Vote 13 (X) Foss, Elmer T., non-partisan candidate for city recorder. If you think an efficient employee who is thoroughly familiar with the work of his office should be given a second term. He does not appeal to your sympathy or prejudices, but to the good judgment of fair minded citizens. His "campaign" is his record for the past two years.—Adv.

DIED

TUTTLE—Mrs. Madeline Tuttle, aged 45, wife of Warren L. Tuttle of Deer creek, was drowned Friday, Jan. 9, in Deer creek, evidently having fallen off while crossing upon a log. She was a pioneer of Josephine county and is survived by her husband and by five children, three daughters and two sons. She also leaves three sisters and four brothers, the sisters being Miss Jessie Maston, of Grants Pass, Mrs. John Baird of Selma, and Mrs. Alvin Campbell of Medford. The brothers are Will and Fred Mastin of Selma, Chas. Mastin of Washington, and Ernest Mastin of Klamath Falls. Her mother, Mrs. W. H. Mastin, of Selma, also survives.

WANTED—Girl for general housework. Address Fred Lewis, Wellen, Ore. 251\*

YEGGMAN LOOTS MEDFORD LUMBER COMPANY'S SAFE

A nimble fingered crook entered the office of the Medford Lumber company sometime between Saturday night and early Monday morning, and with nothing but his sense of touch and a coal chisel opened the safe, securing \$60 in money, and two county warrants. The thief solved the combination of the safe and opened the inner drawers with a chisel. The robbery was discovered this morning, and the loss reported to the police.

Employees of the lumber company told Chief Hittson that a man has been coming to the yards every night, they thought to sleep, but that every morning tracks were found about the office door. Therefore the police deduct that the cracksman has been working on the combination for three or four nights, and is an expert safe worker.

The lock of the inner door was punched in with the cold chisel and each door demolished, and the contents searched. One of these drawers is missing. All the valuable papers and notes of the firm were carefully piled by the prowler underneath the safe, where they were found this morning. The safe's interior is a wreck.

The police have no clues, and Chief Hittson issued a warning to all owners of safes in the outer districts to be on guard.

LACK OF FRESH AIR

Causes Rundown Condition, How to Keep Strong

Statistics prove that the death rate is very much greater in the winter months than in summer, and that the lack of fresh air is largely responsible for this condition.

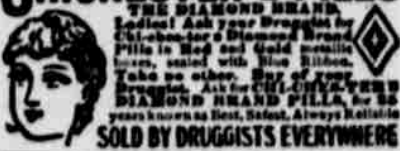

If the system becomes rundown, blood thin and watery, circulation poor, no appetite, don't dose with drugs, but take our delicious cod liver and iron tonic Vinol, not a patent medicine, as everything in it is named on every package and if it does not give you a hearty appetite, enrich the blood and create strength, we will return your money; that shows our faith in Vinol.

A case has just come to our attention from Knoxville, Tenn. Miss Carrie King says: "For three years I was all run-down, weak, had no appetite and after all that time I am glad to say Vinol has brought back my health and strength."

Try a bottle of Vinol, on our guarantee. Medford Pharmacy, Medford, Ore.

P. S. For Eczema of scalp try our Saxo Salve. We guarantee it.

Insure the Goose

Whatever of competence you have acquired has been the result of your ability to stay on the job and accomplish your daily task. If the property you have acquired, or will acquire in the future, can be called the Golden Egg, certainly your ability to stay on the job is the Goose which has or will lay that Egg.

You can protect the Egg by Fire Insurance. You can protect those who are dependent upon you by Life Insurance. You can also protect yourself against the loss of your ability to stay on the job by Accident and Health Insurance.

When accident or illness comes, expense goes on with increasing volume, while often income stops. You cannot tell when such a contingency will arise in your life. In fact, every part of your body has a value which may be in some way measured in terms of money, and insurance against such a loss is your only safeguard.

I trust this will serve to interest you in the subject, and that you will accord me an interview on the matter.

Twenty-one persons are accidentally injured every minute. Every five minutes one person is accidentally killed. Five times as many persons are injured and killed each year as die from natural causes. More die and are disabled each year from pin pricks and other slight injuries than die from pneumonia. One death in every twelve is due to accidental causes.

These suggestions will justify you in giving careful consideration to this subject.
