden, Jr., nephew of the sculptor, who learned of it through an accidentally overheard conversation in a San Francisco park.

street proved such a success that it will be given again tonight by the fair management. The festivities took on a holiday air, and some new and novel methods of "ragging" were revealed, to the edification and education of a thousand or more spectators.

I., Sept. 13.—Possibility of three defenders being built to defend America's cup against the yacht to be constructed for Sir Thomas Lipton is seen here today in the announcement that a "first syndicate" had commissioned the Herreshoffs of Bristol to build a vessel. This syndicate includes Cornelius Vanderbilt, J. Pierpont Morgan and other members of the New York Yacht club.

AMERICA FALLS WITH WOMAN SUFFRAGE, SAYS TILLMAN

Senator Tillman of South Carolina fears for the future of the republic, because he believes that woman suffrage is coming. He voiced his despondency in the senate chamber the other day. This is part of what he had to say:

"It is a beautiful dream that female suffrage will purify politics, because our ideals of woman are so high and we regard them so absolutely as the sources of goodness and purity that we cannot conceive of their not elevating and helping anything they touch.

"We had better endure the evils of corruption in politics and debauchery in our government rather than bring about a condition which will mar the beauty and dim the lustre of the glorious womanhood with which we have become accustomed of our lives. We can better afford to have degraded and corrupt politics than degraded and bad women.

"To have both in ever-increasing degree, as was the case in Rome, would make the world so unspeakably horrible, as well as so corrupt, that good men and women would disappear from the face of the earth, and civilization be blotted out like it was in the Dark Ages after the fall of Rome. Indeed, I am so thoroughly a convert to the belief that 'you cannot touch pitch without being defiled' that I shudder to think of the consequences to the womanhood of America should suffrage become universal, taking in both sexes and all races. Yet the experiment is going to be tried, I fear."

PORFIRO DIAZ TO HEAD REVOLT AGAINST HUERTA

NEW ORLEANS, La., Sept. 13.—That former President Porfirio Diaz of Mexico and his nephew, Felix, will be at the head of a revolt against Provisional President Huerta within two months was asserted here today by Carlos Willereal, former attorney general of Mexico, on his way to Europe.

Plotting against the Huerta regime, Willereal added, will confer with the elder Diaz at Biarritz and, though he does not expect to participate actively in the contemplated overturning, he will direct it and if it succeeds, install his nephew as president.

Former Minister of Finance Limantour, General Mondragon and Rodolfo Reyes were mentioned by Willereal as among the backers of the movement.

RABBI CHAMPIONS CAUSE OF STRIKERS

SAN FRANCISCO, Cal., Sept. 13.—Espousing the cause of the toilers against "big business" may cause the removal of Rabbi Jacob Nieto of Congregation Sherith Israel synagogue, but he says he doesn't care. Rabbi Nieto is on record here today with a strong defense of 399 striking cloak-makers and bitter denunciation of many of the wealthiest cloak manufacturers in San Francisco, a number of whom are members of his congregation.

"I'm jeopardizing by bread and butter in this matter," said Rabbi Nieto, "but that doesn't count. A clear conscience is worth the risk. The manufacturers asked me to keep out of this thing, but I couldn't.

"These strikers are asking for a right to live. They've been answered by dogmas and platitudes. Anything dogmatic is a bar to progress. The toilers are tolling that a few may live in idleness.

"The stomachs of these strikers are crying for food. I'm going to help them get it." Rabbi Nieto then raised \$300 for the strikers, heading the list himself with a substantial subscription.

"I can't afford it," he said, "but many girls and women striving to live on a paltry \$6 weekly are among the strikers. They need it worse than I do."

TRANSFERS PRINTS OF FINGER MARKS TO FOREIGN OBJECTS

SAN FRANCISCO, Cal., Sept. 13.—How an innocent man might be convicted of crime by counterfeiting finger prints has been demonstrated here today so convincingly by Theodore Kytka, San Francisco handwriting expert, that even Detective William J. Burns had admitted that his confidence in this means of identification is now shaken.

A personal exhibit of the danger in which an innocent man might be placed, was given Burns. Taking an ordinary electric light globe, Kytka reproduced in human blood the imprint of Burns' own thumb on the globe, although the detective had never touched it.

"It's simply wonderful," Burns wrote Kytka. "Heretofore the fingerprint test was thought infallible." Photography or tracing is not involved in Kytka's discovery. He merely lifts the finger print itself and puts it where he wants it. Kytka sent the globe to Burns in New York and the detective was astounded.

"I could have made the transfer in sweat or ink," Kytka wrote, Burns "as well as I did in blood." Speaking of his discovery here today, Kytka said Burns scoffed when he first told him of his idea. "It can't be done," Kytka said Burns told him. Then Kytka reproduced the imprint of Burns' thumb.

"I would not disclose my secret method for anything in the world," Kytka said today. "My wife is the only person who knows how I did it. It would be too dangerous if the process were generally known. Innocent men would be sent to the gallops on what would seem unanswerable evidence, even though they had not been within a thousand miles of the scene of the tragedy. Fingerprints made ten or twenty years ago can be developed and counterfeited."

STILL UNABLE TO IDENTIFY TORSO

NEW YORK, Sept. 13.—Identification of the decapitated body of a woman found recently at Cliffside, N. J., is as far away as ever. Admission to this effect was made by the police here this afternoon after Francis Day, a Brooklyn real estate man, had attempted to convince police inspectors that the body was that of his sister, Annette Day, aged 22 years. Day viewed the body in the Hoboken morgue earlier in the day. His identification was based on a birthmark on the shoulder.

Late this afternoon Mary Day, Annette's sister, visited the morgue with Francis Day and after a thorough examination Day admitted that he was wrong.

"I thought at first," he said, "that it was Annette's body, but my sister Mary convinced me that I was wrong."

ACCUSE CRAWFORD OF MALFEASANCE IN OFFICE

SALEM, Ore., Sept. 13.—C. H. McLaughlin, a Marshfield attorney, charges Attorney General Crawford with dereliction of duty and malfeasance of office because of the manner in which he conducted his investigation of the Marshfield and Bandon deportation cases, in a letter received today by Governor West.

A few days ago McLaughlin also filed disbarment charges in the supreme court against Robert O. Graves, an attorney of Marshfield, who McLaughlin alleges was the spokesman for and leader of the deportation mob.

BERKELEY, Cal., Sept. 13.—Secretary of the Interior Franklin K. Lane, who collapsed in Oakland on Admission day, is recovering at the home of his brother, Dr. Frederick Lane, in Berkeley. Secretary Lane was taken for a short automobile ride yesterday and expressed himself as feeling much better. He announced today that he would remain here indefinitely, but feels that his recovery is now assured.

TROOPERS USING SABERS ON WOMEN CALUMET DISTRICT

CALUMET, Mich., Sept. 13.—Troopers with drawn sabers charged a crowd of striking miners and strike sympathizers in Eighth street today. Many persons, including a number of women, were knocked down and trampled by the horses and a number were injured. The clash followed a gathering in the street as a demonstration of sympathy with the strike. The military authorities have prohibited such assemblages.

The mine owners' refusal to arbitrate their differences with the miners had caused the Western Federation officials to order a peaceable demonstration. There was a tremendous turnout in response to the call, the streets were jammed, traffic was tied up, and the police, finding themselves powerless, appealed to the militia. The commander, complying, cleared the streets with cavalry.
