

HIGH PRAISE FOR MEDFORD FROM TOURING AUTOIST

Chas. S. Crawford, publicity manager for the Cole automobile, who recently passed through Medford on a transcontinental tour, has a page article on the Pacific Highway in the Indianapolis Star, in which he speaks of Medford as follows:

The remaining member of the quartet of thrillers belongs to Oregon. This time it isn't a mere matter of scenery. Instead, civic pride plays the leading role. It deals with Medford, the largest town of a wonderful community—Jackson county—in a wonderful part of Southern Oregon. No motorist can go through Medford without stopping awhile and learning a whole lot.

What I learned in Medford about Jackson county was most surprising. For instance, I found out that this out-of-the-way place—Jackson county—has more automobiles per capita than any other county in the universe. And here, they told us, was the richest fruit district in the world. They not only told us, but they showed us. After visiting several fruit ranches, we were convinced that it wasn't a luring tale devised by a sharp dealer in horticultural projects.

Medford people's enthusiasm is genuine. It's contagious. After we started on our way we began boosting the resources of Jackson county and the progressiveness of its metropolises in letters, literature and telegrams. This enthusiastic boosting-co-operative spirit, so prevalent in the west, is a rare treat to the eastern tourist and explains, in a measure, the wonderful growth of a wonderful country.

En passant it might not be amiss to dwell upon the comparative ease with which such a trip can be made. It is ridiculous to say that country touring today means anything but pleasure.

The Pacific Highway is in excellent condition. True, 'tis not one continual interstate boulevard, but who expects to find finely macadamized roads through such sparsely settled country? The Pacific Highway may not rival the country roads of England or continental Europe, but this international trunk line is in fine touring condition.

ASHLAND OUSTS POWER COMPANY

ASHLAND, Sept. 19.—The city council at its last meeting by a unanimous vote, passed a resolution directing the "Ashland Electric Light & Power Company" to cease selling "juice" to the citizens within the city limits, and also to commence within ten days to remove their poles and wires from the streets and alleys of the city. Under the terms of the resolution a failure to agree in writing to accept the terms of the resolution will be considered a refusal and the attorneys for the city, City Attorney Moore and Attorney Evan E. Reames of Medford, are instructed to commence ouster action at once.

The city council also appropriated the sum of \$525 to be used under the direction of the finance committee for the purposes of the suit.

FIND LAST WORDS OF LOST PHOTOGRAPHER

Assistant Superintendent Momyer has found the last message written by B. B. Bakowski, the photographer who disappeared three winters ago. While the men were putting battens on the government barn at headquarters he found up near the roof, sixteen feet from the ground, the following notice: "Past thru here 1-30-1911 on way to Crater Lake. All O. K. (Signed) B. B. BAKOWSKI." The photographer lost his life in the snow but his body was never found although several searches were made and all his effects found. Travel to Sunday was 5115; autos registered 665.

AUTO DESTROYED BY FIRE, LOSS \$1200

An auto belonging to Geo. Alberts was mysteriously burned Wednesday evening at Dupuy camp, located four miles northwest of Butte Falls. The auto is kept some distance from the residence and had a good start before the flames were noticed. The auto was valued at \$1200 but was insured.

BIBLE REVISION OF POPE CRIPPLED BY LACK OF COIN

ROME, Sept. 20.—Announcement was made today at the Vatican that the Right Rev. Abbot Gasquet, supreme head of the monastic order of the English Benedictines, and who is already in the United States on a visit has just been intrusted with a special mission there by Pope Pius. It is hoped that Father Gasquet will be able to secure contributions in America that will make possible the complete revision of the Bible which the Catholic church now has under way.

The preparing of a revised text of the Bible that would stand the test of all modern criticism and research has been one of the greatest ambitions of Pope Pius from the moment he was elected Pope ten years ago. The amount of money which it was foreseen would be entailed made it impossible for his Holiness to undertake the work until 1907 and now with a goodly part of it completed, he is facing the necessity of having to abandon it unless generous subscriptions are forthcoming.

The actual work of the revision was intrusted by Pope Pius in 1907 to the Order of the Benedictines. The work has since been carried steadily on in their monasteries in all parts of the world.

Owing to the fact that the great bulk of original Biblical manuscripts and early texts are preserved in museums from which they cannot be taken the work presented decided obstacles. There were later largely overcome by having photographs taken of all such manuscripts and these permit the most minute examination of all existing texts and early Biblical manuscripts. Over 300 volumes of these photographs, including those of the famous Biblical manuscripts in the collections of the late J. P. Morgan, have already been forwarded to Rome.

F. C. ELLIOTT IS SOLE OWNER OF PANTORIUM

The deal was completed Thursday whereby F. C. Elliott becomes sole owner of the Pantorium Dye works, having purchased J. E. Fusselman's interest, consideration \$7500.

The business was established by Mr. Elliott about four and a half years ago and he has been connected with it ever since. It grew rapidly from the start and is now one of the most up-to-date plants on the coast, employing several people and doing the best work.

That part of the plant destroyed by fire some weeks ago has been rebuilt and new machinery added to take the place of that destroyed and damaged.

