stops nasty discharge or nose run-

Recovered from Lung

Trouble—Now Insured

Insurance companies will not accept any one affected with Long Trouble. When you know a man who has been afflicted and who later has been insured, such action means that the policy-holder must be in a very good state of health. Cases have been reported when Lang Enferers after taking Eckman's Alterative, a remedy for Threat and Lang Troubles, have successfully passed the medical test of insurance companies. Read this case:

Treubles, have successfully passed the medical test of instrance companies. Bend this case ——
277 Dean St., Brocklyn, N. Y.

"Gentlemen: About a year said a half age I noticed that my besith was rapidly failing. I was troubled with night gweats, a severe cough and was very weak; having, in fact, absolutely no ambition whatever. About this time I consulted a physician, who told me my longs were affected. Not satisfied I went to an other doctor, who, after examining me, said that I was in the first stages of Lung Trouble. At this point I started to take Eckman's Alternitive. The night sweats atopied almost immediately, my cough became leaser and gradually disappeared. My weight is now 142 pounds and my physician has pronounced me perfectly sound which, together with the fact that I have just been accepted by two different insurance companies for insurance makes ine sure of my cultive recovery by Eckman's Alternitive.
