LOS ANGELES MAN HEAT CRAZED; SUICIDES

LOS ANGELES, Cal., Sept. 18.—"There's nothing tragic about this; just a failure dropping out. A touch of the heat, I guess. These words, scrawled on a bit of paper, were found clasped with a revolver in the hand of a man who lay dying on the steps of Naomi Christian church. He had fired a bullet through his head and, according to hospital surgeons, had no chance to recover. A card in the man's pocket was inscribed "W. H. Anderson." The clothing contained no other means of identification.

PRINCESS SOPHIA DEAD; HINT SUICIDE FOR LOVE

HEIDELBERG, Sept. 18.—Princess Sophia, daughter of the duke of Saxe-Weimar-Eisenbach, was found dead today in her room in her father's palace. The official version is that she died of heart failure, but it is reported she committed suicide. She loved a young Berlin banker, but her father opposed their marriage.

FOREST RESERVE SWEEP; FLAMES MENACE TOWNS

SAN DIEGO, Cal., Sept. 18.—With thousands of acres within the Cleveland national forest burned by the fierce conflagration that sprang up six days ago, the great fire flaring into a blaze, threatened to sweep the country in a half dozen places early today. By noon, however, it was reported at the office of Forest Supervisor Kinney that the fire, both in the Ramona district and in the Pamo valley, was under control. Kinney stated that the fire has for the most part burned its way through the national forest and is now consuming the low cultivated territory to the west and north. This means, Kinney says, that the fire must burn itself out before long. Fire-fighters at the Poway grade, however, reported today that the flames were crossing the grade. A fire of recent origin that is causing the agents of the government forestry bureau concern is the blaze below the Mexican border, near Table mountain. According to reports today, this fire is still burning fiercely. It may be necessary to dispatch fire-fighters to the scene for the protection of the watershed.

FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP--25 CENT DANDERINE

Girls! Girls! Save Your Hair! Make It Grow Luxuriant, Beautiful—a Delightful Dressing. If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fanish, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made. We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

STORAGE BEEF MAKING BRITON RACE ALL OVER

CHICAGO, Sept. 18.—That cold storage is making a new race of the English was asserted by Georges Claude, inventor of liquid air, in an address today before the third international refrigeration congress in progress here. "For years," he said, "800,000 to 1,500,000 cattle were slaughtered annually in Argentina for their hides alone, the carcasses being left to rot. Now the British have learned that in refrigerating ships, with chambers cooled by liquid air, this meat can be taken to England and sold at from eight to ten cents per pound profit. "It is not equal to American meat, but it is revitalizing England's poor, who have lived a subnormal existence because they could not buy meat."