Mr. Fusselman is a wide-awake business man and although he has not decided what to do, his many friends hope he will remain here and he expects to.

TRYING TO REVIVE COURTESY OF THE PAST

LONDON, Sept. 19.—Deploring the present day disregard of manners a league of young men has been founded in London, whose object is to attempt to revive the courtesy of the past in "the grand style." The league today commenced business in picturesque style. Whenever they passed the statue of a great Englishman, the members raised their hats and bowed profoundly. Standing bare-headed the members of the league naturally attract considerable attention in the crowded streets, and when a crowd had gathered, they are supposed to address a short homily to the assembled throng on the pressing need of retaining the courtesy and respect to greatness which were so characteristic of a past age. Some of the members find their courage fail them at this point but others conscientiously carry out their missionary duties.

COSTELLO LIKELY TO SUCCEED M'NAB

WASHINGTON, Sept. 19.—That Stephen V. Costello of San Francisco soon is to be appointed United States district attorney for the northern district of California to succeed John K. McNab, resigned, is a report widely circulated here today. Costello is said to have the endorsement of Representative Raker.

REAMES TO PROBE SHOOTING OF INDIAN BY KLAMATH POLICE

United States Attorney Clarence L. Reames passed through Medford this morning en route to San Francisco, where on Saturday morning a consultation of post office inspectors will be held relative to the investigation into certain Oregon and California railroad land grant frauds. Mr. Reames was accompanied by Charles Riddiford and Harry Durand, inspectors in charge for the states of Oregon, Washington and Nevada and will be joined in San Francisco by Chief Inspector Leonard.

Upon his return trip Mr. Reames will stop a day in Klamath Falls for the purpose of investigating the circumstances of the killing of an Indian by the chief of police of Klamath Falls about a year ago. The United States attorney has been directed by the attorney general to accept a commission of deputy district attorney for Klamath county and if the facts warrant such action to submit the evidence relating to the killing to the next grand jury of the county.

The Indian's name was George Smith, and he was killed April 22, 1912, being shot with a pistol by Police Officer Walker. The coroner's jury returned a verdict of self defense, but the Klamath county Indians claim that the shooting was avoidable and should not have happened.

CROOK COUNTY TO VOTE ROAD BONDS

BEND, Ore., Sept. 19.—The Crook county court yesterday acted favorably on a petition signed by hundreds of voters asking for a calling of a special election on the question of bonding the county in the sum of \$200,000 for roads. The court set the first Tuesday in November as the day of election.

The proposed issue is to be used in the construction of a highway across the county north and south. It would pass through Madras, Metolious, Prineville, Redmond, Laidlaw, Bend and Lapine.

The Crook county good roads association has been working for some months in the interest of the measure, and it is believed that it will carry at the polls. The only opposition is from districts which wanted the highway and did not get it.

PLAN TO PROSECUTE WILDCAT PROMOTERS

SALEM, Ore., Sept. 19.—Stock brokers who have not secured permits to operate in the state under the blue sky law will be prosecuted immediately, according to Corporation Commissioner Watson. The law provides that brokers must provide permits to sell stock and file lists of the stock they have for speculation.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back Color, Gloss and Thickness With Grandma's Recipe of Sage and Sulphur

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff; stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and lustrous and you appear years younger.

GENERAL STRIKE THREATEN RAILWAYS OF GREAT BRITAIN

LONDON, Sept. 19.—Refusal by the National Railway Union executive board either to endorse or repudiate a general strike in sympathy with the Dublin Transport workers was not considered here today as having done much to improve the English labor situation.

Transportworkers continued to strike wherever they were ordered to handle Dublin goods, and at Birmingham and Liverpool practically a complete tie-up existed. The decision of the railroad men's leaders was unpopular with the rank and file, too, and is seemed certain that, if the situation grows much worse, the board will have to yield to the clamor for a general strike.

The surrender of the Tilting Bus company to their men's demand for the right to wear union badges temporarily averted a strike of the London busmen but the latter are now insisting on full union recognition, and probably will have to strike to get it.

BORN.

Born to the wife of J. C. Duggan of Sams Valley August 28th, a nine-pound boy. Mr. and Mrs. Wm. Hart of Dayton, Ohio, grandparents of Mrs. Duggan were present, as were both Mr. and Mrs. Duggan's father and mother.

What Kind of Bread do You Bake?

DO YOU HAVE "SMALL LOAF LUCK," OR DO YOU ALWAYS BAKE THE LARGE, LIGHT LOAVES?

Your baking "luck" is controlled largely by your knowledge of the right flour to use. Poor flour will not produce anything but the "small loaf luck." It takes a good flour to give you perfect baking results—and to always get it.

Drifted Snow Flour

Is used by thousands of housewives because they can rely upon perfect baking results—the large light loaves—when they use "Drifted Snow."

The Sperry Mills have one of the most complete testing laboratories in the country. All the wheat is carefully tested before going through the mills and thus a perfectly uniform flour always results. You always find the same percentage of gluten in Sperry Flour. It doesn't vary with every wheat crop. Uniformity in the flour means always perfect baking results.

Try Drifted Snow Flour and bake the large, light and wholesome loaves of bread—the kind that looks so delicious and tastes more so.
