

### RAIN AND COLD GREET TOURISTS IN SOUTH CALIFORNIA

W. N. Campbell has received the following from Dr. W. S. Goudy, who is spending the winter in Los Angeles:

"Have not seen the sun since leaving Medford. Rain, fog and cold. California is sure catching hell for her past misdeeds. The tourist travel is fully two-thirds shy. This leaves the smaller hotels and apartment houses in a bad fix. Money is tight. Men with good property cannot go to the bank and draw their breath, let alone cash. Some predict the worst is yet to come.

"Don't know just when I will go to San Diego. Would take the chance with the Mexicans to escape conditions as they now exist in this part of California. No more for me. I shall spend my winters in Eagle Point or Ashland and be better off. I don't like to discuss ancient history via the mail; will tell you all about the Cross and Anderson fight later."

### UNEMPLOYED SEEK MEALS IN MEDFORD

For the first time in two weeks no wanderers were sheltered in the city jail Monday night, but a new type of the down-and-out class came—the well-dressed unemployed, instead of the shiftless loiterers frequenting saloons. The police reports this morning included phone calls from the residence districts, principally the east side, telling of back-door visitors during the breakfast hour, asking for work or food. In most cases they were given wood to chop and chores to do. The calls for food have become so numerous upon local hotels and restaurants that they have been compelled to refuse all-comers. Chief of Police Hittson says that a remarkable feature has been the lack of begging on the streets.

### NO TRACE FOUND OF F. LEWIS CLARK

SANTA BARBARA, Cal., Jan. 20.—Although a dozen private detectives have been retained to aid the police in their search, no trace has been found today of F. Lewis Clark of Spokane, who disappeared from Santa Barbara Friday night. The beach where Clark's hat was found Saturday was patrolled all night. Mrs. Clark, who returned to Santa Barbara yesterday from San Francisco, does not believe her husband has taken his life. She has no explanation to offer, however, for his disappearance.

### STONED BANK FOR OPPRESSING PEOPLE

CORVALLIS, Or., Jan. 20.—I threw the rock as a protest against the system that exists everywhere of crushing the life out of the people for the greed of money. The bank is the place where the money thus acquired is hoarded.

This was the statement today of Leopold Cunda, said to be a socialist, who last night threw a rock through the plate glass window of the Benton County National bank and was arrested.

#### Married

Rufus Trusty of Dunsmuir, Cal., and Louisa Frally of Ashland were married at the Methodist parsonage Monday night by the Rev. E. O. Eldridge. They will make their home in Dunsmuir.

### WOMEN FIGHTERS FOR THE REBELS IN MEXICO

Hundreds of women have joined the revolutionary movement in Mexico. The illustration here shows a well-organized company of them which took part in the fighting about Juarez, when General Pancho Villa captured that town from the federal troops.

The uniforms of the women are black skirts, with white shirt waists, ornamented with belts of cartridges strapped across their shoulders and another about the waist. There have so far been few reports as to the success of the women as soldiers, because the Mexicans don't favor telling much to the newspaper men

on the border. Nevertheless, it is known that the army of Villa has contained women on most of its marches, and they must have taken part in the fighting. This company of women is now stationed in Juarez as a part of the garrison to protect the town against a possible raid by the federals.

### JAP PARLIAMENT MAY SPLIT ON NAVY

TOKIO, Jan. 20.—The Japanese parliament convened today for what promises to be a very interesting session. Owing to the fact that the government party has an overwhelming majority in the lower house, minor administration bills are expected to go through without trouble. Should the government introduce a big naval bill, however, as is expected, there probably will be a split in the dominant party, many of the lawmakers believing the people already are carrying the limit of taxation, they are able to bear.

Goetz is proprietor of the Coeur d'Alene hotel, formerly a gambling palace and variety theater, and owner of the Spokane red-light district.

### NEARLY INCH OF RAIN REFRESHES THE EARTH

Rain of unusual severity fell over the Rogue River valley Monday night and early Tuesday morning, giving the ground the much desired thorough soaking. The rain was driven at times by a brisk wind and came in sheets. The fall totaled .85-inch, making the total for the month of January 2.69 inches, against an average rainfall of 2.73 inches. More rain is the prediction of the weather man for tonight and tomorrow. The seasonal shortage is over six inches.

### UNEMPLOYED WANT FOOD SENT THEM

PORTLAND, Or., Jan. 20.—As a result of the discovery of a case of smallpox in the old wooden tabernacle where from 1000 to 1200 unemployed men have been sheltered, it was announced today by Dr. M. B. Marcellus, city health officer, that unless all submitted to vaccination the place would be closed. Twenty-nine were vaccinated last night, but the leaders of the unemployed stated that no more men would submit.

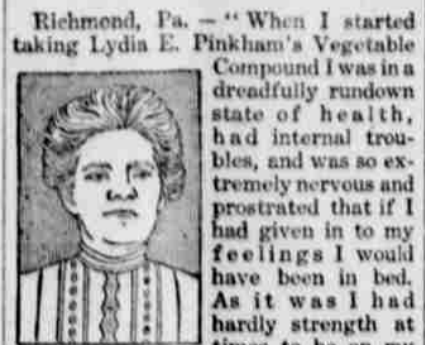

What the men want, according to Dr. Marcellus, is to have the tabernacle quarantined and their food sent in to them.

### WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa. — "When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully run-down state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache. "After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound." — Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

### LOCAL INVENTOR TAKES THE FLICKER OUT OF MOVIES

R. G. Patch, the operator at the Isis theatre of this city, believes he has solved the problem of taking the flicker out of motion pictures by a recently patented machine he has invented, but not as yet perfected. However, it is very likely to be fully developed in the Edison laboratories. The machine is to be known as the Maltipie compound, and each individual little picture will be compounded. The intermittent movement will be four times faster than those in use, but yet the machine will not use up or "feed" the film any faster than those now used, and the lenses are to be the same, and no more in number than at present. The shutter will be known as the outside multiple disk type with intermittent movement and when the machine is highly perfected by expert mechanics the public can enjoy the long-sought flickerless "movie," no doubt.
